BUILDING MATERIAL MARKET.

NEW YORK.

BRICKS.—Just about the same general conditions prevail as for two or three weeks past, and practically the only new feature to advise is a further shading in the line of value. Once more $5 has become an extreme top rate and quotable for fancy brands only, while the great bulk of the business has been from $4.75 per M downward and some first rate stock available at $4.50. We are informed that the sale of supplies has been closer to arrivals, and the first hand accumulation in consequence at the moment is not extensive, but there seems to be quite enough and to spare, and we also hear a repetition of complaint about the delay in unloading barges by customers who purchased a week or two ago. Actual consumption is probably increasing, but evidently in part provided for as indicated by the loads that have been held alongside wharf so long in various localities, but it is noticeable that even as low as rates now rule there is not much inclination to talk of immediate reaction. It seems to be a clear case of excess of production and a good general average of quality making a combination well in favor of buyers. According to general indications there is little probability that manufacturers will curtail work for some time although here and there they commence to appreciate the necessity for so doing.

GLASS.—Business in window glass has commenced to improve somewhat, actual wants stimulating demand a trifle, and the advance in price also hurrying buyers to some extent. Offerings only fair, and the recent revision of cost strictly adherred to. We last week referred to probable labor troubles before the next fire, and

in accord with suggestions then made we reprint the following from Pittsburg correspondence of a leading trade journal devoted to the glass interests: The convention of window glass workers in session in this city during the past week has curtailed the power formerly possessed by their conference committee, and the agreement reached between the manufacturers' and workmen's committees will hereafter be submitted to a vote of the entire membership for ratification before work shall be resumed. Even after an agreement has been effected work will not, under this new rule, be resumed for two or three weeks after its submission, in case of a favorable vote, and proportionately longer if a second and third vote is required. The convention also instructed the conference committee to secure a Saturday half-holiday, a restrictive measure certain to meet with very decided opposition by the large tank operators, whom it will seriously affect in large curtailment of production. It has also been decided to restrict production to 40 instead of 48 boxes of 100 feet per week, per pot or blower, of single strength, and to 25 boxes, instead of thirty boxes, of double strength. As both these measures will directly increase the cost of production, and is outside the regular advance in wages, which is likely to be anywhere from 10 to 22 per cent., it is likely that the resumption of work will be delayed till October at least. The strength of the workmen's position will depend on the condition of the market and the amount of possible imports of foreign glass from the end of August till the beginning of October, during which time demand pressure from jobbers for closing up of fall building is certain to be keen, and available domestic stocks and possible foreign imports will fall short of demand, especially in large sizes of first quality. Plate glass is selling fairly, with a tendency to increase if anything, and the market is firm with the new list recently adopted by the local jobbers association, to go into effect on the first of next month. Supplies are fair but well in hand and operators expressing no great fear of foreign competition.

LATH.—Receivers are generally feeling in a happier mood. For two weeks consecutively they have been able to keep prices on the upward turn, with latest dealings at $1.90 and now at $2, with much confidence in ability to promptly establish the latter figure, possibly on the next important sale. Some fresh stock has been coming in, but nothing of an annoying character as to quantity or quality, the advices at hand claim small amounts afloat for this market, and with here and there a dealer showing a little hurry to get stock it looks more like a seller's market than for some time past.

LIME.—Receivers have been correct in predicting moderate arrivals, but as yet business does not quicken to a satisfactory extent. Actual consumption hardly expands in a manner calculated to give the movement any volume or freedom, and as dealers are well supplied with stock at less cost than they can at present purchase they are not unwilling that receivers should hold the umbrella while they sell out. Old figures are named but the top range is a quotation only, and 95c. and and 85c. for finishing and common respectively show about selling basis, with probably a percentage off from those figures for prompt cash.

LUMBER.—A generally better feeling may be noted as gradually gaining ground, and there is improvement in tone of reports now making. At some of the yards deliveries have increased to quite a pronounced degree during the past two or three weeks and new orders and calls for estimates are following up in satisfactory manner. Most dealers are prepared to meet the demand upon them at present, but with an increase of custom feel a certain amount of inspiration to look about regarding chances for renewals and the market for bulk parcels benefited accordingly. Some of the manufacturing industries are now picking up orders with increased freedom and in a manner to indicate continuation with probable expansion, and in some localities building operations are being pushed with increasing vigor. There is also more or less call for export and all the natural outlets may be considered as furnishing some demand at the moment.

White Pine seems to find more demand. The favors of buyers are somewhat unevenly divided, and now and then an agent grumbles because he does not get a slice of the moving trade, but the orders are increasing and will probably soon become more general. The effect upon values is to steady them up nicely, but there appears too many conflicting interests in the way to hope for immediate positive improvement. Reports of low prices in box-boards continue and sales have been made at apparently easy rates, but there is reason to suspect that when actual deliveries are made the goods are not up to fully standard quality and assortment.

Yellow Pine is spoken of more hopefully. The gain in trade to which we have of late made reference is progressing, a reasonably full local demand being supplemented by increasing calls from out of town custom, and even in the matter of values there seems to be greater firmness and uniformity than heretofore. The increase in the export demand heretofore noted also has an influence of cheering character upon the general tone of the market.

Carolina Pine is not reported active by all operators, and again there are some who are speaking of a very full trade and appear particularly well satisfied with the way business is shaping. There is no doubt that whatever gain does come in general trade this class of stock will get its full proportionate benefit owing to its staple character and comparative cheapness. Prices now are stiffening and sales take place nearer a parity of figures quoted on primal markets than for a long while past.

Hemlock continues firm in tone, and is selling well to most lines of custom ordinarily resorting to this market, with some new buyers constantly turning up. Indeed, it is somewhat surprising that this once much despised wood is now so popular with a large class of local consumers. Advices from primal markets are strong and desirable assortments continue difficult to reach.

Spruce continues to be spoken of with much hopefulness and enthusiasm. A certain amount of random of not particularly attractive quality may be looked for during a week or two, as it is understood some of the mills are cleaning up and shipping off the remaining odds and ends of cut stock, but after that the amounts forwarded will be small, and particularly so in the way of large dimensions, while for specials it is still quite difficult to place orders even at full bids. It looks very much as though manufacturers were quite determined in standing off and keeping many mills closed down until September 1st, in accordance with previous statements of intention to follow that course. Northern spruce is offered sparingly and taken about as rapidly as it becomes available.

Hardwoods are getting more attention, but not of general character as yet, the most pronounced evidences of demand being for such stock as oak and poplar, although it is expected other kinds will follow in due season. The quietness in manufacturing interests common at end of first six months of the year is being followed by a call for stock against actual working necessities, and that can hardly fail to expand into still greater proportion as fall and winter approaches. Local building operations insure the use of a large quantity of hardwoods of all staple varieties of domestic growth, and as predicted in this column long ago, mahogany will get a liberal share of trade not only on its dressing merits, but as relatively the cheapest stock on sale.

GENERAL LUMBER NOTES.

THE WEST.

At Chicago, according to the *Northwestern Lumberman*, receipts continue to be moderate, and all offerings but those of shingles are disposed of without much delay. Shingles continue to drag as yard dealers fear overstock on account of the competition of Pacific coast cedars.

Piece stuff sells as readily as anything, and prices are still maintained on a basis of $9 a thousand for short lengths. It is likely, however, that the yard dealers are not as eager to buy as they would be if they could maintain a handling margin between cargo and yard prices; but that they have not been able to do so far this season, and just at present there seems to be less chance for it than at any previous time. A little later, when the fall trade begins to develop, there will be a change to stronger conditions without much doubt.

Inch lumber is not especially active. Lumber arriving is seldom better than flat common, though Lake Superior strips sometimes afford pickings that are denominated D, and are simple accentuations of good common. When a dealer can get a fair percentage of D strips out of a cargo he is a happy man, for it has been so long since he could squeeze any fat out of purchases that a little thing like a streak of fat amid the lean tickles him immensely.

BRITISH PROVINCES.

The Toronto *Monetary Times* has the following:

Pine is meanwhile slow of movement, as dealers are not buying yet, but hardwoods are in fair demand. Prices of pine, while nominally unchanged, can be shaded, the feeling of Georgian Bay mill men being weaker, by reason of the fact that they begin to feel the need of piling ground and must soon begin to sell. Another thing that tends to weaken prices is that Wisconsin mill men are cutting prices, offering lumber in Albany, Boston and New York at prices lower than ours. Lath are lower, say $1.80 for No. 1 and $1.60 for No. 2; there are plenty of them and demand will not begin until September.

Our readers have been made familiar with the fact that much, if not most of the lumbering industry of British Columbia has been carried on for several years in a manner that precluded adequate profit. With advantages in quality and dimension that might have enabled the manufacturers of the magnificent pine and cedar of the Pacific coast to demand and receive appropriate remuneration for their work, British Columbia timber and lumber has nevertheless been sold too low. The mill men have come to their senses, however, and on Saturday, 6th inst., held a conference at Vancouver in order to arrive at an understanding as to prices that would yield a living profit. They agreed, we are told, to advance prices from $2 to $3 per thousand feet, and the effect has been to put fresh heart into all engaged. The *Columbian* declares the outlook for the trade has not been so bright in years. "The selling price for the last three years has been little above the cost, and most manufacturers have been losing money. The advance in price now made will stiffen the business. The better prospects ahead will be an irresistible argument for the rebuilding of the Brunette mills."

On this subject the Winnipeg *Free Press* of Saturday says that British Columbia lumber, owing to the demand existing on the Pacific coast, has advanced in price in Winnipeg and Manitoba generally. The price has gone up $2 to $3 a thousand on all kinds of lumber; shingles have advanced 25 to 50 cents.

ENGLAND.

A Liverpool circular (Farnworth & Jardine), July 1st, says:

The arrivals from British North America, for June, showed a great decline, being 22 vessels, 20,117 tons, against 33 vessels, 30,975 tons, during the corresponding month last year, and the aggregate tonnage to this date from all places during the years 1893, 1894 and 1895 has been 108,357, 119,056 and 118,869 tons respectively. Imports during the month have been moderate, the consumption on the whole has been fair, and stocks, with a few exceptions, cannot be considered excessive. Generally there is more inquiry, and values of most of the leading articles, although still very low, are steady.

United States Oak.—Of logs, several parcels have arrived, chiefly by steamers from Mobile. The quality generally has been unsatisfactory, and sales have been made at exceptionally low rates. Of planks, the import has been fairly moderate, and, although stocks are not excessive, the demand is very dull; sales difficult, and prices rule low. The total stocks amounts to 275,000 cubic feet.

Pitch Pine.—The arrivals during the past month have been 7 vessels, 7,811 tons, against 7 vessels, 5,699 tons, during the same time last year. Of hewn, there have been two parcels from Mobile, consisting of 378 logs; the consumption has been good, and though stocks are somewhat lighter, values are unchanged. Of sawn, the arrivals have been 9,189 logs from various ports; the consumption has been on a moderate scale, stocks are a little heavier, and prices show no improvement. Planks and boards have come forward freely, and though consumption has been good, stocks have accumulated and are too heavy.

Sequoia (California Redwood).—The stock is ample, and recent sales have been of a retail character; the demand is small.

British Columbian and Oregon Pine.—There have been no arrivals; there has been more inquiry, but prices are easier, and the stock still too heavy.

United States Staves.—The arrivals have again been on a large scale; stocks are ample and values unchanged.

METALS.—The markets generally continue in healthy and promising form, but have lost the buoyant tendency of a couple of weeks ago, and most of the more recent advances have been simply in the way of bringing some previously laggard article up to the common level. Conservative operators look upon a cessation of tendency to boom matters as a very desirable development, and calculated to solidify and make permanent the gains recently secured, relieving the position of a strain of nervousness, which, if continued, could only prove detrimental to general business. Furthermore, there has been an immense deal perfected, taking into account the orders booked for heavy finished products and the counter contracts for material, with a probability that every present known want is provided for and new necessities must arise to bring buyers into market again. It is also well known that a great many articles in the way of small wares, especially in the hardware line, have not yet secured a gain in accord with increased cost of material, and although it is confidently expected this gain will come, manufacturers do not care to increase their working supplies until they see a better market for the product.

Copper has retained a slight measure of irregularity, but in the main advantages were with sellers. The disturbing influence seems to have come from people who were in receipt of supplies on contract where the delivery price afforded a margin at current market rates, and proved an attraction to take profit. Pretty much everything offered was quickly taken, however, and the companies being well sold up are in no way anxious to negotiate ahead. On the average range of values we quote at 11¼@11½c. for Lake and 10⅝@11c. for casting brands. Manufactured copper meets with much the same experience as other staple products, the demand fairly full from all natural sources and market firm, yet producers not yet feeling that they are getting full compensation for increased cost of material. We quote as follows: Sheet, not above 30x72 in., 16 oz and over, 14c.; do, 14 to 16 oz., 15c., do. 12 to 14 oz., 16c.; do 10 to 12 oz., 17c.; do, 8 to 10 oz., 20c.; do, under 8 oz., 22c. Sheets longer than 72 inches 14c. for 12@16 oz., 19c. for 10@12 oz., and 23c. for 8@10 oz. Sheets not above 36x96 in.. 16 oz. and over, 14c.; do, 14 to 16 oz., 16c.; do. 12 to 14 oz., 18c.; do, 10 to 12 oz., 22c.; do, 8 to 10 oz., 25c. Sheets longer than 96 inches 14c. for over 32 oz. 15c. for 16 to 32 oz.; 23c. 14 to 16 oz.; 19c. 12 to 14 oz.; 23c. for 10 to 12 oz. and 27c. for 8 to 10 oz. Sheets not above 48x96, 32 to 64 oz., 14c.; do, 16 to 32 oz., 16c.; do, 14 to 16 oz., 18c.; do, 12 to 14 oz., 20c.; do. 10 to 12 oz., 24c. Sheets wider than 48x96 and longer, 14@17c. for 32 to 64 oz.; 19@26c. for 16 to 32 oz.; 21@—c. for 14 to 16 oz. and 25@—c. for 12 to 14 oz. Bolt copper, ⅜ inch diameter and over, 14c. Circles, segments and pattern sheets, 60 diameter and less, 3c. above price of sheets of same thickness; circles, 60 to 96 do do, 4c. do; circles, 96 do and over, 5c. do Cold or hard rolled copper, 1@2c. per lb above the foregoing prices. Copper bottoms, 18@24c. per lb. IRON—American Pig cannot be said to find much demand outside natural run of trade orders for small lots of stock, most consumers being protected by supplies coming to them on previously booked contract. The latter, however, require constant and full attention and there is nothing to curtail the general output, and prices are sustained at the late advance without difficulty. We quote at $13.00@14.00 per ton for No. 1 X foundry; $12.25@13.25 for No. 2 X do., and $11.50@12.00 for Gray Forge; Scotch pig iron, $22.00@25.00. Old material gets fair attention and has a generally healthy solid sort of tone with offerings of moderate volume and full former rates asked in all cases. It is, however, the same experience as with other lines of stock, and buyers appear cautious about investing at the recent advance in cost. We quote at $13.25@13.50 for old iron rails; $11.00@12.00 for No. 1 wrought scrap; $10.00@11.00 for cast scrap; $10.50@11.50 for old car wheels, and $7.50@9.50 for borings, stove plate, etc. Manufactured iron and steel is meeting with less attention on new orders. Consumers operated so freely during the recent flurry that many of them are unlikely to trouble the market again for balance of year, and demand is now largely dependent upon such fresh necessities as may from time to time arise. Where manufacturers are prepared to open fresh negotiations they insist strongly and positively upon extreme line of valuation. Steel rails remain firm at the advance of a few weeks ago, and there is quite a fair trade going on in the way of small special orders for light sections, etc., but none of the leading roads have shown a disposition to come in and place important contracts, so far as learned of down to present writing. We quote standard sections $24 per ton at mill, with usual advances for delivery at tide water. Pig lead meets with no important demand from consumers against future wants, as they appear to entertain no special fears of any important addition to value. They are not bearish, however, or calculating upon forcing sellers to recede from present position, and all amounts for which there is well defined use are promptly called for. We quote at 3.40@3½c. per lb. The manufactures of lead are quoted at 5¼c. for Pipe, 6½c. for Sheet, 12½c. for Outlined Pipe, and 25c. for Block Tin Pipe. Pig Tin retains a strong tone and holders generally talk bullish on an assured increase of consumption. Available supplies, however, are plenty enough and every call for stock has been promptly and readily met. We quote at about 14½@14¾c. for round lots, and 14¾@15c. for jobbing parcels. Tin plates are

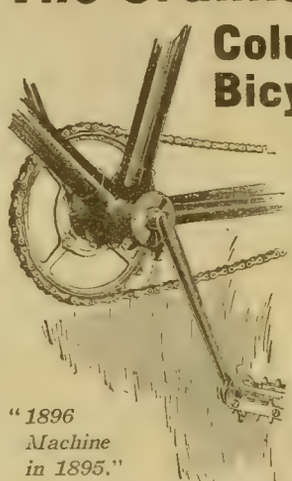
firmly held and the offerings somewhat indifferently made with general confidence in market shown, although buyers do not show much inclination to invest beyond present wants. We quote as follows: I. C. Charcoal. Melyn grade $4.75@4.80; Charcoal, Melyn grade, I. X., $6.00; I. C. Charcoal, Allaway grade, $4.05@4.10; Allaway grade, I. X., $5.10@5.15; Charcoal terne, M. F. grade, 14x20, $6.00@6.05; M. F. grade, 20x28, $12.00@12.10; Worcester, 14x20, $4.10@4.15; Worcester, 20x28 $8.20@8.25; Alyn grade, 14x20, $3 75@3.85; Alyn grade, 20x28, $7.25@7.50; D. R. D. grade, 14x20, $3.70@3.90; D. R. D grade, 20x28, $7.12½@7.25; I. C. Coke, Bessemer steel, heavy, $3.60@3.85; Bessemer steel, light, 14x20, $3.45@3.55. Spelter sells along fairly in small lots and has a well sustained position, although holders pretend to no greater advantage at the moment. We quote at 3¾@3.85, according to quality and quantity.

NAILS.—Unbroken strength continues to be claimed for the general market. For various natural reasons the new demand at the moment is slow, and mostly from customers who, either through choice or necessity, have failed to fortify their wants by engaging stock ahead, but even that trade, in conjunction with the out-turn on booked engagements, gives manufacturers all they can attend to. An early advance on wire nails is considered a foregone conclusion. We quote cut at 1.30@1.35 per keg for car lots, and 1.45@1.60 per keg for parcels from dock and store for iron, and add 3c. per keg for steel; wire, 1.55c @1.65c. for car lots, and $1.70@1.80 from dock and store.

The changes in wire nails decided upon for August involve an entire revision of list, which makes many advances, as well as putting up the base price 50c., and the rates at New York will be $2.20 on dock and $2.30 in small lots from store. Cut nails have also been advanced 50 c. and a new card increasing cost on some of the larger sizes. The New York rates will be $1.95 car lots on dock; $2.06 small lots do., and $2.10 small lots from store.



PAINTS, OILS, ETC.—General demand is not active, buyers as a rule feeling unwilling to commence putting in stocks as yet beyond an average working assortment to keep trade running. Everything in way of information obtained from dependent custom, however, goes to confirm the impression that the lines of stock held are small and unimportant, and a filling out of assortments must take place this fall, probably at an earlier date than usual. Manufacturers in some cases are well employed on booked orders for staple goods, and in other instances are working out stocks for natural trade accumulation against prospective wants. Prices, as a rule, are running about steady. On Paris Green the recent revised list is as follows: In arsenic kegs or casks, 20c.; kegs, 100 to 175 pounds, 20½c; 14, 28 and 56-pound iron cans or boxes, net weight, 22c.; 2 to 5-pound paper boxes, 22c; 1-pound paper boxes, 22½c.; ½-pound paper boxes, 24½c.; ¼-pound paper boxes, 26½c. Rebates to purchasers of 20,000 pounds or over during the season, 3½c. per pound; 10,000 to 20,000 pounds, 3c.; 5,000 to 10,000 pounds, 2c.; 2,000 to 5,000 pounds, ½c. Zincs, as a rule, are showing in firm tone, without much addition to business at the moment. There is nothing new in Leads at the moment. Some operators now and then suggest the possibility of advance in cost, but it is almost authoritatively denied; that no change is for the present contemplated. On leads the Association figures last announced are as follows, subject to change without notice: Pure white lead, dry and in oil, red lead or litharge in kegs, in lots of less than 500 pounds, 6c.; in lots of 500 pounds and over, 5½c. Red lead and litharge in barrels and half barrels, ¼c. per pound less than prices in kegs. White lead in 25-pound tin pails, 11½c.; in 12½-pound tin pails, 1c.; in 1 to 5-pound tin cans (100 pounds in case), 1½c. per pound above keg price. Terms: On lots of 500 pounds or more, sixty days, or two per cent. discount for cash if paid within fifteen days from date of invoice. Special price for dry white lead in barrels. The above prices and terms supersede previous prices and terms offered by this company. Linseed is moving out slowly and moderately, yet operators consider the business seasonable, and for pretty much all makes prices are steadily held. We quote at 57@58c. for Western, 58@59c. for City from domestic seed and 59@60c. for do. from Calcutta seed. Spirits turpentine has shown some fractional irregularities without making a variation in the general range of cost, and the volume of business continues exceedingly small. We quote at 28@29c. per gallon, according to quality, quantity, delivery, etc.

TAR AND PITCH.—Operations are moderate and, as a rule, of routine character, confined in the main to such parcels as the immediate natural wants of regular trade suggest. Supply balances the outlet, with about former rates ruling. We quote Tar at $1.90@1.95 in pine or Wilmington bbls., $2.60@2.75 in pork bbls. and $3.25@3.50 in oil bbls.; Pitch, $1.70@1.80.

VOL. LVI. AUGUST 3, 1895. No. 1,429

CROP news ceasing to influence values and being followed by evidence of continued disturbance in the Exchange market, prices are naturally easing off. That the break began with the announcement that the Bond Syndicate had turned over $2,000,000 of its gold to the Treasury in exchange for greenbacks is not to be wondered at. This act reminds people of the abandonment of the Government's contract, which was a businesslike and proper one, to prevent gold shipments and it also raises the question of the obligations of the Syndicate towards exchange. Is this to be a singular operation, or is it to be repeated whenever the Treasury gold balance is reduced? If the preservation of the gold reserve depends entirely on the generosity of the Syndicate, it puts the Treasury in a very undignified position, if not in one of those "holes" that political partisans always like their antagonists to occupy. It also gives the Syndicate a power for good or ill for which the public has had and will have to pay smartly. It will be borne in mind that no authoritative or official statement of the changed relations of the Syndicate toward the Treasury has ever been made, and as a consequence, the public, including the people who have to pay very high rates for exchange with which to settle their obligations abroad and high prices for bonds, are left quite in the dark as to the exact nature of those relations, or whether any exist at all. In consequence, the business community, outside of the small party who are manipulating the market, conducts all its operations at a decided disadvantage. There are plenty of newspapers and men who assume to talk for both the Treasury and the Syndicate, but their warrant for doing so is not at all apparent; what they say therefore has no weight in removing the suspicion with which the situation is generally regarded.

IRON and steel exports from Great Britain in the first six months of 1895 were somewhat in excess of those for the first halves of 1894 and 1892, but suffer very considerably in comparison with the returns for 1893 and 1891. Such increased shipments as there were, were more than accounted for in pig iron, the least profitable of all exports in this class. Exports of manufactured iron show the effects of foreign competition. French imports for June were less than in the same month last year, while the contrary was the case with the exports. The same features characterize the foreign trade for the first half of the year. The Berlin and Vienna bourses are both made nervous by political movements in the Balkan States. The Brazilian Government five per cent loan was issued at 85, a fact significant of the uncertain condition of the finances of that power. A statement has been compiled for the information of British investors showing the government loans in default. Of a total of nearly $270,000,000, embracing only the chief of such loans, $12,000,000 are credited to the late Confederate States, $15,000,000 to West Virginia, $7,000,000 to Mississippi and $900,000 to Louisiana. These are without interest, which in some cases doubles and quadruples the principal, but is carefully set out in the report of an institution known as the Corporation of Foreign Bondholders. The general trade of Europe shows no marked changes. On the bourses as well as at the banks nearly all the business is in government loans, and the efforts of those who make the rates for money are employed in preventing new funds coming in to lessen the very poor rates that maintain.

THE quite unexpected death of Richard Morris Hunt deprives the architectural profession of one who, in many respects, was its most imposing, if not its most important personality. The position which Mr. Hunt occupied among his brethren was exceptional and peculiar, derived in a much greater degree from traditional and personal qualities than from artistic supremacy or marked professional activity. His loss consequently is far greater to architects than to the public at large, who have been most benefited in an indirect way, by his long, busy and honorable career. Mr. Hunt's abundant professional work, though distinctly of a high order, scholarly, measured, solid, was not, it must be acknowledged, of the very highest order, judged even by the standard of to-day. Viewed as a whole, it is deficient in, but not destitute of, power, imagination, spontaneity, delicacy and charm. The touch of inevitableness—the result of the complete fusion of the artist's processes, perceptions and individuality in the accomplished work—was rarely his. But if his work was in places labored and intentional, too declaratory of its elements, it possessed the noble and, alas, rare distinction of being never meritricious, never a thing of catch-forms or the trumpery fashion of the hour. Indeed, few architects of his day kept themselves so free as he did from debasing concessions to the current *modes*. It may perhaps be wondered at that one who was so distinctly the dean of his profession should not have been of greater distinction professionally, but we are sure the answer of every architect to any one who should complain that the measure of Mr. Hunt's professional reputation is somewhat larger than the measure of his artistic reputation will be similar to the reply which St. Beuve made to Matthew Arnold when the latter expressed a doubt as to whether the importance of Lamartine was equal to the reputation he obtained in France: "He is very important to *us*." The importance of Mr. Hunt's career to the American architect is not easily to be overestimated. At a time when such things were sadly lacking in this country, Mr. Hunt brought to his profession scholarly attainments, real knowledge, purpose, high interest in and persistent activity for the dignity and advancement of architecture in the United States.

ANY one who is curious to know what New York would look like should soft coal become the common fuel of its inhabitants, can get a pretty good idea by visiting the Mott Haven Railroad yards on a heavy moist day. All day and night the shifting engines in these yards are emitting dense columns of deep black smoke in defiance of the law and, apparently, without check or interference from the Health Department. The result is that on sultry days a heavy cloudy canopy hangs like a pall over the neighborhood and intensifies the discomfort of the people who live and work there. As a matter of fact the Health Department has become neglectful of its duties under the smoke ordinance. There are endless smokestacks puffing abominations into the air in all parts of the city. The manufacturers in the Twenty-third Ward are conspicuous offenders in this respect. As their flagrant violations of the law are to be seen by every passenger on the bridges at Second and Third avenues, it is evident that they do not fear the vigilance of the officers of the Health Department. Others who are equal sinners against the beauty and good fame of our city are those whose works are near the East River, and some of the tall chimneys in the dry-goods district may also be seen at times doing their utmost to befoul the air. This is all wrong and the people who are responsible for it should be made to understand their duties as citizens better than they do now, as the president of a large concern was made to do something over a year ago. The Health Department, too, should be made to understand that it is just as important that the city should be clean overhead as underfoot, even if it should become necessary to take off the top of its head and pour the idea boiling hot into its brain.

THE preparation and publication of statistics are arts that we do not seem to catch hold of in this country, except perhaps when they are prepared and issued under the direction and for the use of the commercial exchanges. Beyond that they are either bald statements of figures relating to the body or department that issues them and of no value whatever to the community, or they appear too late to be of any practical use. An instance of the justice of the first of these criticisms is afforded by the publication recently by the Bureau of Labor Statistics of a statement purporting to show the building operations in this city for the first half of the year. This consisted simply of the number and estimated cost of the buildings for which plans were filed from January 1st to June 30th. Readers of this journal had long before been made acquainted with these figures properly classified and accompanied by much other information that gave them practical value. In explanation of the meagreness of its statement, the agent of the Bureau of Labor Statistics has stated that owing to the arrears of work in the Department of Buildings of this city further information that used to be available is not so any longer. This remark had particular reference to the number and cost of buildings finished and begun in the period reported upon, the only statistics in fact that the Department of Buildings could furnish that would serve to show, in at least an approximate degree, the activity in the building trade. As every one acquainted with the subject knows, the number of plans filed does not afford a safe indication of the amount of building work going on. Plans are often filed unaccompanied by any immediate intention to carry them out in the minds of the filers, and they are sometimes

withdrawn after filing to be replaced by others under new numbers. These conditions are never alike in any two years. This year, owing to the introduction of legislation affecting tenement houses, the number of plans filed on which no work will be begun for some time was very large. Instances of statistics delayed beyond their periods of usefulness, which are still-born, it may be said, can be found in *The City Record* pretty frequently; it is only in these summer days that the reports of the city departments for 1894 are appearing in the official paper. People who desired the information contained in these reports have long ago informed themselves of it from other sources. Other instances of useless statistics, that is, useless for commercial considerations, though perhaps having some academic value, are found in the costly volumes issued by the Interstate Commerce Commission. Besides that the Treasury Department returns of our foreign trade are behind those of every other great nation. These brief remarks, being incontrovertible, show that more care should be taken in the appointment of the officials who prepare statistics, whether municipal, State or national, and better arrangements made for their publication, so that they will reach the hands of those for whose benefit they should be compiled in the shape and in time to be of some use to them.

Fire-Resistance of Porous Terra Cotta.

The advantage of building fire-proof was clearly shown in the recent fire in the storage warehouse, on the northeast corner of 123d street and St. Nicholas avenue, owned by Messrs. O'Reilly Brothers. The building is nine stories in height, and divided into sixty-five compartments, the dividing walls of which were of porous terra cotta blocks. In one of these compartments on the seventh story, filled with household furniture, a fire started from some unknown cause, and burned fiercely for some hours before the flames were discovered, fairly consuming the contents of the room before the arrival of the firemen who put out the fire in a few minutes with their streams of water, nothing remaining of the burning mass but a pile of cinders. The fire did not extend beyond the compartment in which it originated, and the firemen say the partition walls of the compartment were not even heated on the outside. The loss was confined to the value of the furniture therein, amounting to about $2,000. The contents of the whole building probably has a value of one million dollars, and all this is saved to the owners of the stored furniture and pictures, and to the insurers. A few hundred dollars will make good the injury to the building itself. The fire resisting qualities of porous terra cotta have once more been proven superior to iron or hard burned clay, and the lesson taught by this fire is that every important building should be constructed fire-proof.

The Proposed Concourse.

The Corporation Counsel has received the first rule-maps with which to make application to the Supreme Court for the appointment of Commissioners of Estimate and Assessment in the matter of the proposed concourse for the 23d and 24th Wards. It is expected that this application will be made within two weeks from the present time. It must be made within sixty days from the filing of the maps with the Corporation Counsel. The maps filed refer to the section between 161st and 174th streets, which will be the first submitted to the Commission when appointed. The Commissioners must file their report in two years from the date of their appointment, and in the event of their not doing so, title to the land indicated on the maps become vested in the city so that work can proceed pending the settlement of damages. It will be seen from this that the act authorizing the construction of the concourse was carefully drawn to prevent those delays which have, in most instances, protracted the execution of city improvements beyond the lives of the original projectors. In addition to having prepared the rule-maps previously mentioned, Mr. L. A. Risse, Chief Engineer to the Commission of the 23d and 24th Wards, has two field parties at work making the surveys for the damage maps.

Street Opening Maps and Property Owners' Rights.

Judge Lawrence on Wednesday last refused to continue the injunction obtained by the New York Central Railroad Company, restraining the Commissioner of the 23d and 24th Wards from filing maps for streets through the company's railroad yards at 153d, 156th and 158th streets, and also to cut off a portion of the yard by widening 161st street. The decision of the court refers the question of the right of the city to acquire the land, for settlement when application is made for the appointment of Commissioners of Assessment and Estimate, and holds that no property right is affected by the filing of the maps. Such filing would not alone constitute such a cloud on the company's title as to entitle it to an injunction. The litigation grows out of the refusal of the Railroad Company to build bridges across their yards in accordance with its promise previously made, and the determination of Commissioner Haffen to make it keep its promise or open the streets. One or the other is necessary to meet the requirements of the district.

Jerome Park Claims.

Claims affecting the land to be taken for the Jerome Park improvement are now all in. They cover 277 of the 300 acres to be taken, the difference being made up by roads and streets. The claims on 177 acres amount to $3,899,455; on 100 acres the damages are not set ... The largest claimants are the Jerome Park Villa Site and Improvement Company, which owns the old race track and claims $2,750,000; the estate of John Dickenson claiming $765,000, and Augustus Van Cortlandt, who claims $200,000.

New Inspectors of Buildings.

The following have been appointed inspectors in the Department of Buildings: Thomas Heatley, Jr., Frederick W. Vowles, Thomas Miller and Francis T. McDonough.

Botanic Garden Site.

The Park Board has by resolution set aside 250 acres in Bronx Park for the purposes of a botanic garden. The grounds so selected embrace the beautiful section near the Lorillard mansion. They contain the celebrated Hemlock Grove, and their grant is subject to the preservation of this interesting feature of the park.

Protection of Park Avenue.

The Park Avenue Property-owners' Protective Association will meet Tuesday evening next, the 6th inst., at eight o'clock, in Steigs' Hall, No. 1997 3d avenue. This will afford an opportunity to those who sympathize with the object of the association—to prevent Park avenue being roofed over by elevated railroad tracks—to join the association.

The People's Traction Company's Franchise.

Mayor Strong has finally decided to approve the resolution of the Board of Aldermen granting a franchise to the People's Traction Company, to lay an extensive system of street railways in the 23d and 24th Wards.

Asphalt Pavements.

The lowest bid for laying asphalt in downtown streets received by the Commissioner of Public Works, was that of the Fruin-Bambeck Co., of Peoria, Ill. The streets in which this paving is to be laid at once are: Allen, from Division to Houston; Chrystie, from Grand to Houston; Clinton, from Divison to Houston; Essex, from Division to Houston; Orchard, from Division to Houston; Pitt, from Broome to Houston; Suffolk, from Division to Houston; 40th, from 8th to 11th avenue, and 58th, from Lexington to 3d avenue, and from 7th to 10th avenue.

Opening 181st Street.

A protest against the assessments levied for opening 181st street, was received by the Board of Street Opening and Improvement, yesterday. It was claimed that the city should pay a part of the expense of this opening on the ground that 181st street is the only one from 155th street to Dykman street that runs across the island, and is therefore important to the whole city. The matter was referred to the Commissioner of Public Works and the President of the Board of Aldermen.

Personals.

Richard V. Harnett left on Monday for Saratoga Springs, to remain until about September 1st. He is stopping at the United States Hotel.

Herbert A. Sherman will spend his annual vacation from August 16th to September 4th at Nantucket, Mass.

John Casey has gone to Long Branch for a brief outing that will end on the 15th inst.

A. M. Arneberg, of E. H. Ludlow & Co., left for the Adirondacks this week intending to remain the greater part of the current month.

B. K. Stevens is spending the summer at Hamburg, Germany.

John Pettit will sail for Europe on August 21, intent on enjoying a long vacation.

John H. Berry, of Berry & Glen, has gone to Bensonhurst, L. I., for the balance of the season, but comes to town daily.

CONCERNING REAL ESTATE BROKERS AND AGENTS.

T. A. Thorne, manager of the down-town office of the Wm. S. Anderson Co., states that his firm has earned since June 1st a larger aggregate sum in brokers' commissions than during the three months from March to May inclusive. Mr. Thorne personally put through the deal reported last week between John Pettit and William Radam involving the exchange of the Thames building, at Greenwich and Thames streets, for the residence No. 813 5th avenue. The properties were accepted at valuations of $205,000 and $150,000 respectively.

Trade Notes.

AN UP-TO-DATE IRON WORKS.

The Prince & Kinkel Iron works have everything to rights at their new quarters on West 33d street, Nos. 553, 555 and 557. They are equipped in the most thorough manner for supplying architectural iron-work, and are one of the few concerns that have seen the necessity of carrying a large line of steel beams in stock to avoid delays in delivery, the result is they are filling all contracts promptly, a fact which architects, builders and contractors appreciate. They have the contract for thirty odd private dwellings and flats in addition to the building 100 feet square which C. T. Barney is about to have built at the southwest corner of Boulevard and 83d street, from plans by Architect Wm. Strom. The ornamental department of the Prince & Kinkel Iron Works recently completed a very handsome railing and gates for Yale University, from designs by Cady, Berg & See.

Real Estate Market.

As becomes a midsummer week, the modest sum of $1,200,000 will about cover the total realty investment indicated by the sales given in detail below. Vacant land has indulged in another moderate spurt and has been mostly bought for improvement. Private dwellings appear to have attracted more than the customary attention from investors, but West Side flats, owing probably to the scarcity in the market of desirable buildings of that class, have not made as good a showing as in the immediate past. As it is, business is in better shape than it was a year ago. The sales made public are certainly more numerous and if they continue to be as freely reported during the remaining weeks of the summer anticipations of a fairly busy fall will prove to be well founded.

The following are the comparative tables for New York Conveyances, Mortgages and Projected Buildings for the corresponding weeks of 1894 and 1895.

The adjournments and withdrawals in the Broadway Salesroom this week far outnumbered the auction sales. Only six parcels were sold and none was of sufficient value or attraction to merit much attention from bidders other than those having a financial interest in the properties. On Tuesday William Kennelly adjourned sine die a sale of No. 446 West 51st street, and postponed until the 13th inst. the sale of No. 57 West 68th street. On the following day B. L. Kennelly adjourned until the same date the offering of Nos. 161 and 163 West 133d street. On Thursday Peter F. Meyer & Co. withdrew from foreclosure sale property on the north side of 25th street, 300 and 375 feet east of 1st avenue, and B. L. Kennelly postponed the sale of Nos. 227 and 229 West 61st street to September 2d.

Smyth & Ryan should be credited with the most successful sale of nearby seaside property that has taken place this season. It was held on Saturday, at Edgemere, L. I., a new resort between Arverne and Wave Crest, and comprised a plot adjoining the new Hotel Edgemere, which was divided into villa sites containing not less than four lots each. The sale realized a total of $48,400. The lots sold in plots as stated numbered 110 and brought from $300 to $650 each. Among the largest buyers were George C. Taylor and Leopold Stern.

Richard V. Harnett & Co. will sell at auction on Monday, the 12th inst. in the salesroom No. 111 Broadway, the four-story and basement brownstone dwelling and lot, 19x102.2, No. 117 West 82d street, and the five-story and basement brick flat and lot, 25x98.9, No. 453 West 27th street. Maps, etc., can be had of the auctioneers at Nos. 71 and 73 Liberty street.

Attention is called to the announcement made by G. E. Clay of the considerable offerings of Brooklyn and Long Island property which he will make from the auction stand on the 14th inst.

Gossip of the Week.

SOUTH OF 59TH STREET.

Leopold R. Treu has sold the new seven-story store building, lot 24x96.10 and 95.1, No. 48 University place, west side, 49.2 north of 11th street, to Albert Friedlander for $100,000.

Philip Jeselsen has sold for Joseph Doyle to Edward Jansen Nos. 128 to 132 West 19th street, old three-story brick tenements on front and rear of plot 63.4x100. Mr. Jeselsen negotiated the sale for Mr. Jansen to Benjamin Altman, of Nos. 114 to 120 West 19th street, title to which passed on Wednesday. The latter property, with two parcels adjoining on the east and one fronting on 18th street, will be utilized as the site for a commodious addition to be built to B. Altman & Co.'s 6th avenue dry-goods establishment.

Mrs. D. H. Blakely has sold for Mrs. Jessie M. Morrison the three-story dwelling, lot 18.9x100.5, No. 142 West 54th street, for $18,000, and for Mrs. Georgie Hastings the four-story dwelling, with lot 21x100, No. 110 West 45th street, to T. H. Fleming and P. G. Springer for $32,000.

John H. Dye has sold for Mrs. V. T. Virginia the three-story dwelling, lot 22.6x about 100, No. 136 West 11th street, to Dr. F. W. Merriam for $26,000.

Charles Pfizer has bought of Alfred De Castro his four-story stone front residence, No. 19 West 50th street, lot 18x100.5, Columbia College leasehold.

Charles Buermann & Co. have sold for Henry L. Wirth and George Pfister, No. 222 Stanton street, northeast corner of Pitt street, 25x100, to Charles Pebler. The sellers acquired the ownership of the property early last month, and have since filed plans for the erection of a six-story tenement and store on 25x75 feet of the lot.

S. F. Jayne & Co. have sold for McKinley & Storrs, the old buildings and plot 50x92, Nos. 434 and 436 West 17th street, to John L. Hamilton.

Frederick T. James has sold to Isaac Walker, at about $74,000, the five-story English basement stone front dwelling, 27x60x98.9, No. 16 West 30th street. Brokers, H. R. Drew & Co. and D. Robinson & Co.

NORTH OF 59TH STREET.

Builder Fred Haas has bought of Joseph Hamershlag for improvement the plot, 53.3x100x irregular, on the northwest corner of West End avenue and 91st street. The seller took title to the property last week for a consideration of $50,000.

Henry H Dreyer has sold from the plans for Builders Wagner & Wallace to Jacob G. Fischer the middle flat and the one adjoining it on the north, in a row of seven five-story buildings with stores now being erected on the westerly block front in Amsterdam avenue, between 87th and 88th streets. They are each 27x about 88x100, and will be finished in the Fall.

Builder John Casey's sale of the new five-story flat, 50x96x100, on the northwest corner of Columbus avenue and 84th street, referred to last week, has been supplemented by a sale of the adjoining flat, 52.2x90x100, and similar in every respect to the former building. Solomon Gumprecht is the buyer of the entire property through Broker J. A. Berk. Both principals as well as the broker assure us that the aggregate price agreed upon is $350,000, of which amount $200,000 is the consideration for the corner property and $150,000 for the inside flat.

Builder William Gallagher has bought of Lewis Z. Bach, for improvement, two lots on the south side of 70th street, east of 1st avenue, for $14,500.

Francis M. Jencks has sold to a builder for improvement the plot, 62.10x103x102.2x irregular, on the northeast corner of Riverside Drive and 81st street.

Builder August Jacob has sold two of the group of nine five-story stone front flats he is now finishing on the northeast corner of 2d avenue and 90th street. The houses sold are the second and third on the street nearest the avenue, each 25x75x100.8; buyer, Mr. Hulbein; price, $45,000.

M. E. Hewitt & Co have sold for Mrs. Mary Sproul the three-story stone front dwelling, No. 159 West 93d street, to Martin Crippin for $20,500.

Slawson & Hobbs have sold for James M. Horton the plot, 225x100.11, on the south side of 116th street, 150 feet east of 7th avenue, at about $139,500, to Builders Giblin & Taylor, who, it is said, will improve some of the lots.

David E. Oppenheimer and Oscar Hamerschlag have purchased from the Lawrence estate a plot, 85.6x100.11, on the south side of 105th street, 162 feet east of Columbus avenue, and are said to have arranged for a resale of the lots with a loan to a builder.

Morgan D. McMonegal has sold for Builder James B. Gillie the row of six three-story stone front dwellings, 18x52x100.8, each, just completed, on West 89th street and known as Nos. 51 to 61, to William Buhler.

The Hebrew Benevolent and Orphan Asylum Society has sold the plot, 102.2x145, on the southeast corner of Lexington avenue and 77th street, to a prominent cigar manufacturing firm that will erect a large factory on the site.

CONVEYANCES.

Wherever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

3d—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

REVIEW AND RECORD.

BROOKLYN, AUGUST 3, 1895.

Notes Gathered Here and There.

REAL ESTATE VALUATIONS FOR 1895.

The following are the assessed valuations of real and personal property for the year 1895 by wards and in aggregates as returned by the Board of Assessors. For comparison we add the corresponding figures for 1894 for the twenty-eight wards, of which the city then consisted, for tax purposes.

Total, 1894	527,008 419	22,360,085		
Increase, 1895	$13,599,927	$1,267,361		

Aggregate increase, real and personal, 1895, $14,866,289.

An examination of the foregoing tab'e will show that the statement is made to appear better than it really is, and as a fact the advance in realty values has been slow even in the eyes of the assessors. By omitting to mention that the 29th, 30th and 31st Wards were not included in last year's valuation, and using only the totals for comparison, the assessors make it appear that the increase was over $13,500,000, whereas $5,272,395 of that increase was made in the new wards, the figures for which were, in 1894, $25,361,118, and in 1895, $30,633,513. For the first twenty-eight wards the total real estate valuation was $509,974,833 and in 1894 $501,647,301, an increase of $8,327,532, which is a poor addition in comparison with the $15,000,000 added to that valuation in 1894. Taken by wards the changes are not remarkable. The 22d and 28th show an increase of about $1,200,000 each, and the 8th and 25th of about $800,000 each. In the 6th there is no change whatever. In regard to personal property the increase is very small indeed when the three new wards are left out of the account.

The statement of the indebtedness of the city as of July 31, 1895, as issued by the Comptroller, George W. Palmer, shows: Gross debt, $55,769,521.94; sinking fund, $5,101,521.94; net debt, $50,668,000.

PROPOSALS FOR SEWER WORK.

Bids will be received at the Department of City Works until August 6th, at 12 M., for constructing sewers in map S. district 39, subdivision 14; in map N, district 29, 6th street, between 8th and 9th avenues; in map N, district 29, 45th street, between 5th and 6th avenues, and 6th avenue, between 44th and 45th streets; in map N, district 29, 55th street, between 5th and 6th avenues, and 6th avenue, between 54th and 55th streets, and in map N, district 29, 57th street, between 5th and 6th avenues, and 6th avenue, between 56th and 57th streets.

Gossip—Brooklyn.

Frederick M. Smith has sold for William W. Pittman to Elsie C. Kerby the three-story and basement brick dwelling, 20.6x100, No. 438 Classon avenue, for $7,400; also the two-story and basement brownstone dwelling, No. 404 Bainbridge street, 14x45x100, for Elsie C. Builders—Brooklyn.

R. 700.—South 11th street, 70x90. Bloodgood & Lund, No. 64 Cedar street, are drawing plans for an eight-story fire-proof printing house, to be of very heavy construction. John McLaughlin, owner, on premises.

R. 1142—Glover & Carrel are preparing plans for the erection of a bicycle academy. The building is to be of buff brick with stone trimmings, two stories in height in front and one story in the rear, with a frontage of 131 feet on Flatbush avenue and 80.5 on Sterling place, and 168 feet in depth. The front part of the building will be utilized for a restaurant on ground floor and club-rooms on upper floors. It is to be heated by steam and will have electric lighting, the cost will be about $15,000. Owners, The Montauk Cycle Co.

R 1150.—M. T. Reynolds, of 449 McDonough street, will soon commence the erection from his own plans of eight two-story and basement, variously colored, stone dwellings, on the south side of McDonough street, near Patchen avenue; they will contain all the improvements, including hot-air heat, and will cost about $40,000.

R. 1158.—Cook street, near Morrell, 40x45; Karl & Gutman, owners. M. J. Smallheiser, No. 63 Cook street, is drawing plans for a five-story store and shop, to have red brick front, galvanized iron cornice, tin roof, sanitary plumbing, and to cost $8,000.

R. 1172.—Charles Werner is preparing plans for the erection of a two-story and attic frame cottage on Clarkson street, near Irving place, Flatbush, for Philip Kramer, of No. 46 Hancock street. It is to have all improvements and will be heated by hot air; cost, about $5,000.

BUILDING MATERIAL MARKET.

NEW YORK.

BRICKS.—It is very difficult to extract anything new or particularly interesting from the present condition of the market. Nearly every receiver reports a very good run of trade, some of them think it has been better than last week, but the supply seems to increase just as rapidly as the demand and furnish an over-run besides, and an excess of stock remains a prominent and vital factor of the situation. Manufacturers all appear to be continuing work without check, and just so long as production is maintained at its present rate it will probably be difficult to bring about any curtailment of shipments, and as stock comes here to be sold the buyer has little to do but wait until the offering is brought to him. The effect upon prices is naturally softening, and again we find a slight easing off reported for all grades. It is thought possible that under certain rare exceptions $5 might be obtained, but some of the very best makes have been offered 12½c. less, and in general $4.75 is top, with a gradation down to $4@4.25. That is a comparatively narrow range, but attributable to general good average of quality that takes off the chance for a premium rate, and leaves no stock that has to be slaughtered. Pales are said to be finding some attention and selling at $2 and downward, according to quality. All standard front brick are held steadily.

GLASS.—For plate demand has fallen off temporarily in consequence of large purchases made before the 1st inst., anticipating the change in list. The variations will not be extensive but higher, and no doubt well adhered to. Window is finding increased demand and a strong market, as operators have generally understood the apparent merits of the position. Consumption is sure to be good, and there are many who do not believe stocks are by any means liberal. A leading trade journal, commenting upon the situation, says:

"From a careful canvass it is patent that the supplies in hands of manufacturers does not exceed 500,000 boxes, and allowing the very liberal estimate of 1,000,000 boxes as the total held by the jobbers and dealers throughout the country, we have a total available supply of 1,500,000 boxes to meet all requirements until new glass reaches the market, which will certainly not be before October 1, and probably not before the middle of that month. The liberality of the above estimate will be seen when it is considered that it embraces about one-half of the product of the last fire. The consumption during the summer months will average at least 450,000 boxes per month, and from this it may readily be seen that before new glass becomes available the stocks, if not entirely exhausted, will be reduced to a minimum, and the assortments such as to leave little available. No important amount of glass can be expected from abroad, as only about one-half of the furnaces in Belgium are in operation. The imports have never amounted to 100,000 boxes per month, the largest this year having been 46,000 boxes, in May, and it is not possible that this amount will be doubled during the ensuing two months. The situation, it will be seen from the above facts, is interesting, and not so favorable to the buyers as some of the manufacturers would have it appear in order to affect their negotiations with the Glass Workers' Associations."

HARDWARE.—Business is quiet at the moment and running in the main to small orders against natural trade wants of regular operators. It is, however, a fairly seasonable condition, not particularly surprising or disappointing, and operators look with much confidence for a good fall trade, of which builders' specialties will get a due and proper share. It is also calculated that cost will increase, for while down to date manufacturers have been slow about receiving lists, it is hardly thought possible for them to avoid making advances to conform to increased cost of material and labor.

LATH.—During the week demand has not been active or broad, many customers in no pressing need of stock manifesting some disposition to stand off. There were a few, however, who did want some lath, and appeared to want them quickly, which, together with a scanty amount available, gave receivers a positive advantage, and they have at last succeeded in reaching the $2 mark, and think they can hold it. Dealers are running low in many localities, it is claimed, and must get assortment, and if the manufacturers stick to their professed intentions to make light shipments sellers can retain control.

LIME.—Arrivals of stock from Maine have continued moderate, yet apparently there was quite enough for all needs of the market and some to spare, which has not improved the tone. Former quotations are repeated, and may in some instances be obtained, but buyers who made any contest were very apt to get some sort of a concession, and good solid firmness is still lacking. The market needs the influence of quicker and more general consumption. There have been arrivals of St. John stock, and sales therefrom at 75@77½c. per bbl. State lime is steady and gets fair attention.

LUMBER.—The general conditions of the local market are promising enough to bring out a fairly cheerful line of reports. It would be difficult to name any one class of lumber showing a special measure of animation, but taking all the coarser grades of stock, there is a gaining momentum to the movement, and previously entertained notions of a good average fall trade are strengthened. There is likely to be some disappointment in regard to lumber actually consumed this fall and winter for building purposes, but the chances are good for large amounts next season, and dealers who look well ahead are even now planning for accumulation of supplies. It seems to be almost a certainty that no staple grade of stock can go much, if any, below the present plane of value, and in many instances the chances are for higher rates, especially on stock shipped from Western points, where a car famine is threatened, and dealers who can conveniently do so are gradually investing in such supplies as their natural wants would seem to suggest.

White Pine may be considered steady upon about former basis. That is to say, a certain amount of stock continues to be reported upon pretty low range of figures for box, say $12@12.50, but it is claimed that while buyers may be satisfied with what they get at those figures, standard quality cut to local requirements of thickness is not available below $13, and a great deal is being placed at that price. In addition to local custom, quite a respectable run of orders is picked up from outside or country trade, and the export business is helping matters to some extent.

Yellow Pine comes to hand in quite respectable quantity in fulfillment of previous contracts, and there is also a very goodly amount of new business doing also, making the movement, as a whole, satisfactory. Prices probably do not increase and stiffen to the extent hoped for, but the tendency of affairs is toward healthier conditions generally. Export orders occupy a fair amount of attention for shipment from both Gulf and Atlantic ports, and are being filled at good steady rates.

Carolina Pine is doing very well. There has been rather more local demand and an increase of attention from outside sources, making a pretty full run of trade, with some prospect of further increase. No one appears particularly excited over the situation, however, buyers feeling confident in ability to secure sufficient stock as they may require it, and sellers feeling there will be no delay in developing demand in full natural proportion to calls made for other woods. The box-makers are quite sure to afford excellent custom.

Hemlock has demand enough to take all the desirable parcels of joist and boards adapted to this market that may be offered, and some operators say they have unfilled orders on their books awaiting new supplies from primal markets. Tone, naturally, is firm all around, and if demand increases this fall it can hardly fail as an additional stimulus.

Spruce in general may be considered as well sustained. In accord with intimations given in our last, there has been quite an addition to the arrivals, and many of them of an undesirable character, for which it was difficult to find prompt custom. Narrow stuff, however, is not in favor this season, and buyers successfully insist upon favors as an inducement for them to relieve receivers of the cargoes coming along. About $13, however, seems to have been the lowest figure, and fair specifications ranged up to $14. When it came to wide stock, however, the shoe was on the other foot, and sellers not only commanded the advantage, reaching up in some cases to $16@16.25, but could have placed a larger quantity of stock if here. There are plenty of specials offering for bids, but manufacturers seem indifferent and some refuse to respond.

Hardwoods are without much, if any, change of a noteworthy character, the demand making no special improvement and cost ranging about as for some time past. There is a suspicion that a great many manufacturers hereabouts have entered into contracts for supplies with the agents of interior dealers who were so plentiful on the market a short time ago, and will be getting the stock along pretty soon. Nevertheless the chances are good for plenty of new demand for furniture and finishing wood, and all staple descriptions are held with firmness and confidence. There is some little export trade going on all the while, but many of the parcels come from the West in execution of deals made for direct shipment.

The following despatch came from Washington during the week:

Some time ago the Michigan Box Company complained to the Interstate Commerce Commission that the Flint & Pere Marquette and other railroads had made a rate of 15c on box shooks from Bay City, Mich., to Buffalo and other similar terminal points, and on lumber, lath and shingles of 12c, alleging that the higher rate on box shooks, which were of much less value than lumber, was excessive.

To-day the Commission, in an opinion by Commissioner Morrison, announced that it agreed with the complainant that the rate was excessive, but

WALL street is undergoing one of its periods of dullness. The commission houses are doing practically nothing; in fact, if it was not for the professional trading element the Stock Exchange might just as well imitate the fashionable churches and close up for the vacation time. The remarkable thing about this situation, however, is that while the only active party in the market is largely bearish, prices are really strong. The condition of general business in the country and the crop prospects keep holders of securities, which, owing to the abundance of money, can be carried very cheaply, encouraged as to the future, and in consequence unwilling to part with their holdings. Short sales, therefore, do not bring out long stock, and the seller has to cover promptly, and so maintains the very quotations he is anxious to break. While the general public is so satisfied with the outlook, there are under the surface some unsatisfactory features. Besides the adverse position of exchange, it is reported that nearly all the large foreign houses are borrowers of stock against sales made abroad. This borrowing is for the purpose of keeping the stock sold in Europe there in order that it may not have to be remitted for from this side, as would be the case if it should be shipped here. This is as artificial as was the exchange market under the manipulation of the managers of the syndicate and must sooner or later be paid for. Very strenuous efforts are being made to induce European financial centres to interest themselves in American securities, and for this purpose London is likely to get most of the plums to be had in reorganizations. The Atchison underwriting, which has up to the present been so successful, went there and the Erie plan is now being offered there. Reading and Northern Pacific will probably go in the same direction. If this plan should succeed it may go a long way toward changing the position of exchange, and consequently mitigate the worst evil from which at least the financial branch of the business of the country is now suffering.

MR. GLADSTONE'S speech on the Armenian question puts the new British administration on its mettle in dealing with that knotty problem and any action intended to force the Porte into doing something to relieve the intolerable position of the Christians within its dominions will hasten the reaction in government securities. This has already begun in the low-priced issues and will not end until it has worked lower figures in the high-priced ones too. Events are working toward an explosion in the Balkan provinces, the end of which, owing to the jealousies of the great powers, no one can foresee. The awful news from China is also full of trouble for the future. Coming at another time it would be merely a question of demand for redress and compensation from the countries to which the victims of these outbreaks belong and a prompt compliance on the part of China, but now with the Russo-Chinese-Japanese perplexity still undetermined there is danger of new complications in every movement. There is one thing that Lord Salisbury can congratulate himself on and that is that the recent elections have turned out so that the power to enforce the policy of his government, if it goes to the unprecedented length for a Tory government of having a policy, cannot be endangered by any coalition of the minorities. Not only is this the case, but his party is the one that has the more willing support of the upper chamber and the sympathies of the Crown. There never was a government since the beginning of free parliaments that had its field of operations so clear of obstructions. That the energies of this government will be absorbed in foreign and colonial affairs there is no doubt whatever, but how such affairs will stand when the inevitable day comes when it must surrender control of them it is impossible to say. It is equally impossible to say what effect proximate events will have on trade. The reasonable conclusion, however, on this head is that should the problems that now present themselves to the diplomacy of Europe be settled without recourse to war, the improvement we have seen in trade and commerce will continue to grow, and should sterner measures be resorted to a temporary interruption would be followed by greater activity than ever.

THE property owners in that section of the city lying between Ninety-fifth and One Hundred and Fourth streets and Fifth and Park avenues, have a grievance from which they ought to be relieved, and that very promptly. A great deal of money has been expended there of late years in putting up expensive buildings; but, while the property-owner has been doing his best to improve the locality and bring it into use for decent people to live in instead of leaving it to the hopeless destruction of the squatter and his geese and goats, the city has done nothing to help him. Repeated attempts have been made in the last two years to get the streets paved without avail. In consequence there is still within sight of Central Park and a mile or more below the well-paved and efficiently-administered annexed district, roadways that would disgrace an impoverished country village—dust heaps in dry weather and quagmires in wet. The district to which we are referring has suffered considerably by having only very limited communications with the avenues to the east of it, the streets between Ninety-sixth and One Hundred and Second streets being cut off by the railroad. This is a great evil and a bar to the proper development of the property, but it can be borne with more patience than can the greater evil of unpaved streets. The property-owners are fully justified in raising their most vigorous protest against this policy of neglect on the part of the city authorities towards one small section of the city which has, while excluded from full benefits, to share the burden of the cost of general maintenance.

Railroad Privileges on the New Bridge.

We are glad to see that the new East River Bridge Commission is prepared to act with extreme deliberation before appropriating the bridge yet to be built to the use of the Brooklyn Elevated Railroad Company or to any similar company or companies. It will be remembered that a private corporation known as the East River Bridge Company—which was really the Brooklyn Elevated Company, disguised because it could not by any means obtain the privileges it sought openly and in its own name—induced the Legislature at Albany to grant it a franchise to connect the cities of New York and Brooklyn by a bridge across the East River and to operate a railroad thereon, in spite of the protest of the people of both the cities affected. Of course this bridge was never built, the owners of the franchise never intended to risk their own money in the enterprise, although some petty show was made of acquiring property. But in the last session of the Legislature another bill was passed empowering the two cities to build a bridge at a cost of $15,000,000, into which measure was inserted a clause giving power to the Commission created to carry the work through, to purchase from any company—there was, of course, only one—a franchise for bridging the East River within certain limits, which embrace all the territory within which the Commission could build its bridge.

In due course the company having the franchise comes forward and professing much public spirit offers to dispose of it to the Commission at cost, with a little provision added that if accepted would make the cities of New York and Brooklyn expend $15,000,000 to carry the lines of the Brooklyn Elevated Railroad Company across the East River to the exclusion of every other means of travel. Such a proposition would have astounded even the Legislature if it had been squarely put to it, notwithstanding the unholy traffic the rural members carry on in the rights of the large cities, and would have been doomed to certain defeat. It is gratifying to see that the members of the Bridge Commission show no disposition to allow this scheme to succeed, and although the Brooklyn Elevated Railroad Company is represented as covertly threatening to obstruct the building of the new bridge unless it obtains what it wants, it is not possible for the scheme to succeed if the Commission takes a firm stand against it. We do not want to be understood as opposing railroad conveniences of every kind upon the new bridge, but we do most emphatically oppose, and in doing so know that we represent the feelings and wishes of the property-owners, residents and business men on both sides of the river, the placing of the privilege of carrying passengers across the bridge into the hands of any one corporation. What is wanted and what only justifies so enormous an expenditure as will be necessary to construct this bridge is free communication between the two cities. It will [illegible] a great advantage to the people if the railroads from either side, Brooklyn Elevated among them, are allowed to make connection with the bridge tracks and carry passengers through [illegible] nations without change of cars and for moderate fares. Such privileges should, however, be subject to the control of the [illegible] withdrawal for cause, as well as to payment according to the companies upon which they are based. The right to one company would not only rob [illegible] of the income they have a right to expect from the franchise, but it would also condemn the [illegible] extortion and further limit the [illegible] should cause to very narrow limits.

The building of this bridge [illegible] immense advance in the facilities [illegible] similar structure has ever been taken in the character of the

fact will not escape their observation. The position taken by the Brooklyn Elevated Railroad Company is an ugly one, and no doubt its defences have been prepared with much legal cunning, but it is not possible that it can force the Commission by chicanery to grant it valuable privileges that it dared not directly ask even a corrupt Legislature for. It may for a while play the part of the dog in the manger, but that can only be a brief and mistaken part, when an insignificant corporation is the dog and the two largest cities in the country the ox.

Proposed Surface Roads in the Twenty-third and Twenty-fourth Wards.

Mayor Strong has affixed his approving signature to the resolution of the Board of Aldermen giving the People's Traction Company, an ally, if not really a member of the body corporate, of the Metropolitan Traction Company, franchises for operating surface railroads on the following routes:

From Willis avenue and East 134th street easterly to Brook avenue, thence northerly to Washington avenue, thence northerly to East 187th street, thence easterly to Franklin avenue or Broadway, thence southerly to Crotona Park South, thence southeasterly to Prospect avenue, thence southerly to East 149th street, and thence westerly to Brook avenue.

From the Harlem River, on East 149th street, and running easterly to Bungay street; thence southeasterly to the East River or Long Island Sound.

From Willis avenue and East 134th street, thence northerly to East 135th street, thence westerly to Exterior street, thence northwesterly to Jerome and Ogden avenues, thence northerly to Aqueduct avenue, thence northeasterly to East 174th street or Featherbed lane, thence easterly to Anthony avenue, thence easterly to Webster and Wendover avenues, thence easterly to Washington avenue.

From Prospect avenue and East 169th street to Franklin avenue, thence southerly to East 168th street, thence westerly to Crestline avenue, thence southwesterly to East 167th street, thence westerly to Gerard avenue, thence southerly to McClelland street, thence westerly to Jerome avenue and Marcher avenue, thence northwesterly to Birch street, thence westerly to Wolf street, thence northwesterly to Sedgwick avenue, thence northerly to Depot place, Highbridge, and thence westerly along to the tracks of the N. Y. Central and H. R. R.

From Brook avenue and Clifton or East 161st street easterly to Prospect avenue, thence northerly to East 169th street, thence southeasterly to Home street, thence northeasterly to the West Farms road, thence northeasterly to Boston Post road and thence northeasterly to the centre of the bridge over the Bronx River at Bronxdale, and also

From East 149th street and Austin place northeasterly to Whitlock avenue, thence easterly to Leggatt avenue, thence northeasterly to Mohawk or Wetmore avenue, thence northeasterly to Lafayette avenue, thence northeasterly to the Bronx River.

One of the conditions of granting this franchise is that transfers shall be given free of charge to the passengers of the New York, Westchester and Connecticut Traction Co.

The Collapse on West Broadway.

The centre portion of the building in course of erection on the northeast corner of West Broadway and 3d street collapsed suddenly on Thursday morning last, killing, so far as is now known, six men and injuring eleven. Eleven or more men who were on the work are missing and it is believed that a number of them are still in the ruins. The building has a front of 50 feet on 3d street and 85 feet on West Broadway. It is eight stories high, of iron and steel construction with stone piers on the fronts, 8-inch arch in the floors and 6-inch for the roof. According to the architect it was entirely finished inside, except for the plastering and the floors; for the latter, however, the sleepers were tied down to the beams every 4 feet with anchors reversed. The original plans called for seven stories and they were approved Nov. 14, 1894; another story was added later on, the plans for which were approved February 21st last. Construction has gone on since approval of the original plans until interrupted by this catastrophe, with the exception of an interval of four weeks waiting for material and during some labor troubles. The owner of the building is John B. Ireland; the architect, Charles R. Behrens, of 108 Fulton street; the mason-contractor, John H. Parker, of No. 215 East 94th street; J. B. & J. M. Cornell had the contract for the iron. There are endless theories and conjectures of the cause of this accident, but it is unsafe and unfair to adopt any until proved by proper investigation which is not now possible while the work of recovering the bodies of the victims is going on. The Superintendent of the Building Department is making an investigation into the matter in his office and on the Tow[illegible]nd the Coroner has fixed Friday next as the day for opening [illegible]nquiry. The New East River Bridge.

The New East River Bridge Commission has appointed Leffert L. Buck, Chief Engineer of the bridge. They have also referred the offer of the East River Bridge Company, a private corporation affiliated with the Brooklyn Elevated Railroad Company, to the engineer and Wm. G. Choate and H. C. Ingraham, counsel, for examination and report. This proposition is to sell its franchise and effects, the latter valued at $85,000, to the city for $200,000, provided that the Brooklyn Elevated Railroad Company be allowed to run its trains over the new bridge when completed. There is no disposition in the Commission to accept the offer on any such terms as these.

The Kingsbridge Cable Franchise.

When resuming consideration of the matter of the franchise for the cable railroad extension in the northwestern portion of the city above 125th street, counsel for the Metropolitan Traction Company asked for an adjournment for two weeks, and although this was opposed by counsel for the Third Avenue Railroad Company, the Committee decided to adjourn the hearing until noon of the 15th inst.

West Twenty-Third Street Ferry.

Mayor Strong has signed again the resolution of the Board of Aldermen granting a franchise for a ferry between West 23d street and Jersey City. He had previously signed this resolution while at Richfield Springs, but was informed that his official signature could only be legally affixed to documents of this nature in New York City.

Park Avenue and the Elevated Railroads.

The Park Avenue Property-Owners Protective Association met on Wednesday evening last and appointed committees, one to wait on Mayor Strong in regard to rapid transit on Park avenue, and another to select a permanent place of meeting. Several complaints have been made to the Board of Health of a nuisance in the shape of water pouring down from the New York Central Elevated Railroad into the street below after storms, but as these complaints have been without effect, the association proposes to take further action. The President of the Association, Mr. Wm. A. Soles, has prepared an interesting address upon the main object of the Association, copies of which can no doubt be had by applying to him at No. 1691 Park avenue.

Employers' and Builders' League.

The Employers' and Builders' League will have a clam-bake at Beck's, Rye Beach, Conn., on Wednesday next, August 14th. The steamer Chancellor has been chartered for the day, and a most enjoyable outing is promised to the members and their friends. Two hundred and eighty tickets have already been sold at $3.50 each. At the last meeting of the League Mr. Judson Lawson was elected First Vice-President, and Mr. John Pfyfe, Second Vice-President. Mr. Lawson, who is now in Europe studying the question of labor. He has promised to read a paper before the League on that subject one night in September, the precise one to be decided upon on his return.

Financial.

The report on the thirty-sixth year's operations of the Chicago & Northwest is an evidence of the hard times that even the best railroads in the West have had to encounter. The absolute necessity of the recent reduction of the dividend on the common stock becomes apparent when the company has to confess that in the fiscal year 1894-95 it only earned 4 per cent on that issue, and that by including the receipts from land sales. The loss in gross earnings was $3,877,897. The final result for the year was a deficiency of $273,590.04 of the amount paid out in dividends. It is twenty-four years since the company has had to announce so melancholy a result. In 1871 there was a similar deficiency of $207,865.12. The causes for last year's bad results are all too well known, bad crops, strikes, poor demand for iron ore, etc. The bonded debt was reduced by $294,000 drawn for redemption.

The line of steamships which the Great Northern runs between Buffalo and Duluth on the Lakes has been supplemented by another fine vessel, the North Land, which upon its first trial has beaten all former records. On the 183 miles between Buffalo and Cleveland its time was eight hours and fifty-three minutes, or nearly an hour better than the record. All the vessels on this line are American built, and said to be equal to any of the ocean liners.

Personals.

William M. Ryan, of Smyth & Ryan, is comfortably located for the summer in a cottage at Far Rockaway, L. I.

Thomas P. Fitzsimons, of Fitzsimons & Smith, has left town for a three weeks' stay in the Adirondacks.

G. Nicholas is summering at Brielle, New Jersey, coming to town frequently to attend to business.

CONCERNING REAL ESTATE BROKERS AND AGENTS.

Broker Stephen McCormick, of Madison avenue and 129th street, has met with deserved success as a negotiator of sales and exchanges of realty. He is earnest, painstaking and persevering, and has a long list of desirable houses and lots as well as investment properties for sale at reasonable figures. Mr. McCormick also manages estates, negotiates mortgage loans and places insurance. His references are of the very best.

IRON-WORK FOR BUILDINGS.

Leopold R. Treu, of No. 352 4th avenue, is one of the up-to-date contractors for iron-work. His contracts for iron-work include the new mercantile buildings, Nos. 103 5th avenue, 60 and 62 East 11th street, 9 and 11 East 16th street and 244 and 246 West 23d street, all modern structures, after plans by Architect Louis Korn. He will also supply the iron-work for four flats on 84th street, near Amsterdam avenue, for F. O. Johannessen. Mr. Treu executed the contracts for iron-work for the mercantile buildings, Nos. 114 and 116 Spring street and 256 West 23d street and is now putting the finishing touches to the seven-story store, No. 48 University place. Estimates for iron-work will be furnished on application to Mr. Treu's office. Telephone call No. 30 18th street.

CARPENTRY AND BUILDING.

The attention of architects and others who desire building work or alterations done is called to the card in this issue of J. W. Mitchell, of No. 430 West 25th street, a carpenter, builder and general contractor of twenty-five years' experience who has carried out important contracts, always maintaining a good reputation for promptness and thoroughness in his work. Mr. Mitchell has just

completed the building of a house at Hempstead, L. I., near the Meadow Brook Club, for Gen. James W. Varnum to whom as well as to Prof. F. D. Weisse, ex-Judge C. P. Daly, Gen. H. H. Porter, Pres't C. Coniston and others he refers inquirers who desire to know his reputation.

OTIS ELEVATORS FOR THE POST-OFFICE.

After a spirited and earnest competition between the elevator manufacturers, the United States Government has awarded the contract for four hydraulic elevators for the General Post-Office to the well-known firm of Otis Brothers & Co., of No. 38 Park row. Two new elevators will be put in at the south end, and run from the main floor to the fifth floor; and two new elevators will replace those now running at the north end. Work has already been commenced, and ninety days will see the new elevators at work.

CARPENTRY AND BUILDING WORK.

A. Silverson, the well-known carpenter and builder, of No. 257 Henry street, who has completed many important contracts in a workmanlike manner and with dispatch, is now engaged on the following flats: No. 28 Delancey street, five stories and basement, for Henry Korn; No. 86 Columbia and 87 Cannon street, two six-story flats, for Louis Lese the well-known operator; and No. 7 James street, six stories and basement, for Sarah Jacobs. Mr. Silverson gives all work his personal attention and will furnish estimates to reliable persons.

August Jacob, of No. 260 East 78th street, the well-known roofer and cornice maker, is putting the finishing touches to a block of nine five-story (two-family) flats on the northeast corner of 2d avenue and 90th street. Four of the houses are on the avenue and five on the street. Of the latter two have already been sold, which indicates that Mr. Jacob has again selected the right lots for improvement. He has sold the three flats he recently completed on Madison avenue and four of the ten flats built on 126th street and Columbus avenue.

Real Estate Market.

This has seemingly been the dullest week of the year. The aggregate investment, including an exchange of property involving $210,000 (trading prices), amounts to not more than $800,000. This is a poor showing, even for August, and probably not a true one, as doubtless a number of other sales have been arranged of which particulars have not been obtained. One singular thing is that there has been a noticeable decrease in the number of rumors of probable "big transactions" on the verge of consummation. It is a discouraging sign when both the sales market and the rumor market fail to give evidence of maintaining even a summer average, small as that is expected to be.

Gossip of the Week.

SOUTH OF 59TH STREET.

Albert Friedlander has sold the lot, 25x125, with old three-story brick building, No. 150 Bleecker street, south side, 50 feet east of Thompson street, to Leopold R. Treu, who will erect a seven-story store on the site.

Samuel Williams has negotiated a trade between Richard and Minturn P. Collins and Pelham St. G. Bissell, by the terms of which the former will sell the four-story stone front dwelling, 26.3x about 60x100, No. 89 5th avenue, between 16th and 17th streets, for $110,000, and take in exchange a plot of twelve lots on the west side of Hamilton place, 142d and 143d streets, at a valuation of $100,000. Collins & Collins bought the 5th avenue house at partition sale a few weeks ago for $87,000.

C. E. Harrell has sold for Mrs. Helene Westheimer the four-story stone front dwelling, lot 20x100.5, No. 64 West 45th street, to Julia Chatius.

William Cruikshank's Sons have sold for Builders Monk & Gillies the new five-story brick and stone flat, with lot 25x100, No. 77 Barrow street, for $38,250, to a client for investment.

The stockholders of the New York Metal Exchange decided at a meeting held on Tuesday, to purchase for $30,500, the building and lot, No. 230 Pearl street, of which mention was made two weeks ago in this column. Possession will not, however, be obtained until the 1st of May next. The property was last sold in November, 1883, to Benedict D. Stewart for $21,000.

William E. Finn, as executor of the estate of Myer Finn, has sold the old five-story brick building with lot, about 26.4x100, No. 55 Great Jones street, south side, 100 feet west of the Bowery, to Mitchell A. C. Levy for something under $30,000.

Martin E. Dotson has sold for A. Etzel to John Stanley, No. 346 West 16th street, an old three-story front building and two-story frame building on rear of lot, about 25x67.

The "Hudson Building" is the title of a company incorporated on Wednesday, with a capital stock of $400,000, by A. W. Cruikshank, Edward C. Fiedler, of the Standard Oil Company, and Richard T. Wilson, with the object of developing real estate in this city. Mr. Fiedler and Mr. Wilson are the owners of Nos. 32 and 34 Broadway and No. 69 New street, and have pooled their interests with the intention of buying No. 71 New street, and ultimately improving the entire plot by erecting a modern office building. A. W. Cruikshank, the third director of the new incorporation, will have full charge of the project.

NORTH OF 59TH STREET.

Potter & Bro. have bought of the executors of the will of the late Leonard Scott the vacant plot, 201.10x125, comprising the block front on the easterly side of 7th avenue, between 117th and 118th streets. A purchase of this plot was reported to have been made in February last by David Frank, since deceased. It was stated later that Mr. Scott, who died on March 1st in Florida, had agreed to the sale but neglected to attach his signature to a contract before death. Both statements must have been due to a misunderstanding, as it now transpires that the Potter purchase just closed was the one agreed to, but it failed of consummation owing to the absence of a contract and has taken many months to revive and bring to a successful termination.

The same operators have bought of William Schlemmer a plot, 50x201.10, on the north side of 117th street, 425 feet west of 6th avenue, running through to 118th street.

Chas. F. Sharrott has sold for Nathan Wise two lots on the north side of 147th street, 350 feet west of Amsterdam avenue, to H. Wheeler Powell, for $13,000. This makes ten lots on 147th and 148th streets sold by Mr. Sharrott within a few months. Mr. Powell will erect three private houses, similar to others he is now building close by.

Builder Wm. Broadbelt has sold, for about $30,000, No. 765, another house of the row on the west side of St. Nicholas avenue, between 148th and 149th streets.

W. B. Shepard has bought of Ward Wheeler the three-story brick dwelling, 17x50x99.11, No. 592 West 152d street, for $15,000.

Bernard & Co. have sold for Leonard Hyams the four-story stone front dwelling, lot 20x99.11, No. 49 West 130th street, to Mrs. M. O'Reilly for $18,500.

The Wm. S. Anderson Company has sold for J. L. Macauley the three-story stone front dwelling, lot 19x100.5, No. 172 East 70th street, to Mrs. A. H. King.

John P. Leo has sold the three-story brick dwelling, 25x42x57, No. 565 West 185th street, to A. Marie for $17,000. This is the fifth house sold in a row of six completed last year.

A. L. Mordecai and Adler & Herrman have sold their plot, 50x102.2, on the north side of 80th street, 100 feet east of Amsterdam avenue, at $36,000 with a loan, to Joseph Cirrito, a builder, who will erect two flats thereon.

S. De Walltearss & Co have sold to H. Strauss, at $21,500, two lots on the south side of 135th street, 300 feet east of 7th avenue, and resold same at a small advance to Mrs. P. Aarons

Stephen McCormick has sold for Mary McClure the four-story single flat, lot 18.9x100.11, No. 121 East 109th street.

Bryan L. Kennelly has sold for William Rankin the plot, 37.3x99.11x58.8x irregular, on the south side of 149th street, 87.9 west of 8th avenue, to E. Heydecker, for $5,000, an advance of $1,000 on the price paid by the seller at auction last May.

J. Edgar Leaycraft has sold for Builders Hogenauer & Wesslau the new three-story dwelling, 18x55x100.11, No. 310 West 102d street, to Dr. Charles S. Benedict.

J. Leitner has sold for the Bruggeman estate sixteen lots on Wales and Concord avenues and 147th street to Emanuel Stein.

Stephen McCormick has sold for H. Kelly a full lot on Westchester avenue, about 300 feet north of 162d street.

RENEWING CHATTEL MORTGAGE.

To the Editor of THE RECORD AND GUIDE:

You state in a recent issue of THE RECORD AND GUIDE, in answer to an inquiry, that the law relating to the renewal of chattel mortgages has not been changed lately. This is not quite correct, as the law was materially changed by Chapter 354 of the Laws of 1895. On referring to the amended act, I think you will find that considerable care is needed to determine just what now is necessary, and a short form for a statement meeting all the requirements will no doubt be of service to very many of your subscribers.

Answer.—At the time the issue of THE RECORD AND GUIDE referred to appeared, the laws of 1895 had not been published, and the attention of the Law Editor had not been called to the passage of Chapter 354. The following is the amendment of the previous law: "Every mortgage filed in pursuance of this act shall cease to be valid as against the creditors of the person making the same or against subsequent purchasers or mortgagees in good faith after the expiration of one year from the filing thereof, unless within thirty days next preceding the expiration of each and every term of one year after the filing of such mortgage a statement describing such mortgage, stating the names of the parties, the time when and the place where filed, and exhibiting the interest of the mortgagee in the property thereby claimed by him by virtue thereof, shall be again filed in the office of the clerk or register aforesaid of the town or city where the mortgagor shall then reside, if he is then a resident of the town or city where the mortgage or a copy thereof was last filed; if not such resident, but a resident of the State, a true copy of such mortgage together with such statement shall be filed in the office of the clerk or register aforesaid of the town or city where he shall then reside, and if not a resident of the State then such statement shall be filed in the office of the clerk or register of the city where the property so mortgaged was at the time of the execution of such mortgage."—LAW EDITOR.

SECURITY.

To the Editor of THE RECORD AND GUIDE:

Will you kindly answer the following query in your next issue. A takes position with B and puts up $1,000 as cash security with B for which he receives note on demand. A wishes to get out of the business, but B has not the ready cash to pay A off. B has two New York City houses, with an equity in them of $30,000, and has besides about $3,000 of chattel mortgages in his name, on which payments are being made all the time. Is there any way that I can secure a prompt repayment of my money?

Answer.—You can only sue, and it will be twenty days before you can obtain judgment. Then if you are not paid you can issue execution. Of course if there was fraud you can cause the arrest of B or can obtain a warrant of attachment against his property.—LAW EDITOR.

PARTNERSHIP.

To the Editor of THE RECORD AND GUIDE:

Will you kindly answer the following question of an old subscriber: A and B enter into partnership in a manufacturing business. After a few years they buy real estate in the firm's name. In the course of time B gets involved in trouble and transfers his share to a friend who re-transfers it to B's wife. The transfer being made without the consent of the partner and the firm being indebted to C. After years the firm sells out their business and liquidate. C puts his claim into judgment and buys all right, title and interest of the firm at Sheriff's sale. (1) Has B a right to sell his share and is such sale legal? (2) If not legal is there a statute of limitation for setting aside such sale? (3) Is C entitled to the whole or only to A's share, the whole not covering C's claim?

Answer.—(1) The real estate being firm property can be followed by creditors of the firm. Such a transfer would be a fraud upon creditors and could be set aside. (2) C could commence his action to set aside the transfer within ten years after it was made. (3) He can enforce his claim against all of the property of the firm.—LAW EDITOR.

CONVEYANCES.

Wherever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

3d—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

MORTGAGES.

NOTE.—*The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.*

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

Mortgages against 23d and 24th Ward properties will be found all together at foot of this list.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

¶ *Editor of* THE RECORD AND GUIDE:

Referring to the liens that have been filed against me I will bond and contest same in the courts.

LEWIS Z. BACH.

* *Editor* RECORD AND GUIDE:

The lien filed by Bowes & Coombs is unjust. Their measurements differ from my surveyors by more than 20,000 feet, and I claim that I have overpaid them. Steps have been taken to bond the lien. RICHARD W. HAWKES.

MORTGAGES.

NOTE.—*The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.*

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

BUILDING MATERIAL MARKET.

NEW YORK.

The following companies have recently filed papers of incorporation with the Secretary of State at Albany:

Wm. W. Graham Company of New York City—To construct buildings and manufacture furniture and interior house decorations. Capital, $25,000, and directors, Chas. E. Simmons, of Brooklyn; Wm. W Graham and Emma J. Graham, of New York City.

The Mercer Company—To manufacture steam and hot water heating apparatus and appliances in New York City. Capital, $20,000, and directors, Howard W. Mercer and John Barnes, of Brooklyn; John F. Sayward, of New York City, and others.

The Buffalo Frame Manufacturing Company—To make and enlarge portraits and oil paintings, and to manufacture and sell frames, mouldings, etc. Capital, $10,000, and directors, J. Freeman, Vincent Bamhard and Charlotte MacMullin, of Buffalo.

Croton Quarry Company of the town of Cortlandt, Westchester County—To quarry and deal in stone. Capital, $50 000, and directors, John M. Burke, of Scranton, Pa.; John J. Gleason, of Flushing, and Clinton T. Roe, of Whitestone.

James L. Libby & Son Real Estate, Building and Improvements Company—To erect the "Springler Building" in Union Square, New York City, and other buildings, and to deal in real estate. Capital, $50,000, and directors, James L. Libby, Henry M. Libby and Fredk. M. Littlefield of New York City.

The Sanitary Construction Company—To manufacture and deal in sanitary and other inventions in New York City. Capital, $25,000, and directors, Geo. Taylor, of Norwell, Mass.; Warren B Paige, of Newtown, Mass.; Wm. F Morse, R. E. Parraga and Chas. F. Parraga, of New York City.

The Callanan Road Improvement Company was incorporated to-day with the Secretary of State to construct Macadam and Telford roads and to operate stone quarries. The capital is $100,000, and directors, Peter Callanan and Philip Scharbauer, of South Bethlehem; John M. Briggs, of Cooymans; Charles D. Hammond and Meyer Nussbaum, of Albany.

BRICKS.—It remains a sorry sort of market for hard brick and not a promising feature appears to have developed down to present writing. The volume of business is reported to be about up to the mark of what might be expected at this juncture, but the supply a great deal more than required, with receivers under constant instruction to sell quick and get the barges back for another load, and buyers simply retain advantage without an effort to secure it. No one now thinks of quoting above $4.75 even for fancy brands, and nine-tenths of custom can supply themselves with just about as good quality as any one could desire for any but special work at $4.50 per M. Explanations as to influences elicits much the old line of report indicating a feeling that production has been overdone at all points of manufacture. Rumors are commencing to float around the market regarding the financial strain under which some makers are supposed to be laboring, and also with suggestions about the curtailment of work. It is, however, not generally believed that there will be any important cut down of production during the current month, or that shipments will be stopped except possibly in isolated cases. At about $2 per M. first-class pale brick could be sold in straight cargoes, but no one cares for the small odd lots offering and sellers have to take just what they can get for them. For Hudson River fronts a good sale is reported and the opening rates of the season well sustained.

DOORS, SASH AND BLINDS.—A very fair condition of trade is reported generally in this locality, with evidences of an increasing tendency, and there are sections in the State where manufacturers seem to be working to full capacity. Prices are firm, with no special allowances now granted, and manufacturers must soon make an advance to conform to increased cost of labor and trimmings. Advices from the Eastward report an improving line of trade, and there is also a firmer feeling, with measures being taken to bring about, if possible, a concert of action among various associations now somewhat in conflict. Comment upon the situation at the West is made by a leading trade journal as follows: "In reports received from the different sash and door markets this week there are indications which bear out the predictions made several weeks ago that trade would begin to revive about the first of August. A few years ago such bountiful crop prospects as now prevail would have developed an active car-load demand ere this, but trade methods have radically changed, and now it is the manufacturers and jobbers who must carry the stock until the retail dealers' customers are ready for it. So large a proportion of the business done consists of special work and odd sizes, that in point of fact the average retailer is not justified in carrying more than a limited amount of regular stock. While prospects are considered generally encouraging, it is likely that some of the more enthusiastic jobbers and manufacturers may be disappointed with the fall's business, as the full effect of this year's bountiful crop will not be felt before another season, at least so far as the sash and door trade is concerned. The more conservative dealers look for only a fair business this fall, probably a little less than normal. This will be sufficient, however, to enable them to maintain prices on the present basis, and possibly secure a slight advance."

GLASS.—In market conditions there is not much new. Demand is fair and prices generally are firmly sustained on both plate and window glass. About the only fresh information down to present writing is embodied in dispatches received this week regarding the conferences over the wages question. The first came from Atlantic City as follows: The Window Glass Workers' Wage Committees of the Eastern, Western and Northern Districts, which have been in session here arranging the wage scale for the next blast, completed their work and adjourned. The wage scale as completed calls for 15 per cent advance along the entire list. The Eastern committee were given permission to fix their own wage scale. They will meet in a few days and make the scale about 10 per cent higher than the general scale. The Northern District scale will be 7½ per cent higher. The Western wage committee left for Pittsburg and will meet the manufacturers there. They are confident that an advance in wages will be granted. Several big firms are getting their factories ready now for the next blast, and they look for a general resumption September 1st. The Eastern workers' wage committee will probably meet the manufacturers in Philadelphia next week.

And the following afterward came from Pittsburgh:

"The Wage Committee of the Window Glass Workers' Association, and the Wage Committee of the National Association of Window Glass Manufacturers met in conference here. One of the manufacturers present is authority for the statement that the workers have presented a demand for an increase of 15 per cent over present prices in the western district, 25 per cent in the eastern district, and 7½ in the northern district. This demand, he stated, the Association must refuse for reasons precisely the same that existed when the cut was made one year ago. 'While we recognize, said the informant, 'that business in general has improved, and we would be glad, if it were possible, to pay the advances asked, the tariff holds us down too closely to admit of the consideration of propositions looking to increased wages at the present time. To increase prices would be to admit foreign product, alike demoralizing to interests of the manufacturer and workman.'"

LATH.—It is not quite as good a market as last week. Fair quantities have come to hand, nothing excessive, but nevertheless a little more than the situation really needed, and sellers had to abandon some of the previously entertained bullish notions and consider themselves lucky when they secured $2. That figure in fact, at the present writing, is exceptional, and as low as $1.90 is admitted. Of course it is a far from agreeable experience for receivers, but they cannot control shipments or prevent unexpected arrivals, and until in the relations of demand and supply the latter becomes less plentiful it is likely to be up-hill work to get market upon a really firm footing.

LIME—It is without doubt a very unsettled and decidedly unsatisfactory market. Actual consumption has been disappointing and as most dealers have stock on hand at less cost than they are asked now on bulk lots they feel in no hurry to replenish. Occasional arrivals therefore are not wanted, as they simply tend to increase the unsold accumulation and add to dead weight. Quotations are given at about old figures, but actual selling rates are quite another matter in a great many instances, but 90@95c. would probably be somewhere near the mark on finishing and 80@85c. on common with an idea entertained that on some of the deals if the bill and settlement check were shown the cost would be even less.

LUMBER.—There is still an absence of general animation in the local market. The yard trade is not expanding to extent hoped for, and there has been a falling off in demand for bulk. Co. 12

VOL. LVI. AUGUST 17, 1895. No. 1,431

WE were told for some months after the bond operation of last February that the syndicate controlled the situation so that gold exports were an impossibility until Congress had a chance to reform our currency. Gold exports have been made in considerable volume, and now we are told that they are of no significance and that the syndicate will keep the conventional treasury gold reserve intact. None of these assertions come directly, if at all, from the managers of the syndicate, consequently the public is justified in awaiting the outcome of the present gold movement before appearing in the security market as buyers; it is showing a good deal of confidence in not coming as a seller. We are told, too, that the export movement of gold will be only a moderate one. These later assertions are no more trustworthy than the earlier ones were. No one can tell what the extent of this movement will be, because it depends on conditions yet to be developed—on an increase in our export trade, on a better feeling toward American securities on the other side of the Atlantic, and some other things. As exchange is so very high at a time when in the ordinary course of our financial operations the contrary ought to be, or soon to be, the case without any positive signs of relief, the caution which is being so steadily manifested by the public is fully justified. There is a very proper suspicion in the minds of the public of artificial conditions in financial matters especially, and such are the only ones that are now keeping prices strong.

EVERY day, almost, there comes to hand evidence of the reducing value of money in Europe. Not only are the discount rates so low as to make it somewhat surprising that the banks will do business at all on such a basis, but permanent loans favor the borrower more than ever. The two-and-a-half per cent loans of the great English municipalities are at a small premium. The City of Paris issued its last loans at two-and-a-half per cent, and now one of the great French railroad companies proposes to make that the rate of interest for any new capital it may want. The Paris mint struck no silver coins for home use in the first half of this year, though empowered to coin 4,000,000f. in that metal to take the place of Italian silver called in and returned to Italy. Germany reports continued improvement in manufactured iron and in textiles. The Prussian railways, however, reported a conspicuous loss of freight in June. The intention to raise freight in Belgium is sending business from other countries to Rotterdam, whither, also, some of the great agencies are transferring their offices from Antwerp. The reports that come from the leading trade centers of Europe are almost invariably cheerful in tone, even though they may not indicate a very large volume of transactions. The lightness of the trading is explained by this being the holiday season, and there is confident expectation that when the vacations are over there will be an increased movement in all directions. This may or may not be the case, but it is something to find the reporters for the business community at least so satisfied with the situation. The political outlook does not clear at all, but as nagging is always going on from one side to the other over there, at this distance it is very hard to gauge the depth of the adverse feeling which provokes it, and impossible to foretell the lengths to which it will drive its victims.

THE builders of the West Side are complaining bitterly of the worry, annoyance and loss of time to which they have been subjected in the past month, through the zeal of members of Good Government Clubs and the police and the indifference of the Board of Street Incumbrances to their interests. The division of the Good Government Clubs, of which Mr. Eugene Thayer is chairman, is giving attention to obstructions in the streets. Its members make it their duty to visit every place where building is going on, and whenever they find any liberty taken with the permit for placing materials in the roadway report it to their chairman, who communicates with the police, and prosecutions follow. As a result, it is said, no doubt with truth, there is hardly a builder between 59th street and 110th street, on the West Side, who has not been compelled, one or more times, to waste half a day hanging around a police court to defend a case that was ultimately dismissed by the sitting magistrate. There is less building going on on the West Side now than was seen in other years, and it is, therefore, remarkable that it should be suddenly found that the West Side builder is so derelict in his duty toward the city. Every one who has the least practical experience, without exception, knows that it is impossible for a builder to comply exactly with the terms of his permit, and when he is doing his best to do so that ought to be sufficient. In most of the streets where the dumping of the materials that has caused these complaints is done, the vehicular traffic is very light, probably consisting of an hourly grocery wagon, and the ordinance should not be construed as to them as strictly as it very properly should be in the busy down-town streets. It should also be borne in mind that the residents of the streets affected have not been the complainants in these cases. This matter is one where either party can do things that are objectionable from the views of public and individual rights. The streets should be kept clear for the public to pass through without danger or inconvenience; builders no doubt will bear this fact in mind. On the other hand, the builder cannot carry on his work without using the streets, and as at this season of the year time to him is very precious, the loss of a day to answer a trivial complaint is a serious matter. The employment of the active energy of the citizen in seeing that the laws are enforced is an admirable thing when guided by good judgment, but it is also a case where Tallyrand's caution, "Above all things, no zeal," has very proper application.

The Wrecked Ireland Building.

THE inquest over the fifteen lives lost in the collapse of the building on the northeast corner of West Broadway and 3d street commenced yesterday before Coroner Fitzpatrick and a jury numbering several well-known builders. It is expected that the investigation into the cause of the accident will be a thorough one, and a conclusion arrived at that will definitely fix the responsibility for the catastrophe. There may also be looked for from the jury recommendations for more stringent requirements in the Building Law as to constructing foundations, and for test borings of the ground in all cases where important buildings are to be erected.

This building was eight stories and basement in height, and constructed fire-proof with cast-iron interior columns, rolled steel beams and hollow-tile flat arches between the floor beams.

There were four vertical lines of columns supporting the centre of the floors and roof. One of these lines of columns, and all the floors and roof supported by the same, fell, leaving a great gap, say about 30 by 45 feet, extending from wall to wall one way, and between two other vertical lines of columns the other way, open to the sky from the basement up. The wrecked portion has been cleared of debris down to the top of the foundation upon which rested the basement column. This latter column was 15 inches in diameter, standing upon a cast-iron plate 32 by 32 by 3 inches. Underneath was a gneiss stone block, 6 feet by 6 feet, and 12 inches thick. Below this was a base of concrete, about 10 feet by 10 feet, and visibly 12 inches in thickness. The soil is a dead loam sand, with mica indications, showing it to be not far from quicksand, if saturated with water. This character of bottom extends down to some 21 feet below curb line where a better quality of sand is met with. The upper sand when saturated with water renders it very uncertain and unreliable for upholding a great weight with stability. The position of the elevator indicates that the place where much water was used on the floors in mixing up mortar was near the line of columns which fell, and customary in such operations water continuously overflows and drips down to the ground. Directly underneath one corner of the concrete base is an 8-inch brick circular wall of an old cistern, and thus the foundation for the basement column rested partly upon this wall and the brick floor of the cistern, and partly upon the soft ground. The ruins show the iron column buried for more than 7 feet of its length down through the foundation, the iron plate and the stone block being each shattered into four parts. The broken foundation has not been disturbed, as the Coroner decided to have his jury first view it in its present condition. Afterwards the pieces will be removed and an examination made of the condition of things underneath the concrete.

Apparently the cause of the disaster is to be found in the inadequate foundation under the basement column, and many facts substantiate the theory that this column sank and with it followed the line of columns above, together with the floors, all dropping at one and the same time in funnel shape. On the floors around this line of columns there had been placed far greater weight than elsewhere in the building. Near the

columns was the hod-hoisting or material elevator, and within a few days prior to the accident a large quantity of machine-mixed mortar and plaster in bags and other materials had been placed on the upper floors near the elevator. The floors, notwithstanding this weight of plaster, etc., were probably not loaded to anywhere near their breaking strength, but the weight had to be borne by the columns and, of course, the load was transmitted down to the foundation. In further substantiation of the theory that it was the basement column that first sank is the fact that the workmen on the several floors claim that it was their floor that went first, showing that the floors all went together, as the men jumped for their lives. After the fall the floors were found to lay in regular order. No debris was found over on the portions of the floors which remained intact, while if the floors had not fallen towards the centre in funnel shape but had started first from above, carrying down floor after floor in the descent, masses of debris would have littered up the adjoining portions of the floors which did not fall. That the foundations under the standing lines of columns are apparently inadequate is seen by the floors being out of level, the lines of columns having apparently gone down a little, and in two cases the iron plates under the basement columns are cracked, and in one the stone block is cracked as well. A survey on the building has been made, and soon it will be known what is deemed to be necessary in the way of putting the building in an entirely safe and substantial condition.

Accidents have happened before in buildings, and errors in judgment, lack of foresight and carelessness will doubtless bring many future disasters. Loss of life is always to be deeply regretted, and the waste of money and the damage to reputations are matters for regret, but out of every trouble some good seems to come, and in this Ireland case some facts should be adduced which, put in the proper shape of building law requirements, will bring a greater future good than the past has brought evil to life, to property and to professional standing.

The Collapse on West Broadway.

Coroner Fitzpatrick yesterday opened the inquiry into the collapse of part of the building recently erected on the northeast corner of West 3d street and West Broadway, with the following jury: Oscar Lowinson, Charles Reutz and A. B. Jennings, architects; Frank C. Conover and John L. Hamilton, builders; George Doyle, dealer in granite, and John Berrigan and John Kenney. The building and material interests that are affected by this awful disaster have by independent investigation made preparations to defend their several cases. The Superintendent of the Department of Buildings has been all week following up the inquiry instituted a week ago, during which he issued an open invitation to committees appointed by trade associations to pursue their investigations with the assistance of the Department. Consequently the inquiry before the Coroner is likely to be a very exhaustive one, and its results should be conclusive as to the cause of the disaster.

The examinations of the debris and foundations which were made during the week brought out the startling facts that one of the centre pillars had been forced through its granite and concrete foundations and that those foundations were originally built in and projecting over the 8 inch wall of an old well. One investigation, it is claimed, has resulted in discovering that the column on the sixth floor which supported the seventh and eighth floors was broken square across the middle and the fractured surface, although on the exterior it appeared to be a perfect casting, showed the metal to be hard and brittle, that the core had shifted so that the pipe, nominally ¾ inch, was on one side 9-16th and a trifle over ¾ on the other and honeycombed with blowholes and showed cold shuts and seams. It should be noted at the same time that Messrs. J. B. & J. M. Cornell, who supplied the iron, say: "We are positive that all the material furnished by us was ample to carry the loads which it was intended to support. We believe it to be first-class in every respect."

At the inquest yesterday Charles R. Behrens, the architect, who drew the plans and had supervision of construction of the building, said he was not aware of the old well or cesspool under the foundations. The specifications called for eighteen inches of cement under the pier foundations, but only twelve inches was laid. He did not discover that the specifications had been violated, he had learned that fact only on the previous day. He had not examined the soil bottom. He admitted that he regarded it as likely that the wall of the cistern acted as a fulcrum, the iron plate under the foundation of pier No. 3 as a lever, and the weight of the column as a counterpoise carrying the pier down on the side outside the well.

Proposed Third Avenue Cable Extensions.

The Third Avenue Railroad Company has filed applications for the Aldermanic consent to lay 3.35-100 miles of new lines as follows: From Amsterdam avenue and 145th street east through 145th street to the Harlem River and west through 145th street to the Boulevard; also from 3d avenue and East 93d street, through 93d street to Avenue A and through Avenue A to 92d street; from 3d avenue and East 99th street to East River; from 3d avenue and 96th street west through 96th street to Madison avenue, to 97th street, across 97th street on the 97th street transverse road and west to Columbus avenue, thence south to 96th street and west through 96th street to the Hudson River. The Metropolitan Traction Company has an application pending for a franchise for 145th street, and as the Third Avenue Company's plans include the use of the former's tracks on Columbus avenue, between 96th and 97th streets, if the latter's application is granted it will further complicate the differences between the two.

St. John's Park.

The award of the Commissions of Estimate and Assessment to Trinity Church Corporation for the St. John's Cemetery is $520,000, and the amount assessed on the adjoining property-owners $266,000. Objections to the confirmation of the report have been filed on behalf of the assessed property-owners, some of whom are assessed to 10 per cent of their holdings, and all of whom claim that they are not benefited by the improvement.

The East River Bridge.

The opposition to the purchase by the new East River Bridge Commission of certain franchises controlled by the Brooklyn Elevated R. R. Co. was given to understand by the executive committee of the Commission on Wednesday last that the Commission had no power to grant privileges such as were conditions of the proposed sale.

The Uptown Concourse.

As anticipated by us some weeks ago the application for the appointment of Commissioners of Estimate and Assessment was made to the Supreme Court on Thursday last. The court was urged to appoint local men, and a number of first-class ones were suggested because they would be interested in pushing the work through. Judge O'Brien took the matter under advisement but said his own experience on the Bench and in the Corporation Counsel's office had taught him that when commissioners are taken from those having a local interest in a proposed improvement the appraisals are so raised by the unconscious influence of local considerations that the Corporation Counsel declines to take up the report and the proceeding is abandoned. It is better, therefore, to have men appointed who are absolutely free from interest in the region affected by the proposed improvement.

The Stone Trade Association.

The New York Stone Trade Association has recently been organized under the laws of the State of New York. Its officers are: President, John B. Smith; vice-president, Wm. McLatchie; treasurer, B. A. Williams, and secretary, Edwin Shuttleworth. Quarrymen and stonecutters are eligible to membership, and the response to the invitation to join has so far been very encouraging to the founders of the association. That there have been serious differences among the several interests in the stone trade is well known. It is to heal these differences, if possible, and to show the individual members of the trade that in uniting for the protection of the whole they will at the same time be serving themselves that the association has been formed. Its functions are limited to providing a place of meeting and adopting such rules for government as are usual in commercial exchanges; outside of that it cannot go without exceeding its legal limits. Arrangements have been made for holding the Exchange in the Bloomingdale Lodge Room, at Nos. 166-170 East 60th street. The room is quite a spacious one and affords ample facilities for correspondence, appointments and conferences.

The Exchange was opened last Thursday with a large number of members present. At the end of the business hour they were joined, on invitation, by representatives of the trade in near-by places and all sat down to an elegant lunch set out in a club room overhead, with vinous accompaniments suited to the meal and the temperature, and followed by the fragrant Havana. A number of appropriate speeches were made in which the success of the association was universally prophesied. The president, in opening the proceedings, said the Exchange would be open between 1 and 2 o'clock of each business day for the transaction of business between quarrymen and stonecutters, but the room would remain open until 5 P. M., for appointments with business friends. What they had done, he believed was for the betterment of the whole trade. Mr. B. A. Williams emphasized the fact that the association was a strictly business undertaking. In opening the Exchange, they gave the trade a chance to demonstrate by their attendance whether they wanted anything of the kind. He urged on all to do their best to make it a success. Other speakers were: Messrs. Edwin Shuttleworth, James Thaw, Geo. W. White, Geo. Doyle, M. C. Henry, W. F. Ranney, John J. Derrie, Wm. McLatchie, Frank Pearson, Ward B. Hepburn, Jas. Hendry, Alex. F. Dixon, John Watt, Robert Chambers, and T. J. Brennan.

The able performances of some of the gathering conspicuously endowed with vocal and musical talent brought to an appropriate close a very pleasant occasion.

Employers' and Builders' League.

The Employers' and Builders' League gave a clam-bake at Beck's, Rye Beach, N. Y., on Wednesday last. A party of 300 sailed on the steamer Chancellor, from the foot of East 125th street, at 10 A. M.; they arrived at the beach at noon and spent the rest of the day in feasting, dancing, sports and pastimes. The competition for the prizes given for the bicycle races, foot races and potato races was confined to club members, and the rewards were vigorously contested for. Arriving home at about 10 o'clock, the members all declared themselves as thoroughly satisfied with the amusement provided by the committee in charge. This was the inaugural of what is expected to be a series of annual clam-bakes.

Financial.

The Municipal Bond Market is very dull and syndicates are now mostly engaged in settling up old accounts to determine profits before bidding for new bonds. Few good and large offerings are being advertised. Railroad and other bonds are also quiet, but steady, as to prices.

BROKER'S COMMISSION.

To the Editor of THE RECORD AND GUIDE:

Having been a subscriber to your valuable paper for the past five years will you kindly give me in Saturday's paper the following information: I have sold a house for a party who claims to have a written power of attorney from his brother-in-law, who is the owner and at present residing in Ireland, to a brother of my brother-in-law and had the receipt of $50 signed last Friday night. Balance of $200 was to have been paid when contract was signed for Monday morning. Now the agent who had charge of collecting the rents heard of the completing of the deal and claims to hold the owner or his representative for the commission as he claims to have introduced my party to the owner six weeks ago when he was in the city. My party then would only pay $12,000 and no more, which he then asked $16,000 for and left the matter dropped. Now who is entitled to the commission, the broker who effects the deal or the broker who introduced the purchaser to the owner and then could not consummate same. Other brokers introduced same parties together, but this agent claims he brought this notice to him first. Let me know the law on this subject and in what law book I can find it and greatly oblige.

Answer.—The broker who effected the sale is entitled to the commission.—LAW EDITOR.

WANTED.—Position as timekeeper or in builder's office. Understands bookkeeping; A-1 reference. Address "C," this office.

Real Estate Market.

The condition of the market gives no evidence of improvement over last week. The dog days have proved too much for prospective buyers, and the majority of them have joined the out-of-town colonies. A reported aggregate investment of about $850,000 includes no transaction worthy of special comment, although a few sales at figures above the average have contributed to the week's small total. The feeling among brokers is, however, one of confidence, and almost to a man they look for a renewal of activity early in the fall.

The following are the comparative tables for New York Conveyances, Mortgages and Projected Buildings for the corresponding weeks of 1894 and 1895.

The adjournments since Monday of legal auction sales to dates beyond next week have been as follows: On Tuesday, No. 52 East 121st street, by Bryan L. Kennelly, until September 3d; on Wednesday, No. 15 Pitt street, by D. P. Ingraham & Co., until September 5th, and a vacant plot on the north side of 118th street, 90 feet west of Park avenue, by Smyth & Ryan, until October 2d; on Thursday, property on 109th and 110th streets, 200 feet west of 1st avenue, by Bernard Smyth, to September 5th, and yesterday Nos. 68 Pike, 53 and 55 Catharine street, by B. L. Kennelly, to September 3d, and Nos. 1314 to 1320 Avenue A, corner of 70th street, by Richard V. Harnett & Co., until September 13th.

Gossip of the Week.

SOUTH OF 59TH STREET.

J. Arthur Fischer & Co. have sold for I. K. Cohn, as executor of the estate of Jacob Cohn, deceased, the northwest corner of 6th avenue and 44th street, 50.5x100, with three and four-story brick buildings, occupied until recently as a "hotel." The name of the buyer has not been disclosed but he is said to conduct a business on the avenue and will remodel and remove to his new purchase as soon as possible. The price agreed upon is understood to be about $130,000. The late Mr. Cohn purchased the property in four parcels during the period from 1868 to 1874, paying an aggregate consideration of $97,320.

Max Goldstein has sold for Mrs. Catharine E. Geisler, the five-story tenement with store, on lot 25x94.9, No. 351 East 10th street for about $25,000.

L. J. and I. Phillips have sold for George P. Rowell his four-story stone front residence, lot 21.6x100.5, No. 4 West 49th street, for about $75,000.

John M. Ruckert has sold for Arthur McConnell the four-story brick tenement, lot 25x103.3, No. 637 East 12th street, to Herman Deile.

Thomas C. Smith has sold for Mrs. A. McGrory the four-story stone front house, lot 25.7x103.3, No. 237 East 14th street, for $32,000.

The same broker has sold, conjointly with Van Rensselaer, Martin & Ramsey, the three-story stone front dwelling, lot 20x100.5, No. 115 East 46th street, at $12,000, for a Miss McClure to Wm. F. Hill.

Seidenberg & Co. are the buyers, at $87,500, of the plot, 102.2x145, on the southeast corner of Lexington avenue and 77th street, recently reported sold by the Hebrew Benevolent and Orphan Asylum Society.

NORTH OF 59TH STREET.

F. R. Houghton has sold for the estate of Robert Robertson the three lots on the north side of 72d street, between the Boulevard and West End avenue, commencing at the open space reserved for the St. Andrew's Hotel, to Charles Buek, on private terms. These lots adjoin two others that have for some time belonged to Mr. Buek, but the improvement of which with fine residences as contemplated was made impossible by the refusal of the owners of the adjoining lots to restrict. The purchase of these lots makes it possible for him to carry out his original plan of building very superior private residences on the whole plot. This is the third transaction in 72d street that Mr. Houghton has effected for the direct purpose of restricting lots to private residences, namely: The sale of two of Jacob D. Butler's lots to the Clark estate and to the Rev. C. F. Hoffman, resulting in the restriction of ten lots; the sale of four lots belonging to F. P. Burke to Thos. S. Ormiston, resulting in restricting them all. The present sale to Mr. Buek will result in restricting five lots.

J. W. Stevens has sold for John B. Smith to W. A. Mitchell a lot, 25.3x75, on the northeast corner of the Boulevard and 124th street, and for Arthur A. Stillwell to the same buyer the plot, 151.4x75, adjoining on the Boulevard. The aggregate purchase price is about $55,000.

The Knapp estate is reported to have sold to Jacob D. Butler thirty-eight lots on the Boulevard, 161st and 162d streets.

Charles Weisbecker has bought of Daniel De Noyelles, for his own occupancy, the three-story brick and stone front dwelling, lot 16.8x99.11, No. 181 West 126th street, northeast corner of 7th avenue. The price agreed upon is about $32,500. The house changed hands in March, 1883, for a consideration of $22,000.

Max Goldstein has sold for Samson Wallach the two four-story double tenements with full lots, Nos. 305 and 307 East 93d street, for about $33,500; for Mrs. Peter Wiemert, the five-story double tenement, lot 25x100.11, No. 242 East 106th street, for about $18,000, and for Mr. Berkowitz the five-story 25-foot flat with stores, No. 1855 3d avenue, between 102d and 103d streets.

John P. Leo has sold the three-story dwelling, 16.8x45x99.11, No. 614 West 147th street, for $12,500.

Max Simon has sold for T. Meier to W. Oesting the five-story double flat, 25x88.6x100.11, No. 23 West 98th street.

Charles Woodward has bought of John Gillies the three-story American basement brick dwelling, about 25x55x99.11, No. 557 West 141st street, for about $20,000.

Edward H. Kelly has sold the five-story brick flat, 25x86xx102.2, No. 121 East 77th street, to Rachel Berger for about $32,000. When the seller took title to the property in May the consideration expressed in the deed was $33,000.

Heilner & Wolf have bought of Sol Mehrbach a lot on the north side of 94th street, about 100 feet east of 3d avenue, and resold same to J. Farrell, for immediate improvement.

Thomas C. Smith has sold for Mrs. Celia T. Lappine the four-story brick livery stable, with lot 24x102.2, No. 167 East 84th street, for $22,000.

Max Marx has traded at $15,000 the plot, 75x99.11, on the southwest corner of 184th street and Audubon avenue, with Charles E. Crowell for No. 37 Underhill avenue, Brooklyn, valued at $14,000. Broker Philip Jeselson.

Arthur Dyett has bought of John Roddy the four-story stone front dwelling, 19x55x100.5, No. 53 West 68th street, for about $35,000.

Title to John Casey's flats at Columbus avenue and 84th street, did not pass this week as intended, owing to the sudden death on Saturday evening last of the buyer, Salomon Gumprecht.

NORTH SIDE.

J. Clarence Davies has sold for Patrick Walsh, 50x100, on the north side of 144th street, 100 feet west of Brook avenue, to J. B. Walker, for $8,000; for William Ahles, 25x100, on the east side of Union avenue, 150 feet south of 153d street, to J. Smith, for $1,550; for Jacques Joel, 25x100, on the east side of Prospect avenue, 100 feet south of 156th street, to L. Leeson, for $2,500; for I. Rothschild, the northwest corner Southern Boulevard and Kingsbridge road, 115 x irregular, to James Kerr; for James Keegan, the southwest corner Boston avenue and Minford place, 25x110, at $2,500; the plot, 50x100, on the west side of Boston road, 100 feet south of Penfold place, to Mrs. C. Caulfield, for about $4,000; for M. Strauss, 25x120, on the northwest corner of 184th street and Southern Boulevard, for $2,000, and for the same owner, 25x100, on the west side of Boston road, 367 feet north of Perot street, and 50x100 on the west side of Southern Boulevard, 150 feet north of Penfold avenue, to Isaac Rothschild.

Brooker & Dunn have sold for John Quigley a dwelling and lot, 25x108, on Oakland place, near Clinton street, to Charles Griffin for about $4,500.

WESTCHESTER COUNTY.

Cyrus Field Judson has sold a large tract of land on the Hudson River, just north of Dobbs' Ferry, to Amzi L. Barber. The tract includes the former home of the late Cyrus W. Field, consisting of 107 acres; the Cottenet property, since owned by John Jacob Astor, and sold after his death to Manhattan College, together with several smaller parcels, comprising a total of about 450 acres. Mr. Judson was assisted in some of these purchases by John L. Travis & Son. Improvements on an extensive scale have already been begun. Thus far the only persons interested in the sales and improvements are Messrs. Barber and Judson. Consequently the assumption of the daily papers a few days ago that many of our Eastern millionaires were connected with the enterprise was not founded on fact.

LEASES.

H. R. Drew & Co. and E. A. Cruikshank & Co. have leased the four-story business structure, No. 273 5th avenue, to Camerdon & Forster, for three years and seven months, from October 1st. The rate is $9,000 per year until May 1, 1897, and about $10,000 per year for the balance of the term.

The four-story dwelling, No. 36 West 37th street, has been leased by the owner, Mr. Scott, to August De Neufville, from October 1st, at about $3,700 per year.

The Abingdon Square Hotel, near the junction of 8th avenue and Bleecker street, owned by Edward Kilpatrick, is being furnished and will shortly reopen under the proprietorship of John McKay, late of the Oriental Hotel, now closed.

The Kingsbridge Cable Extension.

The public hearings on the amended applications of the Metropolitan Traction Company and the Third Avenue Railroad Company to extend their lines into the North West Side have been closed, and the Committee on Railroads is expected to report its selection to the Board of Aldermen on Tuesday next.

Personals.

R. L. Nicholson, of Nicholson & Co., has gone to Jefferson, N. H., where he will be a guest at the "Waumbeck" until October.

J. W. Stevens has joined the summer colony of New Yorkers at Asbury Park.

Geo. R. Read has taken entire charge of the Pulitzer building, at Park row and Frankfort street, which it is said has been for years the most incompetently managed of the many new office buildings erected in the last decade. Under Mr. Read's management it is natural to look for immediate improvement. It must, however, be admitted that the contract is likely to prove a difficult one to fulfill, even for Geo. R. Read, and should he succeed it will certainly greatly add to his already high reputation as an agent for buildings of that class.

E. S. Mills is spending a vacation of five weeks in the Adirondacks and will return to town about the 26th inst.

Worthington Whitehouse is, as usual, enjoying life at fashionable Newport.

Charles A. Seymour has located for the season at Watch Hill, R. I.

Daniel Birdsall, who has for some time been indulging in a vacation at Huntington, L. I., will return on Monday, and leave a day or two after for a sojourn at one of the mountain resorts.

J. Clarence Davies left yesterday for the Adirondacks, to remain until a day or two after September 1st.

Trade Notes.

IMPORTANT CONTRACTS FOR HOUSE CLEANING.

The Metropolitan House Cleaning Bureau, of No. 190 7th avenue, established in 1880, have lately completed important contracts for cleaning such structures as the Woman's College, at No. 5 Livingston place, where all the halls, walls, ceilings and kitchen were thoroughly cleaned in a workmanlike manner; the General Post-office, on Broadway, where the high ceilings and columns throughout the building were cleaned; the New York Hospital, where all the carpets were cleaned in the open air, and several new buildings for James Elgar, the well-known builder. Mr. George F. Garner, the proprietor of the Metropolitan House Cleaning Bureau, which does all manner of house cleaning and renovating, has had a long experience in this line of work, and the best of facilities, including a staff of expert workmen, enable him to execute all orders in a satisfactory manner and with dispatch. Mr. Garner pays special attention to out-of-town work.

PLUMBING WORK.

Plumber E. Spindler, of 362 8th avenue, has lately completed the erection of three model three-story single flats, with six rooms and bath in each suite, on the north side of 173d street, between Webster and Vanderbilt avenues. The houses contain all improvements, and the plumbing work is exceptionally well done, only the best of materials being used. Mr. Spindler also executed the plumbing work at Nos. 7, 9 and 11 Marion street, where a stable was altered into a factory, after plans by Alfred Zucker.

CONVEYANCES.

Wherever the letters Q. C., C. a. G. and B. & S. occur, preceded by the name of the grantee, they mean as follows:

1st—Q. C. is an abbreviation for Quit Claim deed, i. e., a deed in which all the right, title and interest of the grantor is conveyed, omitting all covenants or warranty.

2d—C. a. G. means a deed containing Covenant against Grantor only, in which he covenants that he hath not done any act whereby the estate conveyed may be impeached, charged or encumbered.

3d—B. & S. is an abbreviation for Bargain and Sale deed, wherein, although the seller makes no express covenants, he really grants or conveys the property for a valuable consideration, and thus impliedly claims to be the owner of it.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (*) means not summoned. (†) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments.

Editor RECORD AND GUIDE:

We have deposited with the County Clerk a certified check for the full amount of this lien and have commenced proceedings to foreclose the same. We dispute the claim upon which this lien is based because the work has not been done according to contract, and we have had to complete it at our own cost. See Satisfied Liens, Aug. 13th. ROBT. L. DARRAGH, SON & CO.

**Editor of* THE RECORD AND GUIDE:

The lien filed August 13th, by the Sackett Wall Board Co., against my buildings on Nagle avenue, is unjust and unwarranted. They have not complied with their contract, their work is most unsatisfactory, and I have been notified that claims for labor remain unsettled. GEORGE HUBERT.

Editor RECORD AND GUIDE:

The lien filed by P. L. Ronalds, Jr., and another against me is unjust. I have paid the plumber according to contract and hold his receipts for same. I have deposited the amount of above lien with County Clerk. We do not owe Ronalds & Co. one cent. See Satisfied Liens, Aug. 15th.

David Porter has sold for J. J. Gilligan to W. Sillcocks the three-story and basement brownstone dwelling and lot, 22x100, on the north side of 2d street, 100 feet west of 8th avenue, for $17,000.

Fickeissen & Agricola have sold the two-story and basement frame dwelling, lot 18.9x95, No. 127 Van Pelt avenue, for Charles Engert to F. A. Knapp, of New York, for $4,250.

Corwith Brothers have sold the three-story frame flat, No. 63 Jewel street, 25x55x100, for Eleanor A. Quinlan to Andrew W. Hussey for $7,000.

T. C. Van Pelt reports sales, with no prices stated, as follows: A plot, 220x100, on 17th street, near 10th avenue, for Charles Hart to B. F. McCaulley; a plot, 100x100, on the southeast corner of 26th street and 10th avenue, for Charles Heagerdorn to M. Miller; the two-story brick dwelling, 16.8x40x90, No. 427 10th street, for F. Lamson to Mary Bahr; a plot, 100x95, on the north side of 4th street, 200 feet east of 7th avenue, for H. M. Funston to E. W. Mowbray. They have also exchanged the two-story and basement brownstone dwelling, No. 351 1st street, for D. L. Brown with Mrs. E. Gondon for the three-story brick flat, No. 361 14th street.

Francis E. Heron reports as sales the following: For John Beet to Stewart McDougall the four-story brick flat, No. 180 39th street; also a plot of nine lots on 41st street, near 4th avenue, for Stewart

McDougall to John Beet; also a two-story frame dwelling, No. 212 46th street, for Miss Dunlap to Nicholas Hebeler, without details.

Lovett & Co. have sold the three-story brick flat, No. 239 Smith street, for Andrew J. Dower to Louis Morris for $6,000; also the two-story and basement brick dwelling, 18x50x80, for Charles W. Maynard to James McGowan for $5,300.

Foale & Arnold have exchanged with L. Koch for Caroline S. Hotaling, a 400 acre farm located at Dummerston, Vermont, valued at $30,000, for the two four-story brick flats, Nos. 343 and 345 Linden street, subject to a mortgage of $10,000 each.

Builders—Brooklyn.

R. 1267.—John L. Young has plans for five two-story frame stores and dwellings to be erected on the northeast corner of Nostrand avenue and Avenue C, for Henry Wischusen, of No. 106 Patchen avenue, to cost about $10,000.

*R. 1253.—Architects C. L. Johnston & Co. have finished the plans for the church building to be erected on the corner of Bedford avenue and Hewes street, for the German Lutheran Church. The building is to be of buff brick, with Indiana limestone trimmings, and will occupy a plot about 65x115 feet. The interior is to be finished in hardwood and heated by steam and wired for electricity. The cost of the building will be about $50,000.

Builders—Long Island.

R 1270.—Eaton Neck, L. I.—Two story frame stable, 65x33 feet; cost, $3,500. Chas. Vezin, owner; John Hinchman & Bro., No. 96 5th avenue, architects. J. H. Cadoo, Northport, L. I., will have the contract. Work calls for shingle roofing, sanitary plumbing, stable fixtures, etc.

R. 1206.—J. M. Baker has commenced plans for the erection of three two-story and basement brownstone dwellings on Mott and Ely avenues for Petry & Stevenson on premises; they will have all improvements and cost $12,000.

Floral Park.—Thos. Patterson, No. 171 Fulton street, Brooklyn, has the plans for three modern Queen Anne cottages, to cost from $3,500 to $3,800 each.

Questions and Answers.

Correspondents who do not find answers to their communications in this paper must please refer to future issues.

PURCHASE NOT COMPLETED.

To the Editor of THE RECORD AND GUIDE:

I am a subscriber and advertiser in your paper and would like an answer to the following: A owns a lot, size 25x100, in Brooklyn, with tenement in front and factory in rear, which he agrees to sell to B, who pays $50 down to bind the bargain, preliminary to signing the contract. B has lot surveyed and finds the front house projects four inches on the street line. It is one of a block front which has been built over twenty years, and all of which project on the street to the same extent. The rear building extends one inch on the lot in the rear. B finding things thus thereupon declines to complete purchase and presents A with a bill for expenses and damages. Between the time contract was signed and B refused to complete the purchase B ordered two tenants to move and they vacated the premises. (1) Can A hold his lawyer, who searched the title to the property when he bought same five years ago, for damages he may pay, and (2) Can he hold B for turning out his tenants? An early reply will oblige.

Answer.—(1) A should have employed a surveyor when he purchased the property to ascertain whether there was any encroachment of the buildings. The function of a lawyer who searches a title is simply to see that his client gets a good title to the land he buys. (2) No. B had no authority to turn out the tenants.

FLAGGING SIDEWALKS.

To the Editor of THE RECORD AND GUIDE:

Will you kindly answer through the columns of your valuable paper the following query: Under Proceedings of the Board of Aldermen Affecting Real Estate (signed Brooklyn, May 13, 1895), it says in THE RECORD AND GUIDE of June 1, 1895, that flagging for sidewalk must be laid on Ralph street, Brooklyn. How long is the owner entitled to wait for this work, or up to what time does this have to be done from the time of signature, and will the city then do this work and the owner must pay for same?

Answer.—The owner does not have to wait at all. The city will do the work in its own good time and lay an assessment upon the property, which the owner will have to pay. If the owner desires to do the work himself he may apply to the Department of City Works for a permit, and then go on and do the work under the supervision of the Department. This may save him some expense.—LAW EDITOR.

BROKER'S COMMISSION.

To the Editor of THE RECORD AND GUIDE:

Please inform me whether there is a way of protecting a broker by offering property which he has for sale to a certain purchaser and the party intends to cheat the broker out of his commission by proposing to the seller that he is about to put in a dummy, whereas the broker would not get his commission? My case is as follows; I have offered a piece of property to a party by the name of ——, who, I have been told by other East Side brokers, has done the same thing to them, having put in a dummy, but the owners would not submit to it. I mean to do this for my benefit as well as for other brokers, as a warning to look out for said ——.

Answer.—The broker may sue the owner for whom he has effected the sale for his commission. He will recover if he proves the necessary facts.—LAW EDITOR.

CHATTEL MORTGAGE—COMMISSION.

Editor of THE RECORD AND GUIDE:

In THE RECORD AND GUIDE of June 22, 1895, under the heading of Chattel Mortgage Sharks, you say a broker can charge any sum for procuring a loan on household furniture if it is agreed to in writing, but in THE RECORD AND GUIDE of June 29, 1895, under the heading of Chattel Mortgage you say a broker can only charge 50 cents for procuring a loan of $100 on household furniture. Please state which is correct. A. T.

Answer.—The rule generally observed is 5 per cent, although some brokers, etc., make a general charge of $35 per hundred and the charges are often as high as $60 or $65 per hundred.

EASEMENT.

To the Editor of THE RECORD AND GUIDE:

I own a piece of property in Yonkers through which a drain has been made to carry water from a spring on another property. I cannot build or sell while with drain. Is there any law to prevent my filling drain with earth, etc.? There is nothing whatever said about drain in my deed.

Answer.—There is no statute, but the circumstances may be such that the owner of the spring may bring suit and enjoin you from filling the drain. He may have had this outlet so long that he has acquired an easement to that extent in your land.—LAW EDITOR.

PARTY WALL.

To the Editor of THE RECORD AND GUIDE:

A client of ours has purchased a piece of property with a frame house thereon. The lot adjoining has a frame house on it, there being a frame party wall between the two houses. The centre of the party wall is 1¾ inches on our client's property. He desires to build a five-story brick flat. Can he cut down to his line or must he leave the party wall intact?

Answer.—He can cut down to his line if he does no damage to the adjoining building and infringes no rule of the Department of Buildings.—LAW EDITOR.

LIBELLING A VESSEL.

To the Editor of THE RECORD AND GUIDE:

Will you please inform me how long a time is allowed before a vessel must be libelled for the last material furnished said vessel? By your lawyer giving me this information you will oblige.

Answer.—We find no statute specifying the time. The lien of the material-man is governed by the rules of the common law and each case is determined by its own circumstances.—LAW EDITOR.

MORTGAGES.

NOTE.—*The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.*

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

JUDGMENTS.

In these lists of judgments the names alphabetically arranged, and which are first on each line, are those of the judgment debtor. The letter (D) means judgment for deficiency. (C) means not summoned. (t) signifies that the first name is fictitious, real name being unknown. Judgments entered during the week, and satisfied before day of publication, do not appear in this column, but in list of Satisfied Judgments

BUILDING MATERIAL MARKET.

NEW YORK.

BRICKS.—There is another edition of "the same old story," and down to present writing the market seems to be absolutely without signs of a promising character. Demand seems to have been very good, with probably more brick consumed than during the preceding week, and the amount of unsold stock at depot from day to day lighter than heretofore, but that hardly signified anything as the arrivals have come right along as fast as they were needed, and where manufacturers have failed to continue shipments it was simply because they could not get barges unloaded here and returned for additional cargoes. Under these conditions the advantages have naturally been mainly with buyers, but there was a bit of irregularity shown in reports made on prices. In some instances we were given $4.75 as a "quotation" and warned if we dared suggest anything against that figure never, or at least hardly ever, to speak to our informants again. But all the same we are going to dare just a bit and say from bulk of testimony it looked as though even $4.62½ could hardly be obtained unless buyers were insisting upon pet makes, and for the great bulk of supply $4.50 seemed to be all receivers pretended to ask, and the best Jerseys available at $4 25, with poorer run of stock quoted down to $3.75. These are certainly remarkable prices for middle of August and far below what anyone calculated upon at the opening of the season. It looks now as though there was no hope of change for better until shipments commence to fall away. It is said that at $2 strictly choice pales could be sold in large parcels, but as neither the quality or the bulk came along to try matters the figure is a nominal one.

GLASS. A firm market reported, with business generally tending toward gain. A journal devoted to the glass interest has received the following from Pittsburg regarding the first conference over the wage scale for the next firing: "The workmen demanded the straight list of last fire, with three brackets of single strength advanced 4 per cent, and five brackets of double strength advanced from 11 to 15 per cent, grinding sheets to be advanced from $1.10 to $1.25, manufacturers to pay all snappers (youths who help blowers and gatherers), instead of their wages being paid by the workmen they serve, as heretofore, and, above all, the reduction of 22½ per cent from the list of 1893-94 to be wiped out. For the purpose of expediting business, the demands of the workmen were placed into the hands of a sub-committee, consisting of three manufacturers and three workmen, who, after a four-hours' discussion, agreed upon last year's scale, with the following exceptions: A new bracket to be inserted in the double strength scale, as follows: 16x25 to 24x30 at $1.30; 24x31 to 24x36 to be $1.40, instead of $1.50, and 24x37 to 30x41 to be $1.70, instead of $1.60. When the matter of discounts from the list of 1894 was reached, the workmen offered 10 per cent, but the manufacturers insisted on last year's wages, with a reduction of 22½ per cent. The last offer made by manufacturers was to concede an advance of 2½ per cent, or a straight cut of 20 per cent on the old list, provided the workmen would withdraw their demand for an advance in the double strength scale.

A dispatch from Anderson, Ind., dated Thursday night, says: "The Indiana window glass manufacturers who comprise the trust formed two months ago met in this city to complete the reorganization which was put on foot at Indianapolis on Tuesday. All of the thirty-one Indiana plants, virtually all west of Pittsburg, will be admitted and a meeting of all manufacturers will be held next Tuesday for the election of new officers. A similar movement is on foot east of Pittsburg and the two district markets are working in harmony. They will in all probability combine to keep all plants closed until the supply is worked off. The new combination controls 940 pots, more than half of all alive. The volume of business the Indiana plants will do is $7,000,000 annually. They will maintain headquarters at Muncie. Secretary Vandevanter stated that the demand was better in July and thus far this month than it ever has been. The price is steadily advancing."

LATH.—Down again to pretty nearly the lowest of the season is about the sum and substance of this week's market. The arrivals were not particularly plentiful and embraced only two or three large cargoes, but buyers were few and far between and when found were fully cognizant of their advantages and took nothing until concessions were allowed. One has dropped the cargo rate to $1.8[illegible] business lower but understood to hardly with some bid dard stock. It looks very much a represent stan

VOL. LVI. AUGUST 24, 1895. No. 1,432

THERE is a new demand for interest and dividend-paying securities which is affecting those issues which are reasonably sure of continuing a return on the investment and which are selling at relatively low prices, such as the guaranteed bonds of the Missouri, Kansas & Texas, the new Atchison 4s, Wabash junior issues and many others. The absolutely sure bonds have long been out of the market, except in small lots, and these are snapped up the instant they appear. This broadening of the bond market is a natural outcome of the cheapness of money; in fact it is rather surprising that some pretty good bonds continue to sell on a 5 per cent basis and over when only a partial response is made to the money offered to borrowers at very low rates. Buyers are fortified, too, by the fact that there is no falling off in the general business of the country and that every day brings a great corn crop nearer security. A great deal of business is waiting for this crop to be put beyond any doubt, which, when the right time comes, will make manufacturers and jobbers busy. There are also signs that the market for foreign exchange is about to take on a less menacing aspect, and that the end is nearing of gold shipments for the time being. The way in which the bond syndicate has maintained the gold reserve in the Treasury is very creditable to it, and is having a very good effect on the public here.

BUSINESS on the London Stock Exchange seems to consist almost wholly of purchases and sales of "Kaffir" shares. These issues have not only maintained their values long after the time when a collapse was predicted, but have since made a very considerable advance and show no sign of weakening. This being the case and it being contrary to the oft-repeated opinion of the financial press, generally unusually well informed, it follows that there is more in the South African mines than was ever dreamt of. The output of gold is simply enormous and the mines are still young. The influence of the realization of such great wealth cannot fail to be very great on the contiguous country in a very wide radius, and the time has come when it appears clear that South Africa is the new country which will for a good many years to come occupy the capital and energies of the enterprising among the English people. There are already under discussion schemes for its wide commercial and political development; it is fast becoming the country that attracts the eyes of the adventurer, and capital will undoubtedly flow thither in the next ten years as it will in no other direction. We have said all along that Europe will not again favor American securities as it was wont to do until our currency has been put into a position where it cannot be affected by political agitation or business difficulties. The fear that underlies this may be groundless, but as we have to deal with facts its existence cannot be overlooked. That it does exist is shown by the comments and correspondence of the public press. Recently the London *Economist* voiced the general opinion in saying: "A currency position which depends upon continuous manipulation of the exchanges is essentially unsound, and as long as it is suffered to continue investors here cannot be expected to shake off the feeling of distrust, nor, notwithstanding the improvement that has already taken place, can confidence be felt in the steady development of business in the States."

PROPERTY-OWNERS and residents on 11th avenue are occupied in the consideration of a question of much importance to them, namely, the matter of the running of cars by the New York Central Railroad Company on that thoroughfare. The half-century franchise which the company had to operate over certain thoroughfares in this city under certain conditions will expire next year, and as it will assuredly try to retain a privilege that is worth a great deal of money to it, how much it is hard to say, but certainly many hundred of thousands of dollars, the city in general and the property-owners on the occupied thoroughfares are assuredly wise in beginning at once the consideration of the terms on which this privilege shall be continued to the railroad company, or whether in fact the conditions of business life in this city do not now require that it should cease altogether. The latter view is the one accepted by the West Side Citizen's Association which has already by petition requested the Board of Aldermen not to renew the privilege. It is quite unnecessary to say that the New York City of to-day is a very different city to what it was fifty years ago, and there are a great many obvious reasons why the practice of running trains of freight cars through any of the streets should be discontinued. At the same time the shipping interests of New York have had and will continue to have a great influence upon the development of the city and the question of continuing or ending the running of cars along 11th avenue and into Hudson street ought not to be decided until all the considerations involved have been carefully weighed. On one point, however, there ought not to be any doubt and that is, if it should be decided to permit the continuance of this practice, it ought not to be the exclusive right of any one carrying company, but should be made a part of a more comprehensive plan for a very much needed enlargement of the shipping facilities of this great commercial centre.

WHERE do the newspapers get their pictures of emaciated infancy with which they endeavor to frighten good citizens into contributing to their open-air funds? The visitor to the tenement house districts does not find them in such alarming numbers, and the policemen on the beats in those districts have anything but a poor opinion of the health and vigor of the juvenile population whose pranks and mischievous antics they find it difficult to repress. The conventionalizing tendency, that is the acceptance of a few phases of a given subject or condition as a picture of the whole, is so strong that people have come to see in the tenement only the sickness, vice and squalor just as they are apt to think of more fortunate regions as the abodes of health, luxury and comfort. Sickness finds its way into the palace as well as the hovel and health into the hovel as well as into the palace; probably, by reason of the greater simplicity of life, more in the former than in the latter. They are each assuredly mitigated or aggravated by the surrounding conditions, but more often by the measure of sensibility or the ability to bear suffering. The laborer whose brawny arms wield a shovel or a pick in a way that would be impossible to the delicately natured man, is not merely often a resident of a tenement district but its product; he was born and raised there. The streets of what are known as the congested districts, swarm with infantile health, strength and beauty, as any one can see who will take a walk through them. The furnishings of many of the tenements themselves are anything but poor, and neither is the condition or location distasteful to their occupants. The happiest day of the hired girl is when she leaves her well-appointed place of service to visit her kindred in the tenements, and she will surrender every advantage that she enjoys in her employer's house to take up her life in one so soon as she can get married—much to her mistress' amazement and disgust. This cannot be due wholly to insensibility or to ignorance. The opportunities of comparison are given her. There must be in the tenement something that makes life sweeter and more attractive to her than she can command elsewhere. Why, therefore, cannot the public representation of the tenement be more complete, with the better and wholesomer phases brought out instead of always the disagreeable and those which are as a matter of fact the least frequent? Admitting that tenement life is a very long way, indeed, from the best for any kind of people, and keeping in view the need of something better, it is still unnecessary to make the picture blacker than it is, especially as the tenement cannot be displaced by any perfect mode of living because of individual as well as the social conditions, except by a long and slow course of gradual improvement.

IN the midst of a universal belief that we are a rushing, enterprising people, the individual does not like to find himself pushed too hard by new comers and customs. The older men laud the times past as their fathers did and as their sons' sons will do. The old time real estate agent is no exception to these rules. Innovations on the manner of doing business to which he has been accustomed are by no means to his taste, though it is hard to see how the creation and development of real property could have been possible in a rapidly growing city like New York without an endless variety of ways for its acquisition. Still there are, it must be admitted, some things in this connection which must be trying to some of the old timers, such for instance as the practice of working out the mortgage, often representing nearly the whole of the purchase money. This practice was described not long ago as follows: A man having a small amount of cash buys a tenement or small flat with a very heavy mortgage. He lives in the least desirable of the

apartments and lets the rest, or as many as he can find tenants for. He works for his living during the day, but his wife or some other member of his family represents him in his absence, and together they do all the rent collecting, janitor service and small repairs, the savings effected thereby going toward the reduction of the debt on the property, and thereby eventually working out the purchase of the house. No one has a right to condemn such thrift and industry, but if very prevalent in any particular district it cannot fail to affect the income of the professional agent and make him discontented with his lot, because, as one recently pathetically remarked, "there won't be any use for me here much longer, because there will be an agent on every stoop."

The Collapse on West Broadway.

The Coroner's inquiry into the cause of the disaster of August 8th at the Ireland Building, on the corner of West 3d street and West Broadway, has been going on all week in the new Criminal Court building on Centre street, with the interest focussed on everything relating to the column and foundations that rested partly on the old well or cesspool wall.

In addition to the admissions of the architect, Charles R. Behrens, reported last week, he said further, the contract called for granite or Greenwich stone and the latter was used. He could not, however, tell whether a piece of stone handed to him was or was not a fragment of the broken base of the central pillar. He also said, when the inquiry was resumed on Monday, that Buckley, the then Inspector of Buildings for that district, was a bidder for the mason-work on this job under the firm name of F. J. Donnelly & Co. The details of the bids were read and the totals varied from $60,000 to $74,000 Parker's bid was not the lowest, but he scaled it down at the request of the owner in order to secure the work; the reduction on the mason-work, however, was only $2,700; $4,000 was distributed over other items. The hod-hoisting machinery, including the boiler and machinery, rested on the first floor near the rear wall of the building and altogether did not weigh more than five tons. He understood the water for making mortar and plaster was carried up to the several floors in barrels. On August 5th, when he visited the building, there were a great many bags of plaster on the seventh floor; they were piled three high, principally around the opening of the hod-hoist shaft. The well or cesspool was so situated that water could run into it. He had come to no conclusion as to the cause of the disaster. Deputy-Superintendent Vreeland, of the Department of Buildings, testified that Buckley was inspector of this building until June 11th last, when he was succeeded by Inspector Murphy. Inspector Switzer had supervision of the iron. No report had been made to the Department of the well or cesspool, no violations filed or any complaint whatever made. Joseph Garry, who had the contract for the foundations, testified that the foundation for the centre pier was dug last. He was stopped in the course of this work and told that a change had been decided upon. In this he acted on orders from Youdell, the owner's clerk of the works. He could not tell to what depth the excavation was finally carried. On Tuesday W. W. Kenly, general manager of the United States Mortar Supply Co., testified that his company sold to the plaster contractor, Guider, forty-seven cubic yards of plaster, and delivered it at the Ireland building between August 5th and 8th. Charles Morton, foreman for Stephen Randall, the carpenter, said he had seen plaster hoisted to the second, third and fourth floors; on the floors above the work was nearly done. There were 400 bags of cement on a portion of the first floor that did not go down in the collapse. Witness was not informed that the steam pipes originally laid straight bent so that they cracked, or that the girders of the elevator were so badly bent that the machine could not be worked.

H. Waller Brinckerhoff, civil and mechanical engineer, who had examined the building at the instance of Messrs. J. B. & J. M Cornell, testified on Wednesday and gave it as his opinion that the cause of the disaster was inadequate foundations under all the pillars. Besides the iron plate there was one foot of stone and one foot of concrete. This was entirely too shallow, especially when laid in such yielding soil as he found this to be. He would have made it broader and thicker. It was difficult to say if the wall of the cistern was a contributing cause. His examination of the iron of the building showed that there was about 500 tons weight on the broken pillars, and as there were no marks of an impact on the head of the central column he thought that the collapse was caused by pressure from above. The breaking of the other pillars had nothing to do with the fall of the building. The break in each of these pillars was a square one, and a majority of them were broken on line. These fractures were caused by material falling upon the pillars and not by pressure. The shifting of the core in one of the columns as he saw it would not affect its carrying power. There must have been a sag of probably 4 inches in the building, he thought, before the central portion fell. The mortar and plaster as he saw them were not an excessive load for the floors, and he did not think they caused the collapse. Thomas Murray, foreman for Contractor Parker, testified that the change in the thickness of the contrete was made by the architect, a statement that the architect subsequently contradicted. He had seen Mr. Ireland about the building several times, but did not think he was there when the trench for the central pier was dug. He did not tell him about the well or cesspool. Buckley was present and must have seen it. The testimony of workmen was also given to show that on the Saturday previous to the accident the steam-heating pipe over the central pier had sagged, and was raised by cutting half an inch off the hanger; later it was raised again an eighth of an inch to bring it in line, also as to the elevator rods having bent just prior to the collapse.

On the fifth day of the inquiry, as a result of the testimony given and admissions made, the Coroner issued his warrants for the arrest, to await the grand jury, of Charles R. Behrens, the architect; Dennis E. Buckley, the Department of Buildings inspector on the building at the time the foundations were made; Edward I. Youdell, the owner's clerk of the works; Thomas Murray and Thomas Walker, foreman and superintendent respectively for Contractor Parker, who was placed under bail immediately after the accident occurred. Buckley's counsel had previously refused to allow him to be sworn, on the ground that his client had been inferentially implicated by the testimony and his answers might tend to incriminate him and, further, that the inquiry was irregularly conducted. Walker's arrest was on the statement of Murray that he had informed him of the change made in the thickness of the concrete. Counsel for J. B. & J. M. Cornell, or the companies who have insured them against accidents on this job, put in evidence a report from the Weather Bureau in this city, showing that on the 7th inst., the day preceding the accident, 1.13 inches of rain had fallen in New York City. They also called Chas. O. Brown, the well-known engineer, to testify as to the condition of the piers directly after the disaster. He said he found the first of the centre columns intact after the disaster, upon his first inspection, but since then the stone and iron plate had been broken; of the second pier he found that the stone and plate were broken transversely on first examination, but the flanges of the iron columns were intact. Since then the flanges had broken off. When first examined the column had depressed or sunk into its foundation $2\frac{7}{8}$ inches. Now it was a little more. Column 4 was broken $2\frac{5}{8}$ inches through its plate and stone on first examination—a little more now, showing that there was still some sinking of the foundations.

The Coroner, jury and counsel spent yesterday in an examination of the ruins. It is reported that the stone on which the central pillar rested on being lifted showed signs of being connected with the concrete base only at the edges by means of cement grouting, and that a space larger than the iron plate above was vacant between the stone and concrete. The stone itself was neither granite nor Greenwich stone, but a soft gneiss or mica-schist. The soil below was moist.

Cable Road Extension to Kingsbridge.

The Third Avenue Railroad Company has again been successful in getting its application for a franchise to extend its lines in the upper West Side district approved by the Railroad Committee of the Board of Aldermen and recommended to the Board. The report containing this recommendation will be considered by the Aldermen at their next meeting.

The application of the Third Avenue Company affects the building of about eleven miles of railroad on routes as follows: From the junction of Kingsbridge road or Broadway and West 162d street, thence northerly and northeasterly to and across the proposed new bridge over the Ship Canal, thence northerly to and across the bridge over Spuyten Duyvil Creek at Broadway, thence northerly through and along Broadway to the city line; also from the junction of West 125th street and St. Nicholas avenue to a junction of said avenue with Manhattan avenue, thence southerly to West 116th street; also from the junction of Kingsbridge road or Broadway and Riverdale avenue, running thence northwesterly and northerly through upon and along Riverside avenue to the city line; also from the junction of Manhattan street and 11th avenue to the junction of Kingsbridge road at or near 169th street.

The application of the Metropolitan Traction Company covered these routes:

Commencing at the junction of 116th street and Manhattan avenue, thence northerly to St. Nicholas avenue, thence northerly to 145th street, thence westerly to the Boulevard, thence northerly to Fort George avenue; also from the junction of the Boulevard or 11th avenue at or near 169th street, thence northerly and northwesterly to and across the new bridge over the Ship Canal, thence northerly to and across the bridge over Spuyten Duyvil Creek at Broadway, in or upon Broadway to the northerly line of the City of New York; also from the junction of 145th street and the Boulevard, thence southerly to 125th street and thence easterly to Amsterdam avenue; also from the junction of 145th street and St. Nicholas avenue, running easterly in or upon 145th street to the Harlem River.

The General Tax Rate.

The Finance Committee has presented a report to the Board of Aldermen recommending that the tax rate for 1895 be 1.91 per cent, and the rate for corporations exempt from the payment of any of New York County's proportion of the State tax because they pay a tax directly to the State Comptroller at 1.7278 per cent. The statement on which these recommendations is based is as follows:

Final estimate for the year 1895 as fixed by the Board of Estimate Dec. 31, 1894		$39,976,960 04
Less surplus in the general fund Jan. 1, 1895		2,500,000 00
Net budget		$37,476,960 04
Add special appropriation for Commissioners of Accounts		100,000 00
And these deficiencies:		
Rebate on taxes last year	210,000 00	
Personal tax for 1894 uncollected	616,801 14	
Total to be raised by tax for 1895		$38,403,761 18

The total assessment of property, real and personal, for the year is $2,016,947,662. The tax on this is divided as follows:

$1,951,119,359 at 1.91	$37,266,379 76
65,828,303 at 1.7278	1,137,381 42
Total	$38,403,761 18

The report will be acted upon at the next meeting of the Board of Aldermen.

Real Estate Market.

With gre[illegible] pile[illegible] the reports of sales negotiated through the agency of brokers indicating an aggregate investment for the week of about $500,000, it might be said with every appearance of truth that the market has gone from bad to worse. That statement would, however, be misleading, as the real cause of the prevailing dullness is the absence of buyers from the city, not a disinclination on their part to dicker or purchase. Many transactions, small and large, are held in abeyance in brokers' offices owing to the difficulty experienced in getting principals together, even after a sale has been arranged in every detail, not unusually by mail or telegraph. Until the absentee capitalists return and again direct their attention to speculation or investment dullness will pervade the market, and there is excellent ground for saying that there will be little or no change before the latter part of September.

With one exception, a sale of a leasehold by William Kennelly on Tuesday, the week's auction offerings have been of the usual legal description. On Tuesday, Strong & Ireland adjourned until October 1st, a sale of property on Brook avenue, and Bleecker & Son, without date, a sale of No. 120 West 50th street. On the same day William Kennelly postponed until yesterday a sale of No. 57 West 68th street, and then further adjourned it until September 6th. On Wednesday, Smyth & Ryan's sale by order of receiver of the property owned by the Fifth Avenue Transportation Co. (Lim.), including a leasehold interest in stables in 88th and 89th streets, east of Madison avenue, went over to September 12th.

Peter F. Meyer will, on Wednesday, September 4th next, sell by order of the Supreme Court, in foreclosure, at auction, in the Salesroom, No. 111 Broadway, the four five-story brick and brownstone apartment houses with lots, Nos. 111, 113, 115 and 117 West 96th street. This property is located on a wide street, under the care of the Park Department. The street is asphalted, and in other ways is desirable for residence. Property in the immediate vicinity has been in demand at improving prices for some little time past. Maps, etc., can be obtained of Shipman, Larocque & Choate, plaintiff's attorneys, No. 35 William street, or of the auctioneer, No. 111 Broadway.

Gossip of the Week.

SOUTH OF 59TH STREET.

Guttwillig Bros. have sold, for improvement, to John Kehoe, builder, the plot 75.9x101.7, with old buildings, Nos. 260 to 263 West street, southeast corner of Vestry street. The buyer will erect a storehouse on the lots.

J. N. Kalley & Son have sold for A. H. M. Saltonstall, the five-story building, with lot 20x40, No. 110 Water street, near Wall, to a Mr. Kingsland.

Winans & May have sold for a client the four-story dwelling, lot 21x100.5, No. 54 West 53d street, to a Mr. Tuckerman.

Folsom Bros. have sold for Mary Cone the plot, 50x100.5, with old buildings, Nos. 241 and 243 East 45th street, to Elias Kempner.

W. Z. Greene has sold for Allan McCulloh the four-story dwelling, lot 16.8x80, No. 67 East 53d street, northwest corner of Park avenue, for about $25,000.

This week has witnessed the consummation of a deal that some months ago gave rise to several indefinite rumors of an extensive improvement to be made in the block bounded by Wall street, Exchange place, Broad and New streets. At one time the ridiculous statement was made that the Standard Oil Company contemplated erecting a building, and on other occasions it was hinted that any one of several other corporations would be found behind the project. The actual facts disclosed in the past few days show that Jefferson M. Levy, the owner of Nos. 20 and 22 Broad street and Nos. 18 to 20½ New street, had succeeded in forming a syndicate with a capital of $1,000,000 to erect upon the site a modern office structure. The scheme was perfected long ago, but not a particle of information regarding it has leaked out during the weeks or months that have intervened. On Wednesday the members of the syndicate incorporated at Albany the Commercial Cable Building Company, with $1,000,000 capital stock. John W. Mackay, George E. Ward, A. B. Chandler, W. H. Baker, E. C. Platt, George Clapperton and W. W. Cook, of this city, all of whom are identified with Mr. Mackay in various companies having offices in the Postal Telegraph Building were the incorporators. On Thursday, at a meeting of the stockholders, a board of directors was elected consisting of Mr. Mackay, who was subsequently made president, Messrs. Ward, Baker and Chandler, Jefferson M. and L. Napoleon Levy and Smith Ely. The first inkling that a deal of some kind was under way was obtained on Tuesday through a conveyance of No. 18 New street, by Jefferson M. Levy to George G. Ward. That parcel and those adjoining it have since been transferred to the Commercial Cable Building Co. The aggregate consideration expressed in the deeds was $1,126,300, an amount far in excess of the actual value of the property for which $800,000 would be a very liberal cash consideration. The venture is a promising one, and will no doubt prove profitable, not only to Mr. Levy, but also to his associate stockholders.

NORTH OF 59TH STREET.

J. W. Stevens has sold for the banking firm of I. & S. Wormser a plot, 75x100, on the south side of 99th street, 100 feet east of Columbus avenue, to Builder James McWalters for improvement; also for Anna M. Dunlap the three-story stone front dwelling, No. 147 West 93d street.

The five-story brick flat with stores, lot 25x100, No. 724 Columbus avenue, west side, 50.6 north of 95th street, has been sold by Josephine A. Cummings for $30,000. It was purchased in 1890 for $25,500.

Barnett & Co. have sold for Justice Joseph P. Fallon the four-story stone front dwelling, 20x60x99.11, No. 37 West 130th street, to Theresa A. Lucey.

W. D. Rusher has sold for Mrs. Kate Dick the three-story dwelling, 16.8x50x99.11, No. 225 West 134th street, to a Miss Jones.

J. Edgar Leaycraft has sold for Oscar Duryea the plot, 50x100.11, on the north side of 113th street, 150 feet west of Amsterdam avenue, to ex-Justice Charles N. Taintor, and a lot on the north side of 101st street, 400 feet west of 1st avenue, for Washington Wilson to Pincus Lowenfeld, at about $4,000.

J. P. & E. J. Murray have sold for Miss Moore to a Mrs. Chapman the five-story double tenement, lot 25x100.11, No. 114 East 115th street.

Ware & Gibbs have sold for Builders W. W. & T. M. Hall the new four-story dwelling, 25x96x102.2, No. 19 East 80th street, at a figure under $90,000.

Mainhart & Lowe have sold for William Broadbelt the plot, 50x100, on the west side of Audubon avenue, 49.11 feet south of 189th street.

Max Marx is the buyer of the two lots on the north side of 147th street, 350 feet west of Amsterdam avenue, recently reported sold by Nathan Wise to H. Wheeler Powell. The proposed sale, in which the latter was interested did not go through. Mr. Marx states that he will erect three three-story dwellings on the plot.

James A. Frame & Son have sold to Mrs. Fanny Rosenstein, at about $23,500, the three-story stone front dwelling, lot 20x100.11, No. 126 West 120th street.

NORTH SIDE.

J. P. & E. J. Murray have sold two lots on Webster avenue, near Travers street, for Miss Forham to a Mr. Edwards, for about $4,500.

C. C. Hottenroth has sold for Maurice Ahl the four-story brick double flat house, No. 666 East 137th street, to E. Gollhofer; also a lot, 20x100, on Bristow street, south of Boston avenue, for H Perdreaux to Charles T. Bell.

The Finest Storage Warehouse in the City for Lease.

Mr. James Everard has just completed the very handsome storage warehouse on the corner of Washington and 10th streets, illustrated below. In erecting this building the main idea was to build something perfect in its line, and with this end in view the only materials used were stone, brick, steel and other fire-proofing. Wood and other inflammable matter was entirely excluded, so that it is absolutely fire-proof. The construction, too, is unusually massive, the floors being adapted to carry the enormous weight of 400 pounds per square foot, a fact that has particular importance at the present moment. The exterior walls are of red brick and granite, surmounted by metal

No 406.

cornice and observation tower. The steel construction was designed and erected by the Berlin Iron Bridge Co., of East Berlin, Conn. The building is architecturally a distinct and attractive addition to the neighborhood in which it is situated. It covers 120x120 feet, with basement and vault including whole area of premises. The interior arrangements include two 14x14 hydraulic elevators with a capacity of five tons each, boilers, pumps, electric plant, artesian wells giving an inexhaustible supply of water, and driveways in and out of building. In its twelve stories it has a floor area of 165,000 square feet, and the twelfth story will carry as much weight as the first. The new Public Stores are only one block away, and the docks of the great transatlantic steamship lines close by. It is without doubt the best located, built and arranged edifice in the city to-day for storage purposes. For particulars as to rent, lease, etc., address the owner, James Everard, No. 12 East 133d street. The premises will be ready for occupation by the 1st proximo.—(*Communicated.*)

The Stone Trade of New York.

Mr. Geo. W. White, in speaking before the New York Stone Trade Association, said recently: "I have listened attentively to the remarks of quarrymen, stone-cutters and stone-setters and I have been struck with one thing, they all complain of the poor condition of the trade in New York. Well, I want to say in regard to that, that there is only one city in the United States that I know of where the trade is in any better condition than right here in New York, by which I mean this metropolitan district. If there is a large city where the trade is better than here it is Philadelphia, where one association with its executive committee looks after the whole business. The trade in Chicago is poorer than here. In Boston, with a go-as-you-please system and where they cut each other's throats as quickly and as thoroughly as possible, the largest stone-cutter has not had enough work in two years to keep two men employed. From 85 to 90 per cent of the building operations in this city ought to be residences, as a matter of fact business blocks at the present time form 85 to 95 per cent, and that is what is the matter with the stone trade. People are not building as many houses as last year or the year before. However, I think you will find that over a large area in the upper part of the city houses have to spring up where now there is nothing but vacant lots. When that time comes the question will be whether we are able to take on the work instead of whether we are going to cut our competitors out in order to keep our men and machinery at work. As a matter of fact I think we may congratulate ourselves on the condition of the stone trade in New York, taking into consideration what it is in other cities."

Fire Escapes at Tenement Houses.

Mayor Strong has requested the Superintendent of the Department of Buildings to institute proceedings against owners of tenements not provided with proper fire escapes. He has also instructed the Police Commissioners to see that fire escapes are kept free from obstructions.

The Concourse Commission.

Judge O'Brien, in the Supreme Court, appointed James M. Blanchard, John H. Knoeppel and John C. De La Vergne, Commissioners of Estimate and Assessment in the matter of the 23d and 24th Ward concourse.

Bridging the East River.

The New East River Bridge Commission at their meeting on Wednesday last passed the following: "*Resolved*, That the commission decide not to accept any of the propositions made by the East River Bridge Company for the sale of its charter, and that our engineer is hereby instructed to survey a new line for the construction of a bridge between the cities of New York and Brooklyn and report to this board."

Notice to Property-Owners.

SAYRE & FISHER CO.'S CATALOGUE.

Sayre & Fisher Co. has just issued a catalogue of their front, enameled, building and fire brick, which, by reason of its contents and their arrangement, architects and builders will find very useful in their offices. This catalogue is in the form of a book of handy size, neatly bound in brown cloth and containing numerous testimonials from well-known architects and builders to the excellence of the goods it describes, photo-gravure representations of the places at which they are made, and of some of the buildings in which they have been used, as well as linear and colored designs of the bricks themselves. A long list of buildings in which these bricks have been used, divided by the kind or color of the bricks employed, is also given, which will be of use in guiding the architect in the selection of his materials. As very many of these buildings are in New York and its vicinity an architect can without very much trouble refresh his memory on the practical effect of any given shaped or colored brick by a visit to the building which he will see from this catalogue employs it. The colored illustrations will, too, be of much assistance in creating artistic effects on the boards. The usual information as to prices, etc., is of course included in the book. The office of Sayre & Fisher Co. is at No. 207 Broadway, where no doubt copies of this catalogue can be had by architects and builders on application.

Livingston & Nesbit is the title of the latest addition to the ranks of dealers in building material in this city. The personnel of the firm consists of Messrs. George Livingston and John A. Nesbit. The first named was until recently one of the School Commission of this city, and a member of the building committee of the Board of Education, and it was through his individual efforts that the bill giving the Board the additional appropriation of $5,000,000 for new school buildings was introduced and passed. Mr. Nesbit has been actively engaged throughout his entire business life in the building material trade, having formerly been connected with the firm of John Nesbit's Sons, and until recently with O. D. Person. In early life Mr. Nesbit learned the mason's trade, so that he is practically as well as theoretically versed in his business. The firm will deal in the following named materials: All kinds of front and ornamental brick, glazed brick, fire-proofing, flue linings, copings, etc. They represent, also, the American Wire Glass Company, of Philadelphia, and the N. & G. Taylor Company, manufacturers of tin plates. The gentlemen composing this firm are individually well and popularly known amongst builders and architects, and will no doubt, therefore, be able to secure a fair amount of patronage from their many friends. The offices of the firm are in the Cable building, No. 621 Broadway, corner Houston street.

†*Editor* RECORD AND GUIDE:

The lien filed August 21st by Herman Wuttke, against my buildings on St. Nicholas avenue, is unjust and unwarranted, as under his contract there is nothing due. Steps are being taken to have the lien discharged.

OSCAR PHILLIPS.

‡*Editor* RECORD AND GUIDE:

The lien filed by Thomas P. Galligan against William F. Lennon, amounting to $2,715.16, is unjust, and will be bonded and contested in court.

Leonard N. Vaughan has sold the three-story brownstone dwelling, 20x45x100, No. 125 St. James place, for Mrs. Mary Kennedy to James Gordon, for $9,000; also the three-story and basement brownstone front dwelling, 20x48x100, No. 138 Hancock street, for Mary Culvert to Caroline Beals, for $13,000.

Alvin A. Sealy reports as sales the following: the five-story brick tenement, 25x65x95, No. 647 Union street, for J. C. Grennell to Elizabeth McKay, and the four-story brick flat, No. 179 12th street, 22x60x100, for Elizabeth McKay to J. C. Grennell; prices not stated. [illegible] map J [illegible] 27.

Among the sales credited to T. C. Van Pelt in our last issue was the plot of lots located on the southeast corner of 26th street and 10th avenue, the location should have been on the southeast corner of 26th street and 4th avenue.

T. C. Van Pelt has sold the three-story and basement brownstone dwelling, No 375 3d street, 20x40x90, for the Dean Estate to P. H. Flynn for 6,500.

James R. Ross has sold to Johanna Ostheim the three-story and basement brick dwelling, No. 279 Decatur street, 18.3x44x100.

Corwith Bros. have sold the three-story and basement frame dwelling, lot 25x100, No. 627 Leonard street, for William Gibbons to Mary A. Shears for $3,800.

Foale & Arnold have exchanged for William H. Tomford a plot of three lots, located at Richmond Hill, with John Cannon for the three-story brick flat, No. 444 16th street.

Builders—Brooklyn.

R. 1295.—T. Engelhardt has plans for alterations of and additions to the one-story brick church building located on Montrose and Union avenues, for the First Baptist Church Society. The cost of the work will be about $8,000.

R. 1321.—Gravesend Station.—John Hock, of No. 563 Barbey street, Brooklyn, will erect a two-story and attic frame cottage from plans drawn by F. F. Martinez, of Bayonne City, for Peter Van Orden, of No. 22 Willow street, Brooklyn. It is to contain all the improvements and cost about $3,000.

R. 1342.—J. B. McElfatrick & Son, of New York City, are preparing plans for a residence to be erected on the Eastern Parkway, near Vanderbilt avenue, for William H. Reynolds, of No. 350 Fulton street, to cost $50,000. The building is to be of buff colored Roman brick, trimmed with Lake Superior stone. The interior will be finished in hardwood, and will contain all improvements including steam heat and electric lighting.

BUILDING MATERIAL MARKET

NEW YORK.

The following companies have recently filed papers of incorporation with the Secretary of State at Albany:

The Metropolitan Asphalt Paving Company of New York City—To manufacture and deal in Bermudez asphaltum and other paving material; capital, $200,000; and directors, Thos H. Thomas, Paul D. Cravath, John W. Houston, Edward H. Brush and Wm. M. Coleman, of New York City.

The Springville Sash Lift and Ventilator Company—To manufacture the "Blanchard Combined Sash Lift and Ventilator," in Springville, Erie County.

The Brooklyn Alcatraz Asphalt Co—To make from refined asphalt or coal tar a suitable pavement, in Brooklyn; capital, $50,000; and directors, William B. Pope, of New York City, and Harry C. Everdell, Thaddeus D. Bradford, David K. C. Class and C. W. Wild, of Brooklyn.

R. J. Rogers Lumber and Coal Co. of Seneca Falls—Capital, $25,000; and directors, George P. Rogers and Silas B. Hopkins, of Seneca Falls, and George W. Foster, of Geneva.

The J. A. Mahlstedt Lumber and Coal Company, of New Rochelle—The capital is $75,000, and the directors are Albert, J. A. and C. W. Mahlstedt, of New Rochelle.

BRICKS.—It would not be very much out of place to print the brick market report in blue ink, as that color about represents the state of feeling still prevailing among operators. In one or two cases, this week, we have heard of a tendency on part of manufacturers to curtail shipments, if possible, and that seems to be about the only glimmer of a hopeful character in the situation. Demand has been very good to be sure, and the unsold accumulation from day to day is not excessive, but the morning arrivals always bring a good, full, fresh supply to start upon and buyers never experience any difficulty in securing attention when they express a desire to negotiate. Nor have they found themselves at any greater disadvantage in matter of price. The same phenomenally low range of cost at which we have quoted for the past two or three weeks continues, with $4.50 practically the top figure for anything that can be sold on open market and the bulk of the trading as before ranges upon lower plane, say $4.25@4.37½, the latter rate getting some mighty fine goods. Anything faulty is subject to special deal and generally goes for $4 and under. As no one suggests time or basis for a change it is useless to discuss the market, but simply leave the record as it stands and await developments.

GLASS.—There is not much change locally. Operators generally are adhering rigidly to old rates, and while some appear slightly disappointed over the volume of business the majority express satisfaction and much hope for the future. The special correspondent of a local trade journal writing from Pittsburg says: "Stocks in manufacturers' hands are admitted to be below 400,000 boxes by the best informed manufacturers and workers, who have carefully and thoroughly can-
Eck[illegible]ssed the matter during the past week. The In[illegible]

be higher, and the price of glass must follow. Plate is selling well and commanding full rates readily.

LATH.—A weak, irregular and unsatisfactory market is about the only record that can be made. Without being at all excessive the supply has nevertheless continued to exceed the natural demand, and receivers were compelled to keep up a constant skirmish in search of custom. Sometimes they found a little in this district and again they were compelled to hunt outside, and, according to the attitude of buyers rates were fixed. Sales have been made from $1 80 down to $1.70, and probably a mid-way figure would be about as fair as could be quoted at the moment for cargo. Business has been done at something under the lowest of the above rates, and it is best to refer to it simply to explain that the deal was entirely in winter made and other inferior stock, and does not represent a fair valuation for standard quality.

LIME.—Slow trade and apparently no signs of immediate improvement continue to confront sellers. The arrivals have been moderate, and we encounter the stereotyped report about most of the supply being closely sold up, but a very little stock goes a great way in the present condition of demand, and any buyer who says he wants lime gets it and gets it quick. In matter of valuation it seems to be old quotations, and a guess at actual cost, but with a strong inclination to give buyers the benefit of the doubt. Regarding the outlook no one in the trade seems to have any clear idea, and an attempted forecast would be of no value.

LUMBER.—Although there is nothing discouraging or really generally disagreeable in condition of the lumber market, it does not quite come up to the measure of previous calculations. A very hot August, doubtless, is responsible to some extent for narrow business, but aside from that buyers have manifested an indifference hardly looked for. Neither have dealers found average consumption running up to full active volume except in a few instances, and they have in consequence lacked an incentive to handle more than ordinary quantities of stock for immediate delivery, and take matters slowly regarding the future. Still there is inclination to look upon conditions as only temporary, and agents handling the various lines of staple goods are very hopeful of securing a good full list of orders before end of season. The export trade is very fair but dealers have plenty of stock to meet it at about former rates.

Receivers of Eastern Spruce have fared rather the worst during the month. The total of stock coming along was quite full in any case, but unfortunately the proportion of short and narrow instead of diminishing, as had been hoped, steadily increased until it became almost impossible to get a direct bid and business had to be forced. Under such influence rates settled, of course, and as low

NOTWITHSTANDING that the demand for exchange has again compelled large shipments of gold, stock market prices have had very strong and general business continues to improve all along the line. This latter improvement, however, has not yet gone so far as to make the demands for money at all compare with the funds seeking employment. This is one of the reasons why prices of securities advance under conditions that would assuredly produce a contrary effect in times of great commercial activity. As it is, all the money that is wanted for general business is readily supplied, while leaving large amounts which cannot command any return except in investment securities. Size, 16x75 each. The Collapse on West Broadway.

The testimony as to the cause or causes of the collapse of the Ireland building on West 3d street and West Broadway, given before the Coroner, was continued on Monday and concluded Tuesday last in a forenoon session. An adjournment was then taken over to Thursday, when the Coroner summed up briefly and the jury returned the following verdict:

We find that the said John Burke, Paula Vito, Thomas McGuire, John W. Schmidt, Charles W. Peterson, Augustus Phillips, Michael Savage, Michael O'Hare, Pietro Mareno, Edward Hanley, Michael Flynn, John Murphy, Christopher O'Rourke, William Hayes and Patrick Cashin came to their deaths at or about the 8th day of August, 1895, from injuries caused by the collapse, at the day aforesaid, of a portion of the building in course of erection on the northeast corner of West 3d street and West Broadway, the cause of which was as follows:

Insufficient foundation of the third column from the West 3d street front, known as "column No. 3;" said foundation being further weakened by standing partly on a portion of the remains of a cistern.

We further find that the foundation of said column was not of the thickness called for by the law, and was not in accordance with the plans as approved by the Building Department of the City of New York.

We further hold the following named persons responsible for the said collapse: John H. Parker, Thomas Walker, Thomas Murray, Charles R. Behrens, Edward J. Youdale and Dennis E. Buckley.

We exonerate Joseph Guider in that we do not find any evidence to show that the floors of said building were overloaded by him at the time of said collapse.

We exonerate Jeffards E. Sillock in that we have no evidence connecting him with the collapse of said building.

In the matter of the iron work we find no evidence showing the same to be contributory to said collapse; but the jury recognizes the fact that the said iron was and is defective, and not in compliance with the specifications.

On Monday the People called for expert testimony, John G. Van Horn, civil engineer, who gave it as his opinion that the cause of the collapse was insufficiency of foundations. He said: "The foundation of the central pier was laid in part on the [illegible] tern which caused an unequal distribu[illegible] quent collapse." The sag in its [illegible] been made, he said further. The bearing capacity of the [illegible] w[illegible] square foot; the central column [illegible] ous. Owing to the nature of the soil, [illegible] been constructed strictly in accordance w[illegible] tions, the building would have settled. The structural work that would have caused the [illegible] tion of the central pier had not given way, the sixth floor broke in falling; there were not enough blow-holes in it to effect its carrying capacity. He never knew a cast-iron column to break because of pressure from above, a cast-iron column would resist more pressure than steel. Finally he said where buildings were to be erected on such a soil as was present in this case the foundations should be designed by a civil engineer and not by an architect. Jacob Voorhis, stone dealer, said he furnished the stone under a contract made with John H. Parker, which called for four stones, each 6x6x1½ inch, and one 5x5x1½ inch. The stones were delivered according to contract; they were Greenwich stone from his father's quarry in Greenwich, Conn. The stone was hornblende biotite gneiss, it contained some mica but no slate. Charles O. Brown was recalled to emphasize his previous testimony that the collapse was not due to imperfections in the iron used in the building, and a clerk of the Cornells testified that the weight of the iron delivered to the Ireland building exceeded the specifications by from 12 to 20 per cent. Joseph Guider, the plasterer, and now under $5,000 bail, testified that 1,625 bags of cement were delivered to him at the building, of which 1,200 had been used at the time of the accident; there was none of it on the upper floors except what was on the walls; the unused bags were piled on the first floor on the West 3d street side. When hoisting material to keep the men employed the bags were always taken from the elevator by two men and piled not more than three high about twelve feet from the opening of the well hod-hoist.

The time occupied by the inquiry on Tuesday was mostly taken up by the examination of Mr. John B. Ireland, who denied any knowledge of the old well or cesspool, or of taking any part in directing the construction of the building. He said he left everything to his architect, Behrens, and the contractor, Parker. Counsel for different interests sought to obtain admissions which would help their clients, but without effect. The counsel for Parker put in evidence his copy of the contract and read this extract: "And the builder hereby admits that the said plans, elevations, specifications and drawings are sufficient for their intended purposes, the iron-work excepted." This was produced in connection with testimony bearing on the cutting down of Parker's original bid of something over $66,000 to $60,000. It will be remembered that the Cornells' bid for the iron footed up $14,830, and the next lowest, that of the Healy Iron Company, $17,214.

The North River Bridge.

The New York Harbor Line Board on Monday opened an inquiry to determine the site of the approaches to the proposed bridge across the Hudson River. As will be remembered the Act of Congress authorizing the construction of the bridge limits the line of selection on the east bank of the river from 59th to 69th street. The bridge company asked that the Board approve its selection, the block front between 68th and 69th streets. Mr. Thomas S. Ormiston, representing the West End Association; W. R. Martin, for W. E. D. Stokes, and James Van Dyck Card, a property owner, opposed this request on the ground that the site proposed was not far enough away from the high-class residence district, and if approved would materially injure the latter. The hearing will be resumed in the United States Army Building, Whitehall street, on Tuesday next, the 3d inst., at 11 A. M.

New Street Plans.

Commissioner Haffen has under advisement the following changes in street plans on which he will render a decision in time to include any changes that may be made in the maps that will be filed on January 1st next: The approach to the Grand Boulevard and Concourse, from Jerome avenue through 162d street to Walton avenue, thence to 161st street, and finally to the Concourse, to viaduct extending from Ogden avenue along 161st street to the Mott avenue approach; change of grade of Bathgate avenue, between 177th and 179th streets; at Roscobel avenue, between Jerome avenue and Highbridge road; at Valentine avenue, between Suburban and Summit streets, and at East 196th street, between Main and Decatur avenues; the laying of a street west of Marion avenue, from 187th to 189th street; the grading of Anthony avenue, from Burnside avenue to 180th street; the plan of sewerage between the Grand Boulevard and the Concourse, and Anthony avenue, from 176th street to 178th street; the draining of the basins along Webster avenue, from East 165th street to Mosholu Parkway.

Unsanitary Buildings.

The Board of Health has declared the following buildings to be public nuisances: No. 76 Bowery; 534 East 73d street; north side of 107th street, 200 feet east of Amsterdam avenue; 799 East 182d street; 973 Washington avenue; Sniffen Court, 156 East 36th street; 620 6th street (rear); north side 95th street, about 150 feet east of 5th avenue; 726 and 723 11th avenue; 231½ South 5th avenue; 514 and 516 West 162d street, and 473 Brook avenue.

Poor's Manual of Railroads.

That indespensable reference to the financial side of the railroad business of this country, Poor's Manual of Railroads, has made its appearance for the year 1895 in the dress by which it is at once recognized throughout the world of finance and trade. The changes that are being made in the standing of so many railroads as a result of the business collapse of 1893 and the subsequent recovery makes the appearance of this book particularly welcome just now when so general a readjustment of investments is going on. It is not necessary to particularize its contents, their general scope is too well known. It may be said, however, that the extent and thoroughness with which the work has been done this year increases the use and efficiency of the book.

Gossip of the Week.

SOUTH OF 59TH STREET.

Hoffman Bros. have sold for John T. Williams to a client the nine-story modern mercantile building, Nos. 450 and 452 Broome street, northeast corner of Mercer street, with lot 50x50. The purchase price is said to be a little under $240,000.

The Cass Realty Co. has bought of Alexander H. Stevens the four-story stone front dwelling, lot 25x120, No. 10 East 57th street. Mr. Stevens paid $120,000 for the property on January 14, 1884. It has doubtless just been sold at a lower figure.

Daniel Birdsall & Co. have sold for the Arcularius estate the three-story brick building, 25x75 (leasehold), No. 79 Warren street.

Charles Martin has sold for the Sanger estate the five-story brick store and tenement, 20x65x100, No. 627 9th avenue, between 44th and 45th streets, to F. Maute for $22,500.

The Frank L. Fisher Co. has sold for Mrs. Isabella M. Fisher the two five-story brick tenements, with plot 50.5x92, Nos. 431 and 433 West 16th street, at a figure said to be about $50,000.

Joseph Wehrle, senior proprietor of the Belvedere Hotel, 4th avenue and 18th street, has bought the adjoining four-story house and lot, 20x77. No. 47 East 18th street, from the Central Real Estate Association for about $50,000.

Poor's Manual of Railroads.

That indespensable reference to the financial side of the railroad business of this country, Poor's Manual of Railroads, has made its appearance for the year 1895 in the dress by which it is at once recognized throughout the world of finance and trade. The changes that are being made in the standing of so many railroads as a result of the business collapse of 1893 and the subsequent recovery makes the appearance of this book particularly welcome just now when so general a readjustment of investments is going on. It is not necessary to particularize its contents, their general scope is too well known. It may be said, however, that the extent and thoroughness with which the work has been done this year increases the use and efficiency of the book.

Obituary.

James Cruikshank, who for many years has held a unique position as the oldest of New York real estate brokers and agents, died on Tuesday at his residence, Hempstead, L. I., in his ninety-second year. The present firm of E. A. Cruikshank & Co. owes its existence to the deceased, the father of its members, who early in the century conducted the business when it was restricted to long term land renting in the lower section of the city and quarterly collections from the tenants. At that time a desk in the corner of a general store, Mr. Cruikshank has often said, was the chief article necessary for the transaction of an average renting business. Vigorous up to almost the day of his death the deceased was a picturesque figure frequently seen on lower Broadway, and one of the best examples of advanced and well-preserved manhood known to the metropolis. He is survived by three sons, E. A. Cruikshank, ex-President of the Real Estate Exchange, Augustus W. and Warren Cruikshank, and three daughters. The funeral services will take place this afternoon at 1.30 o'clock at his late residence at Hempstead.

Laws Relating to Building.

The new edition of the "Laws Relating to Buildings in New York City" is now ready and can be had on application at the office of THE RECORD AND GUIDE, price $2.00. This book is an indispensable reference in the architect's and builder's office. It is revised and up to date, including the provisions of the law passed in the last session of the Legislature relating to tenements.

The Tax Rate.

A vote of the Board of Aldermen, on Tuesday last, completed the formalities making the general tax rate for 1895 1.91, and the exempt corporation tax rate 1.7278, as recommended by the Finance Committee.

BROKER'S COMMISSION.

To the Editor of THE RECORD AND GUIDE:

Please answer in your next number the following: What commission, if any, the broker is entitled to according to the statute and rules governing the sale of property, as made by Real Estate Exchange? A, an owner of four vacant lots, gives them to B, a real estate broker, to sell, with a loan, to a responsible builder, to erect on lots tenements. Terms of sale were, no money required if the builder's references were satisfactory. B presented to A, the owner, on or about June 27th, a builder, C. After introduction the owner stated to builder the location, dimension of lots and conditions of sale, as above. C gave A his references, when A requested us to call on him the next day for his answer. Broker and builder called and on meeting A, the owner, A said in the following words: I have looked after your references and they are perfectly satisfactory, you are just the kind of man I want, the lots are yours, and took us to a broker who was negotiating his loan. After introduction to the loan broker, D inquired of C how he would want his payments made as buildings progressed. That matter was partly fixed when C informed A that the contract for lots would have to be taken in the name of a member of his family, as he had judgments against him. There were no objections made by A, and when we left them we were to call in a few days to execute contract. On the 1st day of July B called on A about the contract when A says he had decided to let C have two lots at a time, and when the first two houses were built and roofed then he would give C the other two, and A also said he would not pay me any brokerage on the sale until the first payment was made on the buildings. This interview was at A's dwelling house. The same day, July 1st, A meets C at D's office and tells him the same, and told C to have B at D's office the following day, July 2d, at 9.30, to fix up the matter. July 2d B and C were at D's office at time appointed when D told us that A had gone out of the city with his family, and D then gave C a letter of introduction to the capitalist making A the loan for C to arrange his payments; when that was done D called B in his back office and said A had left word with him to say to B his commission on the lots would not be paid [illegible] in question [illegible] ment on buildings was made [illegible] to New [illegible] years.

Real Estate Market.

The market has indulged in a modest spurt as a wind-up for August, and the result is the selling this week of realty valued in the old cis-gate at about $850,000, [illegible] involving [illegible] capacity [illegible] ing due in a measure to exchanges [illegible] are [illegible] parcels [illegible] more than average value. Jarmers [illegible] in fact practically controlled the market as far as property north of 59th street is concerned, notwithstanding that our reports fail to indicate it. We have received reliable information of a number of uptown deals that have gone through, but the particulars at hand are not sufficiently definite to enable an intelligent report of them to be made. In other respects the market is without decided change.

Nothing of special interest occurred in the Broadway Salesroom this week. An executor's sale of a cheap parcel was the sole relief presented by any of the auctioneers from the usual routine legal offerings. On Tuesday Smyth & Ryan adjourned until September 10th a sale of trans-Harlem lots on 145th and 146th streets and Lane avenue, and on Thursday a sale announced by Bryan L. Kennelly of the leasehold property, No. 474 Grand street, was postponed in consequence of an error having been made in the legal advertisement. For the third time in a few weeks the leasehold property, No. 3 East 14th street, was sold under foreclosure on Thursday. D. P. Ingraham officiated as auctioneer for the second time. The buyer at Mr. Ingraham's previous sale, Thomas S. Denike, failed to comply with the terms after having deposited the usual 10 per cent. Thursday's purchaser represented the holder of a second mortgage in whose interest the purchase at the first sale by Richard V. Harnett & Co., was also made.

Peter F. Meyer will, as mentioned last week, sell at auction on Wednesday next, at No. 111 Broadway, the four five-story brick and brownstone apartment houses with lots, Nos. 111, 113, 115 and 117 West 96th street. The reasons that make this a very desirable property are quite well known, and the auctioneer, whose office is at No. 111 Broadway, will furnish full particulars, etc., on application.

Gossip of the Week.

SOUTH OF 59TH STREET.

Hoffman Bros. have sold for John T. Williams to a client the nine-story modern mercantile building, Nos. 450 and 452 Broome street, northeast corner of Mercer street, with lot 50x50. The purchase price is said to be a little under $240,000.

The Cass Realty Co. has bought of Alexander H. Stevens the four-story stone front dwelling, lot 25x120, No. 10 East 57th street. Mr. Stevens paid $120,000 for the property on January 14, 1884. It has doubtless just been sold at a lower figure.

Daniel Birdsall & Co. have sold for the Arcularius estate the three-story brick building, 25x75 (leasehold), No. 79 Warren street.

Charles Martin has sold for the Sanger estate the five-story brick store and tenement, 20x65x100, No. 627 9th avenue, between 44th and 45th streets, to F. Maute for $22,500.

The Frank L. Fisher Co. has sold for Mrs. Isabella M. Fisher the two five-story brick tenements, with plot 50.5x92, Nos. 431 and 433 West 16th street, at a figure said to be about $50,000.

Joseph Wehrle, senior proprietor of the Belvedere Hotel, 4th avenue and 18th street, has bought the adjoining four-story house and lot, 20x77. No. 47 East 18th street, from the Central Real Estate Association for about $50,000.

NORTH OF 59TH STREET.

Ferdinand Forsch has sold a plot, 100x100.8, on the south side of 96th street, 150 feet west of Columbus avenue, to Builder John Cotter for improvement. Brokers, James McCoomb and A. Guthman.

M. Bargebuhr & Son have sold for William L. Loew the two five-story single flats, 18.9x75x95 each, Nos. 498 and 500 Manhattan avenue, near 121st street, to Charles Beckman at $45,000, the latter to give in part payment the house [illegible] on the northeast corner of Liberty avenue and Ash[illegible]rooklyn, valued at about $14,000.

J. W. Stevens has sold for Arthur A. Stillwell the lot, 25.3x75, on the southeast corner of the Boulevard and 125th street, to W. A. Mitchell, who recently bought through the same broker the lots adjoining to the south, including the 124th street corner, and has now become the owner of the block frontage 201.10.

Through an error in the report last week of a sale by Broker Stevens for I. & S. Wormser to Builder J. McWalters the property was described as being on the south side of 99th street, 100 feet east of Columbus avenue. It should have read 98th street.

Otto Diedrich has sold for George Daiker, the four-story stone front dwelling, lot about 18x70, No. 720 St. Nicholas avenue, with all furniture, etc., to Actor W. B. Curtis, for $27,000, a consideration represented by property in California to be taken in exchange.

Bennett & Graff and J. S. Edmundson & Co. have exchanged for Eva Phillips Graft with Joseph Rosenthal the dwelling, No. 136 West 80th street, for No. 256 West 121st street. The former firm has closed a second trade by which the latter house will be exchanged for the five-story flat, No. 131 West 103d street, the property of Ruth H. Moore.

Max Goldstein has sold for Mrs. C. Weinland the two five-story brick tenements, plot 50x102.2, Nos. 323 and 325 East 72d street.

S. H. Greenbaum has sold for James J. McCabe the five-story stone front double flat, lot 25x100.11, No. 53 East 104th street, to B. Hockstadter.

Morgan D. McMonegal has sold for the estate of J. W. Dimick, a plot, 122.10x102.2, on the north side of 77th street, 150 feet east of Amsterdam avenue, to Builder James B. Gillie for improvement. About $75,000 is said to be the price agreed upon.

Builder H. Ives Smith has sold the four-and-a-half-story stone front dwelling, 17x60x100.8, No. 68 West 87th street, to Alfred Davis, for about $30,000. This sale is the second closed by Mr. Smith, leaving one house of his row of three unsold.

F. Aldhous has sold at about $34,000, the four-story stone front dwelling with lot, 20x102.2, No. 157 West 75th street, leaving two unsold out of a new row of five houses.

LEASES.

Daniel Birdsall & Co. have completed the renting of Nos. 707 and 709 Broadway, a nine-story modern structure, which is being erected by John T. Williams, and will be finished late in December. The gross annual income from the building will be $50,000, of which sum $15,000 will be paid in the aggregate by the two firms last secured, S. J. Nathan, Son & Co. and L. Lippmann & Sons. Each is engaged in the wholesale clothing business. Among other tenants are George Legg, flowers and millinery, who has secured accommodations for which he will pay $18,000 per year, and a neckwear firm that will pay at the rate of $8,000.

Jacob A. King has leased for Louis M. Jones, the third loft of Nos. 756 to 760 Broadway, the new nine-story building in course of construction on the northeast corner of 8th street, to Hammond, Knowlton & Co., for a term of years, from February 1st next, at $4,500 per annum. The three upper lofts have been rented through another agent and it is said negotiations under way will unquestionably lead to the renting within a very short time of the remainder of the building which will not be finished until early next year. Agent King has also leased the store and basement of No. 550 Broadway for five years, from February 1st, 1896, to V. Heilbrunn & Co., at an annual rental of $4,750.

To the Editor of THE RECORD AND GUIDE:

Will you kindly answer the following in your next number? A lease on premises in this city having about nine years to run contains the usual fire clause: "That in case the building, etc., shall be partially damaged by fire the same shall be repaired as speedily as possible, etc., that in case the damage shall be so extensive as to render the building untenantable the rent shall cease until such time as the building shall be put in complete repair, but in case of the total destruction of the premises by fire or otherwise the rent shall be paid up to the time of such destruction, and then and from thenceforth this lease shall cease and come to an end." The building in question in the interior was a total destruction, but some of the walls remain standing. The tenant now claims that as long as the walls or any part of the walls remain the lease continues and the landlord can be compelled to rebuild, and so as to avoid a long litigation we have agreed to abide by your decision. (1) What is a total destruction? (2) Who shall decide as to the partial or total destruction to determine whether the lease shall cease or not? (3) If part of the walls remain can or cannot the landlord be made to rebuild for the benefit of the tenant? As these are important questions for your many readers we would be pleased with your answers and any comments.

Answer.—In a contract of letting there is no implied warranty that the premises are tenantable, and by the common law, the tenant, unless he protected himself by covenant, was bound to pay the stipulated rent, although during the term the buildings upon the land might have been destroyed by fire, or blown down by a tempest, and the abandonment of premises because they were untenantable constituted no defense. This, although firmly established, was regarded as a hard rule, a circumstance that led to the passage of Chapter 345, Laws of 1860, which provides that "the lessees or occupants of any building which shall, without any fault or neglect on their part, be destroyed, or be so injured by the elements, or any other cause, as to be untenantable and unfit for occupancy, shall not be liable or bound to pay rent to the lessors or owners thereof, after such destruction or injury, unless otherwise expressly provided by written agreement or covenant, and the lessees or occupants may thereupon quit and surrender possession of the leasehold premises, and of the land so leased or occupied." The fire clause which is referred to in the query was inserted for the benefit of the tenant who might not desire to avail himself of the statute, but to continue in the occupation of the premises for the full term of his lease, after the landlord, as bound by his covenant, had made the necessary repairs. But we think the tenant in this case makes too large a claim; if only the walls or part of the walls remain, the building is destroyed. It cannot be repaired, it must be rebuilt, and rebuilding is not contemplated by the clause in question; the latter the tenant cannot compel. If the parties cannot agree upon the question whether there is a destruction or not, only a court can determine whether the lease shall cease or not.—LAW EDITOR.

BROKER'S COMMISSION.

To the Editor of THE RECORD AND GUIDE:

Please answer in your next number the following: What commission, if any, the broker is entitled to according to the statute and rules governing the sale of property, as made by Real Estate Exchange? A, an owner of four vacant lots, gives them to B, a real estate broker, to sell, with a loan, to a responsible builder, to erect on lots tenements. Terms of sale were, no money required if the builder's references were satisfactory. B presented to A, the owner, on or about June 27th, a builder, C. After introduction the owner stated to builder the location, dimension of lots and conditions of sale, as above. C gave A his references, when A requested us to call on him the next day for his answer. Broker and builder called and on meeting A, the owner, A said in the following words: I have looked after your references and they are perfectly satisfactory, you are just the kind of man I want, the lots are yours, and took us to a broker who was negotiating his loan. After introduction to the loan broker, D inquired of C how he would want his payments made as buildings progressed. That matter was partly fixed when C informed A that the contract for lots would have to be taken in the name of a member of his family, as he had judgments against him. There were no objections made by A, and when we left them we were to call in a few days to execute contract. On the 1st day of July B called on A about the contract when A says he had decided to let C have two lots at a time, and when the first two houses were built and roofed then he would give C the other two, and A also said he would not pay me any brokerage on the sale until the first payment was made on the buildings. This interview was at A's dwelling house. The same day, July 1st, A meets C at D's office and tells him the same, and told C to have B at D's office the following day, July 2d, at 9.30, to fix up the matter. July 2d B and C were at D's office at time appointed when D told us that A had gone out of the city with his family, and D then gave C a letter of introduction to the capitalist making A the loan for C to arrange his payments; when that was done D called B in his back office and said A had left word with him to say to B his commission on the lots would not be paid [illegible] payment on buildings was made. A returns to New York, Monday, May 27th, and [illegible] Sally Van Ness [illegible] demanding our contract for lots he had sold. A refuses to make contract with C without C puts up $1,000 on each lot. When remonstrated with by B and C he said there has been no sale, for no contracts had been signed. I then demanded my commission when A said I was not entitled to any. The facts above I can prove; can I recover?

Answer.—We are of opinion that you should.—*Law Editor.*

AGENT'S COMMISSION.

To the Editor of THE RECORD AND GUIDE:

Will you kindly let us know, in your next issue, in case a broker rents a house for two years is he entitled to a commission on the gross amount of two years—it so, what per cent—or only on one year?

Answer.—The agent is entitled to a commission on the amount of rent to be paid during the whole term of the lease. The usual and legal rate is 2½ per cent on the first year and 1 per cent for the year following.—LAW EDITOR.

LEASE—RENT PAID BY THE MONTH.

To the Editor of THE RECORD AND GUIDE:

Will you kindly answer the following questions: A friend of mine claims that any lease of property for one or for a term of years, wherein the payment of rent for same is by the month or monthly, that the law looks upon him only as a monthly tenant, and if he moves out at the expiration of say the third month, and if the landlord sues him for the rent due for the balance of the lease, that he cannot recover, as the Court will hold that inasmuch as he paid his rent monthly he is only a monthly tenant, no matter how long a period his lease is for. Will you kindly state in your columns if he is right or wrong?

Answer.—Your friend is wrong. A tenant must pay rent for the whole of the term of his lease. The times of payment are one incident, and the duration of the term is another incident of the lease.—LAW EDITOR.

NEW ELEVATOR CONTRACTS.

The Sprague Electric Elevator Company have recently closed contracts to place three of their high speed elevators in the new building of the Young Men's Christian Association on West 57th street, one in Daniel's store, Broadway and 9th street, one in the new warehouse of Senor Carlos Agote, in the City of Buenos Ayres, S. A., and two in the Canada Life Insurance Co.'s building, Montreal.

HYDRAULIC VERSUS ELECTRIC ELEVATORS.

Acting Secretary of the Treasury Wilke, to meet a statement that the selection of hydraulic elevators for the New York Post-office indicated a general preference for these elevators as against electric elevators, is quoted as saying that the bid on the former was $4,000 less than on the latter, and it was decided to take the cheapest. The relative superiority of the two classes of elevators did not cut any figure in the bids, nor did the action of the Department mean that the hydraulic system is to have the preference over the electric or other systems hereafter in the elevators of Federal buildings.

MORTGAGES.

NOTE.—The arrangement of this list is as follows: The first name is that of the mortgagor, the next that of the mortgagee. The description of the property then follows, then the date of the mortgage, the time for which it was given, and the amount. The general dates used as headings are the dates when the mortgage was handed into the Register's office to be recorded.

Whenever the letters "P. M." occur, preceded by the name of a street, in these lists of mortgages, they mean that it is a Purchase Money Mortgage, and for fuller particulars see the list of transfers under the corresponding date. Whenever the rate is not given, read as 6 per cent.

Mortgages against 23d and 24th Ward properties will be found all together at foot of this list.

BUILDING MATERIAL MARKET

NEW YORK.

BRICKS.—It is getting so that operators do not care to even talk about the situation, but simply say "no change" or "same old story" and let it go at that. 'Tis not a very extensive basis to make a market report from, but it is about the best we can find at the moment. Quotations are at just about the former general range and if a buyer pays above $4 50 it is simply because he wants some particular make which to his mind is worth the premium. There is one thing that looks a little better in the fact that the balance between supply and demand is getting finer. Arrivals sell closer all the while, some days are entirely cleaned out, and advices from along the river state that some manufacturers have stopped shipping and others have stopped work and it is natural to expect further action of similar nature from this time forward, although of course there will be some to keep up production to last possible moment. Quality generally appears very good and it would go hard with any inferior stock offering just now. Actual consumption is increasing as the heavy structures are getting forward.

GLASS.—Trade generally continues good and the market for both plate and cylinder seems to be in excellent form. The following dispatch came from Muncie, Ind., under date of August 29th:

"Representatives of the thirty-one Indiana window glass manufacturing companies met in this city to-day and organized the Western Window Glass Manufacturers' Association, which is to combine to control the output of Indiana's window glass manufactures, estimated to have a yearly value of $8,000,000. The officers were elected as follows: President, J. G. Sayre, of Marion; Vice-President, T. H. Johnson, of Dunkirk; Secretary, L. S. Woodbridge, of Red Key; Treasurer, S. B. Smith, Hartford City, and General Salesman, Thos. F. Hart, Muncie. The office of the association will be in this city."

LATH.—Down to present writing there has been no change in general run of value which stand as one week ago, $1.70@1.75 for cargo parcels. Otherwise, however, the condition of the market seems more promising. It is understood that everything at hand, good, bad and indifferent, has been cleared up, and that between telegrams from here to stop shipments and natural inclinations to do so in face of the price there is fair chance for moderate arrivals up to the time when dealers may feel inclined to come into market again.

LIME.—It appears to be much the same old market, affairs proving greatly unsettled, but whenever the situation is probed a weak undertone becomes evident. Some operators energetically try to hold the market to some sort of steadiness and naturally quote full figures, possibly get them, too, to a moderate extent, but when it comes to what a careful buyer can do by proper negotiation, the rates settle away materially. We have specific report of fresh stock selling this week at 75c. for common and 85c. for finishing, which is lower than generally quoted.

LUMBER.—In all staple descriptions of stock some business is reported. Occasionally quite a good sized contract going to book, and altogether the movement has lost nothing in volume during the week. Still it is an easier matter to find expressions of disappointment over condition of trade than words of positive satisfaction, and in various ways there is room for a great deal of improvement before matters could be brought up to standard of vigorous stimulating animation. Conservative operators admit they have been expecting a revival of general trade at a date too early in the season, and probably attracted in some instances offerings from outside source[illegible] market could have got along without. [illegible] theless it is reasonable to expect that if [illegible] be any gain at all in demand it should come [illegible] the month now opening. Freight charges interior points are advancing, and that [illegible] deney to curtail offerings of some of the [illegible] lumber with which the market has been contending.

White Pine has found more or less demand from all regular lines of custom, but the business is somewhat erratic in development and buyers act independent in a great many cases. More, however, who have had any experience of late are pretty quick to close, when they can find goods of first quality available, and pay full former valuation. By that is meant $13 for standard inch box, and it is probably safe to say that 90 or 95 per cent of stuff selling for less money is faulty according to the reduction made. In some of the deliveries the proportion of mill culls is said to be enormous. Increasing cost of transportation, however, is commencing to tell upon the offerings of low priced stuff and an improved tone is hoped for.

Hemlock remains firm. Some of the advices from primal points would seem to indicate a feeling of dissatisfaction on the part of manufacturers, but mills cutting stuff adapted to wants of this market cannot be suffering, as there is a constant demand for their output, and in some instances orders are booked for future delivery.

Yellow Pine cannot yet be considered in settled satisfactory condition. There is occasionally some cheerful talk over the situation, but it is in the main based upon hopes of business to come at this point and the contingency of support from primal markets, and as yet no pronounced improvement can fairly be recorded. Still there is certainly no loss and should demand make any kind of a respectable demonstration at all the market could hardly fail to promptly strengthen. Export demand appears momentarily less active.

Carolina Pine has been offered a little lower in accord with modifications of freight charges from shipping points in a few instances. The concession made no difference in volume of trade however, as buyers generally move only on the spur of immediate natural necessity and appear in no way desirous of worrying over the future. With outside markets sellers are doing somewhat better and hope for further increase of trade.

Eastern Spruce continues unsettled and a great deal of business has to be transacted upon cost fixed by momentary influences. Still, it seems to be quite evident that nothing in way of narrow stuff can be sold except at very low rates, and especially after the considerable quantity buyers have already consented to handle. On the other hand, however, there is a fair natural inquiry at this and neighboring markets for 9, 10 and 12 inch schedules, and they retain a reasonably steady position. Difficult specials cannot be engaged, except at extreme figures. State 13-foot stuff is firm and selling well, about as fast as offered, with considerable sold ahead, contingent upon ability of mills to cut, as a large number of logs are hung up. West Virginia product is doing very well as it is just what a cautious portion of the trade desires when called upon to calculate quantity closely adapted to current wants.

Hardwood operators still commence most of their reports by speaking well of oak, both in matter of demand and prices obtained, and the wood seems to have an excellent market. Poplar is also meeting fair attention, but only of routine character, and prices are not influenced one way or another. Over other descriptions of stock no special comment is made except that some operators think that elm, which for several purposes has been taking the place of ash, is getting less attention. The offerings have not of late been very large or obtrusive and poor trade results, and hot weather sent many drummers home last month. A revival of demand however, would probably bring them back very quickly. Some exports are taking place on through shipments.

GENERAL LUMBER NOTES

STATE.

The Albany *Argus* says.

Trade continues about as it has all the season, the demand being continuous, but only for small lots which are wanted badly. Pine dealers have, under the circumstances, felt averse to stocking up and not much lumber is coming forward. Canal freights being so low, $1.15 per thousand from Tonawanda, prevents any advance in prices. Building operations in the territory supplied with lumber from the local market are active, and indicate a healthful condition of things.

Spruce and hemlock continue very strong in price and the receipts are absorbed by the demand as fast as received.

THE WEST.

The *Northwestern Lumberman* as follows:

A peculiar feature of the lumber trade in the country at large is that this year wholesale and retail dealers have abstained from stocking up lavishly. They have purchased cautiously and discriminatingly. The rise of demand since the middle of the summer has been wholly because the consumptive requirement has swelled and expanded. There has been no buying and piling up on speculation, because prices continued to remain low, with not much evidence that they would greatly advance. This condition enables the dealers to go into the fall trade on a safe basis. They are generally carrying moderate and well assorted stocks, purchased at minimum prices. Such rises in prices as may occur will redound to their profit. It is altogether a situation of sound health and good promise.

In the line of Northern pine, though purchasing for yard stock has been moderate and painstaking as to quantity, quality and price, it has been sufficient in the aggregate to relieve the mills of this year's output to an extent that promises to leave no great surplus to be carried over at the mills. On Lake Superior, though the Eastern trade has been unusually slow about purchasing stocks, the better cuts have been sold and a large proportion moved to Eastern points. There is a residuum of coarse inch, especially of 4 and 6-inch strips which must be absorbed by the Western market, and such lumber just now is of slow sale. Aside from this surplus the mill operators have been able to make

IF gold shipments are to affect stock market prices the time has not yet come. The reaction seen at the close of this week was no more than would be natural at any time after a week's activity on rising quotations. There are no new developments to account for the sustained strength of prices. People are optimistic where they were pessimistic before. Money is plentiful and trade is good in all parts of the country east of Chicago, and there are reasonable expectations that it will soon be better west of that point; jobbers in the big towns already report an increasing demand in many lines as a result of a large corn crop being placed beyond danger from climatic changes. How cheerful is the spirit that is animating people with money nowadays is shown by the high prices paid for investment securities, and indeed some that are not strictly investment issues but have the favor of buyers by reason of their activity and consequent prominence. The advances in some of the Erie issues illustrate the last part of the foregoing remark. The property is being reorganized for the fifth time; on each of the previous four occasions, as with the present, it was thought that a basis had been reached from which the road would never get into trouble again. But this fact is overlooked or forgotten. There has always been a speculative charm about Erie notwithstanding its disreputable career, which it seems still able to exert and which will probably put the prices of its securities away beyond intrinsic worth, as it has done before. There are many similar cases which exert like influences in times of speculative fever. The thoughtful, however, ponder on the situation and wonder how it can be what it is with the national treasury depending for its gold reserve on the voluntary contributions of a charitable syndicate, the future demands on which as well as its ability to meet them being alike impossible to measure, while the man who does not give any such serious matters a thought goes with the stream and makes money.

MR. CHAMBERLAIN has begun the unfolding of his policy which is to unite the British colonies and possessions to the mother country in indissoluble bonds. A few days ago he told a deputation of Liverpool merchants who waited upon him that he believed state aid should be afforded for public works all over the Empire. Many of the colonies should be regarded as undeveloped estates which can never be developed without Imperial assistance. This opens up an illimitable prospect for the investment of capital under government guarantees. That he spoke with the knowledge and consent of Lord Salisbury and the other members of the Cabinet is highly probable, as it has since been reported that a committee of experts is to be appointed to assist the Secretary for the Colonies with their advices in laying out a plan to effectuate his policy. A blue-book on the development and resources of India has just appeared, and as its preparation must have been ordered by the late administration, it shows how desirous statesmen of all parties are of seeing British capital more concentrated on the upbuilding of the Empire through the development of its colossal if scattered resources. This book states that during the past six years nearly 2,000,000 acres of land have been profitably added to the area of irrigation. One irrigatory work, the Periyar project, is intended to conduct the waters of the Periyar River, by a cutting and tunnel, from the western side of a lofty mountain range which enjoys an abundant rainfall to the eastern side where the rainfall is deficient. In the same six years 4,117 miles of railroad have been opened, the number of cotton mills increased from 89 to 136, the jute mills from 24 to 28, the number of rice-cleaning mills from 43 to 58, the sawmills from 41 to 69, and the paper mills from 4 to 8. The output of coal was 1,388,000 tons in 1887 and 2,529,000 tons in 1893. The increase of the coal product is drawing attention to the magnificent deposits of iron and other ores. The amount of gold mined in Mysore rose from $1,415,000 in 1888 to $7,250,000 in 1893. There are oil fields both in India and Burmah yet to be exploited and large areas still to be reclaimed from the jungle and devoted to the cultivation of wheat, cotton, rice, tea, coffee and many other things. While the political condition of Turkey is occupying a great deal of the public notice, that country's finances naturally come in for some share of attention, with the result of forcing the conclusion that financial complications will come to add trouble to a situation already sufficiently embarrassing. Turkey of all nations has been a most inveterate borrower, without regarding in the least the prices paid for pecuniary accommodations, so that the heavy expenses that have to be incurred owing to the unsettled condition of the so-called Christian provinces must be very burdensome on an exchequer which rarely or never has had enough money from legitimate channels in any one year to meet that year's obligations. France continues to buy Kaffir mining shares in spite of the expostulations of the French press, both serious and comic. In Germany the iron trade is becoming active like the textile trades, but grain prices are going down, creating fears of renewed agrarian agitation. Austria has issued a statement of the national finances which is satisfactory, in that it shows that all obligations have been readily met by income in the past twenty-five years.

THE place of the bicycle in the dwelling or apartment house has at last come up for settlement through the ordinary channel, the law court. It was inevitable that some property-owners would object to having wheels brought into their houses and equally inevitable in the prevalence of their use that the owners would insist on a place being found for them. An action has been begun in the Supreme Court to restrain the owners of an uptown apartment house from prohibiting the daughter of one of their tenants from keeping a bicycle on the premises. This will serve to set property owners thinking what policy they will take toward the whirling "bike." The wisest course would be to make some provisions for the bicycles of tenants and of their friends who visit them on their machines when not in use. In view of the rights of tenants to take their personal effects into their apartments, it is unlikely that the Courts will discriminate against the wheels, and property-owners will serve their own interests by providing separate accommodations for them, or tolerating them in the basements as they do baby-carriages, rather than risk damage to their hallway-walls by having them carried through their houses. General as is the use of the bicycle now, it has not reached the limit of its popularity. A new generation will see every one, without limit of age, condition or sex, using a wheel in some form, and we look soon to see the live property-owner advertising as one of the attractions of his houses or apartments, "bicycle racks, chains and padlocks in the basement."

THERE is a man who has discovered why people—meaning of course some people, because he cannot be referring to the two millions who live contentedly within the shores of the three rivers—prefer to live in the country instead of in New York City. This discovery he has communicated to an evening newspaper. It is that a large proportion of the "middle grade" apartment houses are in a condition which the sanitary code describes as "dangerous to life and detrimental to health." These houses, this gentleman says, "are about as unsafe for occupation as the receiving vaults of Greenwood Cemetery." Let one dog bark and there is soon a canine concert. This communication was followed by others, all like the first anonymous. In one it was asserted that "more than one thousand so-called desirable apartment houses have been examined (by the writer presumably) during the past twelve years and of those more than two-thirds have been rejected on account of insufficient light and ventilation or unsafe plumbing and drainage." These are terrible charges against the builders of apartment houses, but on examination one will be surprised that they are not supported by the records of health and the bills of mortality. If the first of these statements was true New York City would be plague ridden and its death rate equal to that of an Asiatic city in times of cholera. The second writer must have been hard to please, if among the 333 houses that were not rejected because "of insufficient light and ventilation or unsafe plumbing and drainage," he could not find in one in which to rest from his search. It is ridiculous to say that any one cause is driving people from town to country or even to say that one predominates. Increased and cheapened traveling facilities form an important one. The writers of these letters may be surprised to learn that there is a considerable number of people who prefer to live away from town. Others are being driven into the suburbs by the encroachments of business on one-time residence districts. Bettered circumstances carry a good many away from the poorer and reduced circumstances a good many from the richer quarters into the country. The fact that the same money will provide the seclusion and conveniences of a detached house with a patch of garden in the country, which would obtain only an apartment in the city, determines many to accept the former. All

these together we are sure have more to do with the migration into the outlying country than the sanitary character of the accommodations offered in the town.

Vault Privileges.

A dispute has arisen between the Department of Works and Oscar Hammerstein in reference to the vault rights at the latter's new theatre, Broadway and 44th and 45th streets, which if carried through the courts may settle some nice points relating to vault privileges and prove of very great interest to property owners and builders.
